Wildlife Conservation in China Richard B. Harris,2014-12-18 Very little is known about the issue of wildlife conservation within China Even China specialists get a meager ration of stories about pandas giving birth in zoos or poachers in some remote setting being apprehended But what does the future hold for China s wildlife In this thoughtful work the leading U S expert on wildlife projects in Western China presents a multi faceted assessment of the topic Richard B Harris draws on twenty years of experience working in China and incorporates perspectives ranging from biology through Chinese history and tradition to interpret wildlife conservation issues in a cultural context In non technical language Harris shows that particularly in its vast western sections where most species of wildlife still have a chance to survive China has adopted a strongly preservationist hands off approach to wildlife without confronting the larger and more difficult problem of habitat loss This policy treats wildlife conservation as a strictly technical problem and thus prioritizes captive breeding to meet the demand for animal products while ignoring the manifold cultural social and economic dimensions that truly dictate how wild animals will fare in their interaction with the physical and human environments The author concludes that any successes this policy achieves will be temporary *American Book Publishing Record* ,1978 *Tragedy in the Making* Mzwandile P. Ntsonta,2012-07-27 The book is entitled *Tragedy In The Making* Its written after he the author experienced suffering pain struggle and poverty for a very long time in his life because of wrong beliefs he subscribed to wrong decisions and choices he have made The truth is that people are overwhelmed by what they are going through in their daily living People are trying so hard to make life work and no matter how hard they try they keep on failing Because they are living their lives outside the parameters of Gods will for their lives *Tragedy in the Making* is trying to live the life we have designed for ourselves versus

failing to live the life that God has designed for us When you keep doing things in your own way instead of Gods way you wont be able to manage your lifethat is a promise The source of the suffering in this book is the result of mankind not comprehending the purpose and the plan of God for creating them When I observe and look around in the world today I see a lot of ongoing suffering pain struggle and poverty in Gods people as well I believe you can agree with me when I say Some of the things we see daily in this world are heartbreaking Most leaders are responsible for the suffering and struggle that we see in peoples lives Whether be the heads of states heads of institutions or heads of families Somehow we are where we are today because someone has led us there The solution in your suffering sorrow pain and struggle can only be found in one man only and his name is Jesus Christ He came to reconcile us with the Father He came to restore us into our original state and mend a broken relationship between us and God our creator
