Principles and Values for College and University Administration Earl Vivon Pullias, Leslie Wilbur, 1984

Planning for Higher Education, 1985 **College Student Journal**, 1985 Academic Ethos Management

Agata Stachowicz-Stanusch, 2012-12-04 This topical and much needed book constitutes an important part of the debate on the integrity in an academic context as a sine qua non of responsible management education. Like you we've all been listening to the highly publicized corporate scandals and instances of management misconduct that have eroded public faith. Simultaneously management scholars and educators have begun to question the assumptions underlying the traditional management education which in their view not only contributed to a recent moral crisis but has also failed to prepare students and executives for coping with the responsible leadership challenges and ethical dilemmas that face managers in contemporary corporations. This book discusses with stimulating examples how universities should bring alive their core values. Using case studies and examples from universities from all over the world you'll learn real practical advice and guidance which explain in detail how you and other administrators and educators should discover, articulate and institutionalize implementation, securing and controlling by creating adequate policies, procedures, process etc. university core values into academic daily activities and create a foundation for academy integrity. **Campus Crisis Management**

Eugene L. Zdziarski, Norbert W. Dunkel, J. Michael Rollo, 2020-12-29 Campus Crisis Management is a practical resource that helps campus administrators evaluate, revise or establish a comprehensive crisis management plan appropriate for their college or university. Including contributions from renowned practitioners at all levels, this fully revised new edition contains the must-have information on crisis management such as: How to develop a comprehensive crisis management system; The different types of crises using the crisis matrix; The structure, operation and training of a crisis team; Strategies for working with the media; New chapters addressing behavioral intervention teams, active shooter situations; Title IX guidance; campus demonstrations; outbreaks of infectious and contagious diseases; and special event management.
