## Printing Inks:

The Printing Ink Manual Robert Leach, Ray Pierce, 2007-03-20 The first edition of the Printing Ink Manual was published by the Society of British Printing Ink Manufacturers in 1961 to fill the need for an authoritative textbook on printing technology which would serve both as a training manual and a reliable reference book for everyday use The book soon became established as a standard source of information on printing inks and reached its fourth edition by 1988 This the fifth edition is being published only five years later so rapid has been the development in technology The objective of the Printing Ink Manual remains unchanged It is a practical handbook designed for use by everyone engaged in the printing ink industry and the associated industries It provides all the information required by the ink technical for the day to day formulation of printing inks It supplies the factory manager with details of the latest equipment and manufacturing methods including large scale production and gives guidance on achieving quality assessment and total quality management specifications Care has been taken to maintain the value of the Manual for training both technical personnel and others who require some knowledge of inks Readers with little scientific knowledge will not find difficulty in using the Manual but sufficient chemistry and physics have been included to provide an explanation of the underlying principles and theories governing the behaviour of inks for use by the advanced technologist Suppliers of raw materials substrate manufacturers printers and print users will find the book a valuable source of information

*The Printing Ink Manual* Robert Leach, 2012-12-06 The Printing Ink Manual was first published in 1961 under the auspices of the Society of British Printing Ink Manufacturers with the object of providing an authoritative work on printing ink technology This the fourth edition continues that purpose and presents a comprehensive study of the current state of the art in the ink industry For those starting in the printing ink industry it is a textbook dealing with all aspects of the formulation and manufacture of printing ink For the ink technician it is a practical manual and useful source of reference For printers and users of printed material the manual supplies helpful information on the nature and behaviour of ink both on the printing press and as the finished print Readers with a little scientific knowledge will have no difficulty in using the manual but as in previous editions sufficient chemistry and physics have been introduced to assist the advanced technician and research scientist
