Fox,Melissa A. Connor,Dick Harmon,2013-05-01 Ever since the Custer massacres on June 25 1876 the question has been asked What happened what REALLY happened at the Battle of the Little Bighorn We know some of the answers because half of George Armstrong Custer s Seventh Cavalry the men with Major Marcus Reno and Captain Frederick Benteen survived the fight but what of the half that did not the troopers civilians scouts and journalist who were with Custer Now because a grass fire in August 1983 cleared the terrain of brush and grass and made possible thorough archaeological examinations of the battlefield in 1984 and 1985 we have many answers to important questions On the basis of the archaeological evidence presented in this book we know more about what kinds of weapons were used against the cavalry We know exactly where many of the men fought how they died and what happened to their bodies at the time of or after death We know how the troopers were deployed what kind of clothing they wore what kind of equipment they had how they fought Through the techniques of historical archaeology and forensic anthropology the remains and grave of one of Custer s scouts Mitch Boyer have been identified And through geomorphology and the process of elimination we know with almost 100 percent certainty where the twenty eight missing men who supposedly were buried en masse in Deep Ravine will be found **Tank Units,**
