**Handbook of Religion and the Authority of Science** Jim R. Lewis, Olav Hammer, 2010-11-19 There has been a significant but little noticed aspect of the interface between science and religion namely the widespread tendency of religions to appeal to science in support of their truth claims Though the appeal to science is most evident in more recent religions like Christian Science and Scientology no major faith tradition is exempt from this pattern Members of almost every religion desire to see their truths supported by the authority of science especially in the midst of the present historical period when all of the comforting old certainties seem problematic and threatened The present collection examines this pattern in a wide variety of different

religions and spiritual movements and demonstrates the many different ways in which religions appeal to the authority of science The result is a wide ranging and uniquely compelling study of how religions adapt their message to one of the major challenges presented by the contemporary world     *The Life-Changing Power of Group Psychometry* Kim McCauley Ph.D.,2025-01-15 The meditation psychometry group that I started in my own home is unique Although it s just one version among a myriad of other kinds of spiritual circles it s very special so special that most of the women in the group call it life changing I m writing this book to share some of these wonderful experiences and guide others who might want to create a similar group of their own My hope is that you remember three key takeaways from this book 1 First everyone has the ability to give a helpful message We can label it as the product of intuition Spirit God our higher self inner guidance or sensory information that works like a radio signal from our body s electromagnetic field There is nothing to fear with that Nothing 2 Second no one needs to have any experience in being a psychic reader to participate 3 Third and most importantly meeting with others for the purpose of sharing helpful intuitive information deepens each person s sense of belonging selfconfidence spiritual insight and personal growth I hope that as you read you ll be picturing yourself seated among us and growing with us I also hope that eventually you will become part of a group that meets regularly or consider starting a group of your own
