Storytelling and the Sciences of Mind David Herman,2017-02-24 An transdisciplinary exploration of narrative not just as a target for interpretation but also as a means for making sense of experience itself With Storytelling and the Sciences of Mind David Herman proposes a cross fertilization between the study of narrative and research on intelligent behavior This cross fertilization goes beyond the simple importing of ideas from the sciences of mind into scholarship on narrative and instead aims for convergence between work in narrative studies and research in the cognitive sciences The book as a whole centers on two questions How do people make sense of stories And How do people use stories to make sense of the world Examining narratives from different periods and across multiple media and genres Herman shows how traditions of narrative research can help shape ways of formulating and addressing questions about intelligent activity and vice versa Using case studies that range from Robert Louis Stevenson s Dr Jekyll and Mr Hyde to sequences from The Incredible Hulk comics to narratives told in everyday interaction Herman considers storytelling both as a target for interpretation and as a resource for making sense of experience itself In doing so he puts ideas from narrative scholarship into dialogue with such fields as psycholinguistics philosophy of mind and cognitive social and ecological psychology After exploring ways in which interpreters of stories can use textual cues to build narrative worlds or storyworlds Herman investigates how this process of narrative worldmaking in turn supports efforts to understand and engage with the conduct of persons among other aspects of lived experience *Pack Up the Moon* Rachael Herron,2014 A poignant novel about loss lies and the unbreakable bonds of family Three years after a horrible tragedy took her son and tore her family apart artist Kate Monroe is beginning to pick up the pieces of her life and move on At a gala showcasing her triumphant return to the art world Kate s world is rocked again when the daughter she gave up for adoption twenty two years ago introduces herself Pree is the child Kate never knew and never forgot But Pree has questions that Kate isn t sure she s ready to answer For one thing she never told Pree s father her high school sweetheart and ex husband Nolan that they had a daughter For another Kate hasn t spoken to Nolan for three years not since the accident which took their nine year old son from them But to keep Pree from leaving forever Kate will have to confront the secrets that have haunted her since her son died and discover if the love of her family is strong enough to survive even the most heartbreaking of betrayals Conversation Guide Included Martin Luther's Theology Oswald Bayer,2008-11-03 Forty years of in depth research on Martin Luther s theology uniquely qualifies Oswald Bayer to present this comprehensive introduction to Luther s thought written for those lacking an academic background in theology Bayer s noteworthy study explores the basics of Luther s understanding of theology discussing his response to the philosophy of science tradition the formula by which he studied theology and the basic philosophy that informed him Bayer then takes Luther s stance on Christian dogmatics and ethics and applies it to our own theological understanding in the modern age With such a complete Lutheran dogmatic concept the first of its kind offered the stunning inner consistency of Luther s
