Sh*t Rough Drafts Paul Laudiero, 2014-04-15 The book that imagines Bloodshed and Hugs as the title for War and Peace and the Bible as being too preachy per editor s note Sh t Rough Drafts collects fake misguided early drafts of classic books screenplays and contemporary literature creating visions of alternate works that would exist had the authors not come to their senses What if F Scott Fitzgerald had gone with the title The Coolest Gatsby How would The Hunger Games change if Peeta were armed only with blueberry muffins If the Man of Steel s S stood for Sexyman MacBeth Moby Dick Harry Potter Sense and Sensibility The Lord of the Rings and many more are each presented as if they were the actual typed or handwritten pages by the authors themselves revealing the funny and frightful works they might have been with a little less capable judgment Praise for Paul Laudiero s Sh t Rough Drafts With potty humor and bad jokes Laudiero makes us feel that we are capable of the next great American novel If only we can get past our shit rough drafts HuffPost The account features whimsical takes on the proverbial rough first draft that lurks behind every great book from the Bible to Fifty Shades of Grey Daily Dot

Bush, City, Cyberspace John Foster, Ern Finnis, Maureen Nimon, 2005-06-01 Aimed at academic professional and general readers Bush city cyberspace provides a snapshot of the state of Australian children s and adolescent literature in the early twenty first century and an insight into its history In doing so it promotes a sense of where Australian literature for young people may be going and captures a literary and critical mood with which readers in Australia and beyond will identify The title of the work is intended to capture the fact that the field has changed dramatically in the century and a half

that Australian children's literature has existed from the bush myths and heroism that inform the past and the present through the recognition that the vast majority of authors and readers live in cities to the third wave of cyberliterature that incorporates multimedia hypertext weblinks and e books none of which lessens the enduring enthusiasm of practitioners and readers for books Bush city cyberspace is not meant to be an encyclopedic volume Rather well known recent and or award winning works have been emphasised with the addition of others where these help to illuminate particular points The book is similar in coverage and approach to Australian Children's Literature An Exploration of Genre and Theme written by the same three authors and published by the Centre for Information Studies in 1995 In the intervening period much has changed in the field notable examples including the blurring of the dividing line between quality and popular literature the blending of genres the rise of a truly indigenous literature the demise to a significant extent of Outbackery in fiction the acceptance of multiculturalism as the norm and the advent of the literature of cyberspace with new methods and the sheer speed of communication between writer and reader All these trends and others are reflected in this work *Fictions of Home* Martin Mühlheim, 2018-04-23 This study aims to counter right wing discourses of belonging It discusses key theoretical concepts for the study of home focusing in particular on Marxist feminist postcolonial and psychoanalytic contributions The book also maintains that postmodern celebrations of nomadism and exile tend to be incapable of providing an alternative to conservative xenophobic appropriations of home In detailed readings of one film and six novels a view is developed according to which home as a spatio temporal imaginary is rooted in our species being and as such constitutes the inevitable starting point for any progressive politics **Transactions and Journal of Proceedings** Dumfriesshire and Galloway Natural History and Antiquarian Society, 1910 **Toward a Future Theatre** Caridad Svich, 2021-11-18 Featuring conversations with theatre makers in the US and UK during the first 8 months of the Covid 19 lockdown this collection reveals the innovations in digital theatre as artists companies and theatres had to adjust to the restrictions and formulate new ways of working and reaching audiences Besides documenting in their own words the work that was generated this book captures the artists dreams for a new post Covid reality in which theatre is reimagined and issues of racial and economic injustice are addressed With conversations grouped under 5 broad areas a host of theatre makers candidly discuss the present and the future of theatre R evolution How should theatre evolve rather than re set What kind of field could this be if the arts sector is to survive in the US and UK and if white supremacist classist ableist and patriarchal structures are dismantled and acts of regeneration and reformation occur What does theatre look like at the local and hyper local level and when working with young people and communities at risk What are the challenges of creating work in the digital realm and or exploring socially distanced performance in new ways How may theatre address social inequalities and be a place for acts of political and artistic resistance How has the pandemic galvanised their commitments to communities arts advocacy use of languages on the stage and page and considerations of the living archive Acts of communion with audiences readers fellow artists students

and within ensembles and collectives How do we find new ways to gather and make when liveness and the shared experience are challenged **Edward Bond Letters** Edward Bond,1994 Edward Bond Letters 5 contains over thirty letters and papers covering Bond s controversial views on violence and justice plays writers and directors and a postscript that is Bond s discussion of the funeral of Diana Princess of Wales As always the explosive content of these letters applies to Bond s plays and society as a whole We learn through these absorbing letters his attitude to violence Bond believes that all violence is the manifestation of an unbalanced and dangerous society As with the four preceding volumes in this collection Edward Bond is critical of our present theatre but at the same time his observations are useful in indicating how theatre can be changed

Bond s illustrations provide a lively accompaniment to the letters **Best Monologues from The Best American Short Plays, Volume Two** William W. Claude Morley,1899 *Adapting Chekhov* J. Douglas Clayton,Yana Meerzon,2013 This book considers the hundred years of re writes of Anton Chekhov s work presenting a wide geographical landscape of Chekhovian influences in drama The volume examines the elusive quality of Chekhov s dramatic universe as an intricate mechanism an engine in which his enigmatic characters exist as the dramatic and psychological ciphers we have been de coding for a century and continue to do so Examining the practice and the theory of dramatic adaptation both as intermedial transformation from page to stage and as intramedial mutation from page to page the book presents adaptation as the emerging genre of drama theatre and film This trend marks the performative and social practices of the new millennium highlighting our epoch s need to engage with the history of dramatic forms and their evolution The collection demonstrates that adaptation as the practice of transformation and as a re thinking of habitual dramatic norms and genre definitions leads to the rejuvenation of existing dramatic and performative standards pioneering the creation of new traditions and expectations As the major mode of the storytelling imagination adaptation can build upon and drive the audience s horizons of expectations in theatre aesthetics Hence this volume investigates the original and transformative knowledge that the story of Chekhov s drama in mutations offers to scholars of drama and performance to students of modern literatures and cultures and to theatre practitioners worldwide

Astonish Me! Dominic Dromgoole,2022-10-27 A SUNDAY TIMES BEST FILM AND THEATRE BOOK OF 2022 Anyone in love with the arts will fall in love with this beautifully written and fascinating book Kathy Burke Astonish Me is an adrenaline

charged rollercoaster through history's seismic first nights exploring how individual artists can change and shape the story of culture and allow us to see ourselves in new ways. It tells of times when the air between people seems to alter as art achieves profound change across the globe and across history. Dominic Dromgoole has created a radical and fresh canon. He begins in New York in 1963 as Lorraine Hansberry remakes American theatre and a nation's perception of race. And then as the lights go up we find ourselves in Renaissance Florence watching Michelangelo's David being hauled into the Piazza della Signoria. The dust settles and we are transported to the birth of theatre in fifth century Athens and then to Paris to meet with Diaghilev and Stravinsky for the Rite of Spring. We witness kabuki's creation as a radical women's performance in Kyoto, the Sex Pistols shattering Thatcherite Britain at Manchester's Free Trade Hall and watch as Hitchcock directs Psycho. **Play Directing** Damon Kiely, 2022-09-28. Play Directing: The Basics introduces theatre students to a step-by-step process for directing plays, including advice on devising. Beginning with a historical overview of directing, this book covers every aspect of the director's job from first read to closing night. Practical advice on finding plays to produce, analysing scripts, collaborating with the design team, rehearsing with actors, devising company creations, and opening a show are peppered with advice from working professionals and academic directors. A practical workbook, short exercises, helpful websites, and suggested reading encourage readers towards a deeper study of the art of directing. This book empowers high school and early college students interested in theatre and directing to find their own voice, develop a practice, and refine their process. *The Idiot and the Odyssey* Joel Stratte-McClure, 2008. When inquisitive American journalist Joel Stratte-McClure decides to walk around the Mediterranean Sea, we're in for an exhilarating adventure. As a 30-year expatriate in France, he explores the coast, countryside, and regional cultures, as well as his own mind, with compulsive vigour. Armed with a copy of Homer's *Odyssey*, he re-opens this great book for us as he ponders life, divorce, Buddhism, alcoholism, the art of trekking, and a vast collection of weird, wicked, wonderful people along the way. This is a trip to get into. *The Fictional Arts* Eli Rozik, 2011. This book is a comprehensive introduction to the analysis of fictional worlds in a set of fifteen arts, including theatre, opera, figurative ballet, mime, audio drama, figurative drawing, painting, figurative sculpture, strip cartoon, animation, puppet theatre, still photography, photo novel, silent movie, cinema, and TV drama. Due to their extreme differences, the combination of different arts in the description of a single fictional world and the translation from one medium to another are considered problematic. While such differences do not concern fictional creativity, which applies the same poetic and rhetoric rules whatever the medium, it is widely accepted that the problem lies in the extreme differences between the mediums of description. In contrast, this study explores their common grounds. These arts are iconic in nature, and if iconicity is re-defined in terms of imprinting images on matter and mediation of language, and as reflecting the common roots of these mediums in a preverbal mode of imagistic thinking, therein is an explanation of their possible combination and translation from one medium to another without impairing the receivers' reading, interpreting, and experiencing capacities. Eli Rozik analyses numerous fictional worlds in all these arts.

produced during the last 2 500 years of artistic creativity especially in theatre art and cinema This book presupposes that principles underlying the generation of descriptions of fictional worlds by the theatre medium as proposed in two earlier works *Generating Theatre Meaning* and *Fictional Thinking* also apply to all the iconic fictional arts The text book format of the volume has been purposefully designed to address the needs of undergraduate and postgraduate students suiting the structure of university courses and providing all necessary information to access the images artistic works discussed in the volume via the web and Google This inter art journey from theatre theory to the arts is compelling reading for all those involved and engaged in artistic creativity Remember the Seagulls Ernest Lombard,2004-09 *New York Magazine* ,1975-03-03 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea **The Stray Lamb** Thorne Smith,1929
