Written for all those who work professionally with women or who are concerned with the psychology of women, this book provides a survey of empirical, psychological studies of the female life cycle.

The text contains two introductory chapters on physical and psychological sex differences, particularly evaluating sex differences in emotionality, dependency, aggression, and analytical ability. Freudian theory of feminine development is outlined and a summary of the evidence bearing on it is presented.

On the Psychology of Women Julia Ann Sherman,1971 **On the Psychology of Women** ,1973 On the Psychology of Women Julia A. Sherman,1974 Introduction To Library Research In Women's Studies Susan E. Searing,2019-02-26 This annotated bibliography evaluates the traditional reference aids available in most college libraries in terms of their usefulness in women s studies research highlighting issues and problems of central concern to researchers in women s studies **American Psychiatry After World War II (1944-1994)** Roy W. Menninger,John C. Nemiah,2008-11-01 The history of psychiatry is complex reflecting diverse origins in mythology cult beliefs astrology early medicine law religion philosophy and politics This complexity has generated considerable debate and an increasing outflow of historical scholarship ranging from the enthusiastic meliorism of pre World War II histories to the iconoclastic revisionism of the 1960s to more focused studies such as the history of asylums and the validity and efficacy of Freudian theory This volume intended as a successor to the centennial history of American psychiatry published by the American Psychiatric Association in 1944 summarizes the significant events and processes of the half century following World War II Most of this history is written by clinicians who were central figures in it In broad terms the history of psychiatry after the war can be viewed as the story of a cycling sequence shifting from a predominantly biological to a psychodynamic perspective and back again all presumably en route to an ultimate view that is truly integrated and interacting all the while with public perceptions expectations exasperations and disappointments In six sections Drs Roy Menninger and John Nemiah and their colleagues cover both the continuities and the dramatic changes of this period The first four sections of the book are roughly chronological The first section focuses on the war and its impact on psychiatry the second reviews postwar growth of the field psychoanalysis and psychotherapy psychiatric education and psychosomatic medicine the third recounts the rise of scientific empiricism biological psychiatry and nosology and the fourth discusses public attitudes and perceptions of public mental health policy deinstitutionalization antipsychiatry the consumer movement and managed care The fifth section examines the development of specialization and differentiation exemplified by child and adolescent psychiatry geriatric psychiatry addiction psychiatry and forensic psychiatry The concluding section examines ethics and women and minorities in psychiatry Anyone interested in psychiatry will find this book a fascinating read **Professional Training for Feminist Therapists** Ellen Cole,Esther D Rothblum,2019-03-25 Here is a unique collection of personal memoirs from feminist therapists which provides a revealing look at their professional training experiences This superb volume offers a rare glimpse at the struggles of these women both as therapists and feminists as they continue to develop professionally while maintaining their own identities These candid accounts clearly recount the realities of professional training for the feminist therapist as a combination of painful memories active struggle impromptu friendship and humor The stories comprising this extraordinary volume cover several decades ranging from the experiences of therapists trained in the 1930s to those of women currently

undergoing therapy training Share the trials and triumphs of these seventeen women who faced professional personal and ethical challenges during their professional therapy training Read about the variety of experiences in the heterogeneous group of feminist therapists who describe the circumstances of their training including the account of mother and daughter therapists who compare their training of the 1930s and the 1970s that of one woman who entered graduate school in the 1950s and was prohibited from specializing solely in research one woman whose teaching was sabotaged by the old boy network one woman s experience of coming out as a lesbian in medical school during a psychiatric residency program one therapist s double minority status as female and Japanese American a Black student s confrontation with the alienation and invisibility of her presence in an all white classroom and a first year graduate student who describes her transition from a women s studies undergraduate focus to a traditional male dominated research institution Students and instructors in clinical psychology counseling and social work will find the accounts in Professional Training for Feminist Therapists Personal Memoirs a valuable resource for exploring the experiences of women in professional training for feminist therapy Established therapists will value this work for the clarity and insight that comes from reflection as will women who undergo professional training in future generations
