Opposites Everywhere:

Pan-Worldly Things Craig Matheson, 2023-07-26 Pan Worldly Things The Hermetic Realm of the Opposites comprises twelve lyrical poems designed to prompt readers to entertain an amalgam of concerning matters through a rhymical rhyming standard The cadenced framework is measured for offering a sound counterbalancing sway upon certain solemn subjects bantered about the book The book is founded in endless wonder over why Cosmic Things seem metaphysically flanked by two contrasting poles such as with Cosmic Matter Planetary Realms magnetically set between North and South Poles Cosmic Matters Political Realms rhetorically set between Far Left and Far Right speech and Cosmic Concepts Mental Realms mentally set between Absolutist and Open Minded perspectives Overall the book's Socratic design is intended to energize more interest in contesting certain narratives rather than to end dialogue through scare tactics Parallels

V.S.Sury, 2020-06-04 The phenomena and events which occur incessantly in Nature are countless But on careful observation we can notice that some forms of common threads run across different platforms or fields These fascinating parallels can be found amidst the world of human affairs also apart from the natural scientific laws and theories Look at how a very large unit or organization or organism or machine is very conveniently and smartly assembled out of many smaller units The beauty is that the smaller constituent units work independently and at the same time are also a part of the whole Take human individuals and as a parallel the theme of this book the physical house in which they dwell Individuals come together and make families Families live together and make groups or organizations or societies They in turn combine and grow into states states join up and become a nation All nations of course make up the world whether they like it or not Physical purely material entities like houses and possessions run in a parallel stream with those of human ideologies The same method is employed by Nature in building its vast empire Fundamental particles join and exist together to make up atoms Atoms join and make up molecules Out of the molecules all of planet Earth is made Planets and a star join and make a solar system Millions of them combine and make a galaxy Billions and trillions of them make a universe like ours There are innumerable such examples in the world we live in Go ahead and begin to turn the pages **Opposites Everywhere: Sign Language**

The Quest George Robert Stow Mead, 1917 **Aliens** George Edgar Slusser, 1987

How and when does there come to be an anthropology of the alien? This set of essays, written for the eighth J. Lloyd Eaton Conference on Fantasy and Science Fiction, is concerned with the significance of that question. Anthropology is the science that must designate the alien if it is to redefine a place for itself in the universe, according to the Introduction. The idea of the alien is not new. In the Renaissance, Montaigne's purpose in describing an alien encounter was exorcism: man-kind was the savage because the artificial devices of nature controlled him. Shakespeare's version of the alien encounter was incorporation: his character of Caliban is brought to the artificial political world of man and incorporated into the body politic. The essays in this volume show, in their general orientation, that the tribe of Shakespeare still in literary studies at least outnumbers that of Montaigne. These essays show the interrelation of the exorcising possibilities to the internal soundings of the alien encounter within the human mind and form. This book is divided into three parts. *Searchings*: The Quest for the Alien includes *The Aliens in Our Mind* by Larry Niven, *Effing the Ineffable* by Gregory Benford, *Border Patrols* by Michael Beehler, *Alien Aliens* by Pascal Ducommun, and *Metamorphoses of the Dragon* by George E. Slusser. *Sightings*: The Aliens among Us includes *Discriminating among Friends* by John Huntington, *Sex Superman*, *Sociobiology* by Joseph D. Miller, *Cowboys and Telepaths* by Eric S. Rabkin, *Robots* by Noel Perrin, *Aliens in the Supermarket* by George R. Guffey, and *Aliens R U S* by Zoe Sofia. *Soundings*: Man as the Alien includes *H. G. Wells*, *Familiar Aliens* by John R. Reed, *Inspiration and Possession* by Clayton Koelb, *Cybernauts in Cyberspace* by David Porush, *The Human Alien* by Leighton Brett Cooke, *From Astarte to Barbie* by Frank McConnell, and *An Indication of Monsters* by Colin Greenland.
