Archetype A Natural History of the Self first published in 1982 was a ground breaking book the first to explore the connections between Jung s archetypes and evolutionary disciplines such as ethology and sociobiology and an excellent introduction to the archetypes in theory and practical application as well C G Jung s archetypes of the collective unconscious have traditionally remained the property of analytical psychology and have commonly been dismissed as mystical by scientists But Jung himself described them as biological entities which if they exist at all must be amenable to empirical study In the work of Bowlby and Lorenz and in studies of the bilateral brain Anthony Stevens has discovered the key to opening up this long ignored scientific approach to the archetypes originally envisaged by Jung At last in a creative leap made possible by the cross fertilisation of several specialist disciplines psychiatry can be integrated with psychology with ethology and biology The result is an immensely enriched science of human behaviour In *Archetype Revisited* Stevens considers the enormous cultural social and intellectual changes that have taken place since the publication of the original edition and includes An updated chapter on The Archetypal Masculine and Feminine reflecting recent research findings and

developments in feminist thinking Commentary on the intrusion of neo Darwinian thinking into psychology and psychiatry
Analysis of what has happened to the archetype in terms of our understanding of it and our responses to it This Classic
Edition of the book includes a new introduction by the author
