The Law Times, 1875 **Prisoner of Time** Caroline B. Cooney, 1999 Tod Lockwood has never wanted to be anyone's knight in shining armor In fact he wants to avoid having anything to do with girls at least for the present But that's before Devonny Stratton steps into his life out of the nineteenth century As for sixteen year old Devonny she has no plans for marriage until her father arranges to wed to the contemptuous but well connected Lord Winden Devonny has only one hope Someone must rescue her Can Tod Lockwood be Time's answer to her prayers Life never seems simple to Devonny but do the solutions to her problems await her in the future Or will she only become a prisoner of a different time Albany Law Journal, 1890 Material Detention Conditions, Execution of Custodial Sentences and Prisoner Transfer in the EU Member States Gert Vermeulen, 2011 In 2008 for the European Union the introduction of the Framework Decision the principle of mutual recognition to judgments in criminal matters imposing custodial sentences or measures involving deprivation of liberty for the purpose of their enforcement sparked discussions as to whether the practical operation of the instrument would be compatible with its very objective being the enhancement of detained persons social rehabilitation prospects Transferring detained people back to their respective Member State of residence and or nationality within the mutual recognition framework is somewhat precarious in light of the variety of Member States legal and prison systems In this context and following a call for tender by the European Commission the authors of this book conducted the largest study to date on Member States material detention conditions early conditional release provisions and sentence execution modalities

,1915 The Order of Terror Wolfgang Sofsky,2013-06-17 During the twelve years from 1933 until 1945 the concentration camp operated as a terror society In this pioneering book the renowned German sociologist Wolfgang Sofsky looks at the concentration camp from the inside as a laboratory of cruelty and a system of absolute power built on extreme violence starvation terror labor and the business like extermination of human beings Based on historical documents and the reports of survivors the book details how the resistance of prisoners was broken down Arbitrary terror and routine violence destroyed personal identity and social solidarity disrupted the very ideas of time and space perverted human work into torture and unleashed innumerable atrocities As a result daily life was reduced to a permanent struggle for survival even as the meaning of self preservation was extinguished Sofsky takes us from the searing unforgettable image of the Muselmann Auschwitz jargon for the walking dead to chronicles of epidemics terror punishments selections and torture The society of the camp was dominated by the S S and a system of graduated and forced collaboration which turned selected victims into accomplices of terror Sofsky shows that the S S was not a rigid bureaucracy but a system with ample room for autonomy The S S demanded individual initiative of its members Consequently although they were not required to torment or murder prisoners officers and guards often exploited their freedom to do so in passing or on a whim with cause or without The order of terror described by Sofsky culminated in the organized murder of millions of European Jews and Gypsies in the death factories of Auschwitz and Treblinka By the end of this book Sofsky shows that the German concentration camp system cannot be seen as a temporary lapse into barbarism Instead it must be conceived as a product of modern civilization where institutionalized state run human cruelty became possible with or without the mobilizing feelings of hatred *Guardhouses and Confinement Facilities* United States.
