On The Existence And Revelance Of God:

On the Existence and Relevance of God Clement Dore, 2016-07-27 The main aims of this book are to establish that it is rational to believe that God exists to show how God relates to morality and to show how God is causally connected to his creation Dore defends a version of the ontological argument and refutes the atheistic argument from suffering He argues that only God can account for the overridingness of morality He also treats ethical supernaturalism as a type of ethical attitude theory showing how it is related to secular theories which base valid judgments of moral goodness and evil on pro and con attitudes He illustrates precisely how given scientific explanation theistic explanation of the empirical universe can get a foothold His method is to adopt and defend a version of theistic Berkeley like phenomenalism and in that connection a pragmatic instrumentalist interpretation of scientific theories *God and the Problem of Evil* Chad Meister, James K. Dew Jr., 2017-05-16 The problem of evil has produced many responses and elicited vigorous debate In this multiview book five philosophical theologians discuss and defend different solutions to this ancient problem Phillip Cary on the classic view William Lane Craig on Molinism William Hasker on open theism Thomas J Oord on essential kenosis and Stephen Wykstra on skeptical theism

The Joy of Believing: The Vision and Relevance of Lumen fidei and Evangelii gaudium in Indian Context Babu Joseph Kalathil, 2015-02-01 Religion and theology became an occult science for many and belief in the values of life that religions proclaim turned to be useless and void The handing on of the faith has become a deep crisis and a problematic today and has turned to be a burning issue for the contemporary Church What is necessary in the contemporary culture is to develop a counter culture that passionately understands the love of God and sharing it passionately and joyfully with the fellow humans and the world around us We need a counter culture of sharing the truth and love which is God Pope Francis message is none other than this He exhorts for a missionary renewal in the Church and to have a new theological outlook that leads the Church to be a Church of the poor a counter culture of compassionate and tender love When it comes to India the Church a minority in number faces a lot of challenges in its practice and proclamation of faith Globalization and the new economic reforms badly affected the Indian culture which is turning to be secular as well as fundamentalist With a weak presence in many areas the Church in India is struggling to make its presence felt in the nation Here the author is making an attempt to understand the joyful sharing of the Gospel in the Indian context in the light of the first two documents of Pope Francis The author discusses the challenges and ways to face the challenges to be truthful by being in love and faith It will provide a clear understanding to live the faith relying upon God's providence and mercy and will enable the Church to work for the holistic development of humanity **Knowledge, Truth, and Duty** Matthias Steup, 2001-03-01 This volume gathers eleven new and three previously unpublished essays that take on questions of epistemic justification responsibility and virtue It contains the best recent work in this area by major figures such as Ernest Sosa Robert Audi Alvin Goldman and Susan Haak **Cornelius Van Til's Doctrine of God and Its Relevance for Contemporary Hermeneutics** Jason B.

Hunt,2019-09-27 Cornelius Van Til's Doctrine of God and Its Relevance for Contemporary Hermeneutics seeks to answer the question What does Van Til have to do with hermeneutics It is argued that some of the most relevant concerns in the field of contemporary hermeneutics are similar to those addressed by Van Til in the area of apologetics Van Til's approach involved a self-conscious consistency between method and theology proper in order to reason according to the Christian worldview found in Scripture Just as one's apologetic method should be consistent with the theology revealed in the Bible so also should one's hermeneutic This work not only argues that Van Til has an important place in the hermeneutical discussion but also demonstrates his place in terms of the main contours in his doctrine of God In doing so certain influences on evangelical hermeneutics are considered according to consistency with theology proper Lastly a Van Tillian hermeneutic is applied to the often debated issue concerning the New Testament use of the Old Testament

The Clarity of God's Existence Owen Anderson,2008-07-23 The Clarity of God's Existence examines the need for theistic proofs within historic Christianity and the challenges to these since the Enlightenment Historically and scripturally Christianity has maintained that unbelief is inexcusable If failing to know God is a sin the implication is that humans can and should know God Humans should know God because his eternal power and divine nature are clearly revealed in the things that are made And yet Anderson argues more time is spent on avoiding the need for clarity to establish inexcusability than on actually providing an argument or proof Proofs that rely on Aristotle or Plato and that establish a Prime Mover or designer are thought to be sufficient But the adequacy of these not only to prove the God of theism but also to prove anything at all has been called into question by Enlightenment thinkers like David Hume After considering the traditional proofs and tracing the history of challenges to theistic proofs from Hume to Kant and down to the twentieth century Anderson argues that the standard methods of apologetics have failed to sufficiently respond Classical Apologetics Evidentialism Presuppositionalism Reformed Epistemology and others fail to adequately answer the challenges of the Enlightenment If this is the case what is the outcome for Christianity Anderson offers an explanation as to why traditional proofs have failed and for what is necessary to offer a proof that not only responds to Hume and Kant but also establishes the clarity of God's existence The traditional proofs failed precisely in not aiming at the clarity of God's existence and they failed in this because of a faulty view of the goal of Christian life If the blessed life is to be attained in a direct vision of God in heaven then there is little to no reason to ask for more than the bare minimum required to get into heaven justification Furthermore if the highest blessing is this direct vision then the glory of God revealed in his work is considered as less important and even set aside By way of contrast if God's eternal power and divine nature are clearly revealed in his works and the blessing comes in knowing God then it is of the utmost importance for Christianity to demonstrate the clarity of God's existence

VanArragon,2011-07-28 A fundamental question in philosophy of religion is whether religious belief must be based on evidence in order to be properly held In recent years two prominent positions on this issue have been staked out evidentialism which claims that proper religious belief requires evidence and Reformed epistemology which claims that it does not **Evidence and Religious Belief** contains eleven chapters by prominent philosophers which push the discussion in new directions Thevolume has three parts The first part explores the demand for evidence some chapters object to it while others seek to restate it or find space for compromise between Reformed epistemology and evidentialism The second part explores ways in which beliefs are related to evidence that is ways in which the evidence for or against religious belief that is available to a person can depend on that person s background beliefs and other circumstances The third part contains chapters that discuss actual evidence for and against religious belief Evidence for belief in God includes the so called common consent of the human race and the way that such belief makes sense of the moral life evidence against it includes profound puzzles about divine freedom which suggest that it is impossible for a beingto be morally perfect **The God of No Importance? good about Him or are you indifferent Do you have a personal relationship with Him or do you feel He is so distant Is He treated well by those around you or not How should we treat Him Ever wonder Then this book is for you For church goers and non church goers alike author Heidi Dettmann talks about what God did what He is doing and also some secret things that most people don't know Get the facts Anyone who reads this will see God in a fresh new light Heidi Dettmann resides in Middleville Michigan She is wife and mother of two children Her desire is to help people understand how important Biblical and historical literacy is and to return to those life giving principles

God and Moral Law Mark C. Murphy, 2011-11-17 Does God's existence make a difference to how we explain morality Mark C Murphy critiques the two dominant theistic accounts of morality natural law theory and divine command theory and presents a novel third view He argues that we can value natural facts about humans and their good while keeping God at the centre of our moral explanations The characteristic methodology of theistic ethics is to proceed by asking whether there are features of moral norms that can be adequately explained only if we hold that such norms have some sort of theistic foundation But this methodology fruitful as it has been is one sided God and Moral Law proceeds not from the side of the moral norms so to speak but from the God side of things what sort of explanatory relationship should we expect between God and moral norms given the existence of the God of orthodox theism Mark C Murphy asks whether the conception of God in orthodox theism as an absolutely perfect being militates in favour of a particular view of the explanation of morality by appeal to theistic facts He puts this methodology to work and shows that surprisingly natural law theory and divine command theory fail to offer the sort of explanation of morality that we would expect given the existence of the God of orthodox theism Drawing on the discussion of a structurally similar problem that of the relationship between God and the laws of nature Murphy articulates his new account of the relationship between God and morality one in which facts about God and facts about nature cooperate in the explanation of moral law

The Social Significance of Reconciliation in Paul's Theology Corneliu Constantineanu, 2010-04-08 This is an assessment of the social dimension to reconciliation as displayed in Paul's Letter to the Romans Traditional exegetical scholarship has treated Paul's presentation

of reconciliation as referring to reconciliation between people and God and has primarily focused use of the word *katalage* traditionally translated as atonement Constantineanu challenges this view and argues that Paul's understanding of the concept is more complex employing rich symbolism to describe reconciliation with God and between human beings forming together an inseparable reality The discussion is placed within Paul's overall religious social and political contexts showing that an analysis of the social dimension of reconciliation in his thought is both plausible and necessary Constantineanu offers an analysis of two major sections of Romans chapters 5-8 and 12-15 Special emphasis is placed on Paul's use of the story of Jesus for community formation for the shaping of identity values and community practices It is thus demonstrated that for Paul God's reconciling initiative shown in the crucifixion is not only the pronouncement of God's reconciling the world but also the ground and model for reconciliation among human beings It was formerly the Journal for the Study of the New Testament Supplement a book series that explores the many aspects of New Testament study including historical perspectives social scientific and literary theory and theological cultural and contextual approaches The great importance of a religious life considered [by W.
