Rogo, 2005-12 There is no mystery greater than that posed by the poltergeist The noisy ghosts of legend and folklore represent some of the most complex phenomena known to but generally ignored by science Psychological research indicates that poltergeists focus on unhappy families who tend to repress and sublimate massive amounts of inner aggression and anger This anger tends to build within the mind of one of the family members until it explodes outward in the form of the poltergeist But is that the whole answer On the Track of the Poltergeist is D Scott Rogo's autobiographical account of his search to witness and document these rare phenomena Backed by this experience and research he is able to present a critical reevaluation of what we think we know about the poltergeist Rogo also explains how to respond when confronted with a poltergeist outbreak and how to carry out field investigations of the phenomenon D Scott Rogo 1950-1990 was one of the most widely respected writer-journalists covering the field of parapsychology as well as an active scientific investigator Educated at the University of Cincinnati and San Fernando Valley State College Rogo held a unique position in parapsychology and made many contributions to the field that deserve recognition He served as a visiting researcher at the Psychical Research Foundation then in Durham North Carolina and at the Division of Parapsychology and Psychophysics of the Maimonides Medical Center in Brooklyn New York He published papers on ESP in referred parapsychological journals and was active in field investigations of hauntings and poltergeists Rogo was also a leading authority on the history of psychical research the breadth of his historical knowledge of the field was unsurpassed Over the course of more than two dozen published books Rogo sought to broaden the range of topics worthy of paranormal research **The Cultural Construction of Monstrous Children** Simon Bacon, Leo Ruickbie, 2020-09-30 The Cultural Construction of Monstrous Children raises important questions at the heart of society and culture and through an interdisciplinary trans-cultural analysis presents important findings on socio-cultural representations and embodiments of the child and childhood At the start of the 21st new anxieties constellate around the child and childhood while older concerns have re-emerged mutated and grown stronger But as historical analysis shows they have been ever-present concerns This innovative and interdisciplinary collection of essays considers examples of monstrous children since the 16th century to the present spanning real life and popular culture to exhibit the manifestation of the Western cultural anxiety around the problematic anomalous child as naughty dangerous or just plain evil The book takes an inter- and multidisciplinary approach drawing upon fields as diverse as sociology psychology film and literature to study the role of the child and childhood within contemporary Western culture and to see the historic ways in which each discipline intersects and influences the other **Randi's Prize** Robert McLuhan, 2010 James The Amazing Randi is a stage magician who says he has a million dollars for anyone who can convince
