Prisons A Study Of Vulnerability:

Vulnerability and Incarceration Elizabeth Victor, 2019-07-09 In light of a history of exploitation by researchers most of the limited scholarship on prisoners in medical ethics is focused on precaution and protections Vulnerability and Incarceration Evaluating Protections for Prisoners in Research explores the best ways for researchers to balance these concerns with the rights of incarcerated persons to both participate in medical research and benefit from medical and scientific progress The book examines the historical and contemporary regulatory landscape governing prisoner participation in research and the concept of vulnerability in play when classifying prisoners as vulnerable Elizabeth Victor discusses how this concept might preclude a prisoner's positive right to participate in research from being acknowledged She also addresses the differences in oversight between public and private prisoners and how the shift to privatized prisons compounds the vulnerability of prisoners in the United States

Prisons, Punishment, and the Family Rachel Condry, Peter Scharff Smith, 2018 Every year millions of families are affected by the imprisonment of a family member Children of imprisoned parents alone can be counted in millions in the USA and in Europe It is a bewildering fact that while we have had prisons for centuries and the deprivation of liberty has been a central pillar in the Western mode of punishment since the early nineteenth century we have only relatively recently embarked upon a serious discussion of the severe effects of imprisonment for the families and relatives of offenders and the implications this has for society This book draws together some of the excellent research that addresses the impact of criminal justice and incarceration in particular upon the families of offenders It assembles examples of recent and ongoing studies from eight different countries in order to not only learn about the secondary effects and collateral consequences of imprisonment but also to understand what the experiences and lived realities of prisoners families means for the sociology of punishment and our broader understanding of criminal justice systems While punishment and society scholarship has gained significant ground in recent years it has often remained silent on the ways in which the families of prisoners are affected by our practices of punishment This book provides evidence of the importance of including families within this scholarship and explores themes of legitimacy citizenship human rights marginalization exclusion and inequality

Prison Violence Kimmet Edgar, Ian O'Donnell, Carol Martin, 2014-02-04 Prisons are dangerous places and assaults threats theft and verbal abuse are pervasive attributable both to the characteristics of the captive population and to an institutional sub culture which promotes violence as a means of resolving conflicts Yet the crimes perpetrated by prisoners on other prisoners have attracted little interest and criminological research has contributed little to an understanding of situations in which violence arises in penal institutions This book seeks to remedy this and to address and answer a number of key questions how do features of the prison social setting shape conflicts what social norms guide the decision to use violence what are the personal and social consequences of spending months or years in places where distrust and anxiety are normal how do staff respond to the dangers that are part of daily life in many prisons is it possible to identify

factors associated with risk and resilience and what methods of handling conflicts do prisoners use that could prevent violence Prison Violence adopts a distinctive approach to answering these questions and is based on extensive research including interviews with both victims and perpetrators of prison violence it pioneers a conflict centred approach seeking to understand the pathways into and out of situations where there is potential for violence focusing on interpersonal and institutional dynamics rather than on individual psychological factors

Caring for the Vulnerable: Perspectives in Nursing Theory, Practice, and Research Barbara Anderson, 2008 Organized into seven units concepts nursing theories research practice programs teaching learning and policy this text offers a broad focus on vulnerability and vulnerable populations in addition to extending nurses thinking on the theoretical formulations that guide practice It is a timely and necessary response to the culturally diverse vulnerable populations for whom nurses must provide appropriate and precise care

Social Science Research Ethics in Africa Nico Nortjé, Retha Visagie, J. S. Wessels, 2019-05-23 This book gives a voice to debates surrounding social science research ethics in Africa and brings them together in a coherent form to assist readers in being at the forefront of the discussions The book gives an overview of the importance of research ethics in social sciences as well as articulating the African influence on the subject matter Subsequently it looks into specific frameworks and tools that researchers can apply in the process of doing research Last but not least it also takes an in depth look at traditional ethical issues pertaining to research in social sciences through the lens of the African continent This is the first book on social science research ethics in an African context and an indispensable resource for researchers students policy makers and research institutions in or interested in African research ethics

Catholic Social Thought and Prison Ministry Elizabeth Phillips, Férdia J. Stone-Davis, 2024-03-29 This book explores how the themes and insights of official Catholic Social Teaching CST and broader Catholic social thought might illuminate and be illuminated by a deeper engagement with the context of prisons What resources might Catholic social thought bring to pastoral work in prisons And what might listening to the prison context bring to Catholic social thought The volume includes constructive proposals for the relationship between CST and prison ministry as well as critical questions about the role and shortcomings of prisons CST and chaplaincy It contains contributions by scholars and practitioners of theology criminology and prison chaplaincy from the UK US and Ireland and reflects on the inextricable relationship of social action and pastoral care in the work of prison ministry

The Oxford Handbook of Research Ethics Ana S. Iltis, Douglas MacKay, 2024 The development of new pharmaceutical products and behavioral interventions aimed at improving people's health as well as research that assesses the efficacy and cost effectiveness of public policies such as policies designed to improve children's education or reduce poverty depends on research conducted with human participants It is imperative that research with human subjects is conducted in accordance with sound ethical principles and regulatory requirements Featuring 45 original essays by leading research ethicists The Oxford Handbook of Research Ethics offers a critical overview of the ethics of human subjects research within multiple

disciplines and fields including biomedicine public health psychiatry sociology political science and public policy

Handbook on Prisons Yvonne Jewkes, Ben Crewe, Jamie Bennett, 2016-02-23 The second edition of the Handbook on Prisons provides a completely revised and updated collection of essays on a wide range of topics concerning prisons and imprisonment Bringing together three of the leading prison scholars in the UK as editors this new volume builds on the success of the first edition and reveals the range and depth of prison scholarship around the world The Handbook contains chapters written not only by those who have established and developed prison research but also features contributions from ex prisoners prison governors and ex governors prison inspectors and others who have worked with prisoners in a wide range of professional capacities This second edition includes several completely new chapters on topics as diverse as prison design technology in prisons the high security estate therapeutic communities prisons and desistance supermax and solitary confinement plus a brand new section on international perspectives The Handbook aims to convey the reality of imprisonment and to reflect the main issues and debates surrounding prisons and prisoners while also providing novel ways of thinking about familiar penal problems and enhancing our theoretical understanding of imprisonment The Handbook on Prisons Second edition is a key text for students taking courses in prisons penology criminal justice criminology and related subjects and is also an essential reference for academics and practitioners working in the prison service or in related agencies who need up to date knowledge of thinking on prisons and imprisonment **Clinical Ethics in Anesthesiology**

Vulnerable Populations Susana Castaños-Cervantes, Angélica Ojeda García, Cristina L. Reitz-Krueger, 2024-10-18 This book explores vulnerability in many forms and among diverse understudied vulnerable populations worldwide from different perspectives particularly from non western contexts It examines characteristics and profiles of vulnerable populations intervention strategies and recommendations for public policy actions in developing and emerging countries As the world becomes increasingly connected and localities become more diverse researchers and practitioners working to ameliorate human suffering cannot rely on one size fits all solutions especially when it comes to the most vulnerable members of society The book argues the need for interdisciplinary research and action and it challenges popular discourse on vulnerable groups and intervention strategies in Western societies and developed countries In particular it includes a Latin American perspective seldom considered in research about vulnerability worldwide With interdisciplinary contributors from four continents working in diverse fields such as social psychology pedagogy community psychology medicine sociology clinical psychology anthropology and social work this edited collection brings together theoretical and applied research evidence on three vulnerable population categories physical vulnerability psychological vulnerability and social vulnerability The book not only presents exhaustive solutions to any of the problems discussed therein but it also offers examples of the considerations that should be afforded when working with groups who have unique vulnerabilities Among the topics covered in the chapters Poor Doctor Patient Communication How Social Vulnerability Turns into Physical Vulnerability Art Therapy Focus to Decrease Vulnerability Condition and Increase Sense of Community Pedagogical Guidelines for Vulnerability in Postmodernity Working with Vulnerable Populations Final Reflections and Implications Working with Vulnerable Populations A Multicultural Perspective presents case studies original research and literature reviews that would engage students and professionals interested in social work psychology community organizing public health allied health professions and other helping professions Readers will gain insight into how work being conducted in various localities speaks to the challenges they may face in their own work or research By exploring the unique issues facing vulnerable populations around the globe we can apply those same considerations in our own communities

Suicide Prevention Robert J. Kosky, Hadi S. Eshkevari, Robert D. Goldney, Riaz Hassan, 2007-05-08 Proceedings of the XIXth Congress of the International Association for Suicide Prevention held in Adelaide Australia March 23 27 1997

Nutrition in Vulnerable Groups Enbo Ma, Yukiko Wagatsuma, 2024-09-19 Nutrition requirements vary in children pregnancy and the elderly for the physiological difference in the body To maintain good health and prevent diseases the adequacy of nutrients is essential and adherence to healthy diets recommended needs to be monitored Uncertain physical social cultural and economic situations limit access to nutritious intake and impact health both in the developing e g wasting stunting underweight and mineral vitamin related malnutrition and developed e g obesity worlds However a healthy diet is not only determined by food safety and quality but also by food education nutritional practice during the life stages and food availability and accessibility to the population This is true in

developing countries but also in developed ones where vulnerable groups including people living in conditions of poverty unemployment lack of schooling people with forms of addiction and ethnical minorities struggle to adhere to healthy diets and choose cheaper and often unhealthy options As a consequence excessive consumption of limited nutrients and inappropriate supplementation becomes as unhealthy as not consuming enough In the past three years the pandemic of COVID 19 has put significant troubles on human society exacerbating hard life conditions in vulnerable groups and worsening their adherence to healthy lifestyles and food choices Therefore the nutrition and diet related health issues in vulnerable people must be highlighted and followed up

The Palgrave Handbook of Prison and the Family Marie Hutton, Dominique Moran, 2019-06-11 This handbook brings together the international research focussing on prisoners families and the impact of imprisonment on them Under researched and under theorised in the realm of scholarship on imprisonment this handbook encompasses a broad range of original interdisciplinary and cross national research This volume includes the experiences of those from countries often unrepresented in the prisoner s families literature such as Russia Australia Israel and Canada This broad coverage allows readers to consider how prisoners families are affected by imprisonment in countries embracing very different penal philosophies ranging from the hyper incarceration being experienced in the USA to the less punitive more welfare orientated practices under Scandinavian exceptionalism Chapters are contributed by scholars from numerous and diverse disciplines ranging from law nursing criminology psychology human geography and education studies Furthermore contributions span various methodological and epistemological approaches with important contributions from NGOs working in this area at a national and supranational level The Palgrave Handbook of Prison and the Family makes a significant contribution to knowledge about who prisoners families are and what this status means in practice It also recognises the autonomy and value of prisoners families as a research subject in their own right

Caring for the Vulnerable Mary De Chesnay, Barbara A. Anderson, Barbara Ann Anderson, 2016 Caring for the Vulnerable Perspectives in Nursing Theory Practice and Research Fourth Edition explores vulnerability from the perspective of individuals groups communities and populations The text specifically addresses how vulnerability affects the field of nursing and its care givers and focuses on how to work with these populations Written from a global perspective the Fourth Edition provides an overview of treatments and issues as well presents a basic structure for caring for the vulnerable with the ultimate goal of providing culturally competent care

Geographical Research with 'Vulnerable Groups' Nadia von Benzon, Lorraine Van Blerk, 2019-10-23 Drawing on varied expertise from specialisms across the sub disciplines of social and cultural geography this book seeks to interrogate what it is to do research with people widely considered to be vulnerable Written from an emancipatory standpoint this book addresses the ethical and practical challenges that face researchers working with marginalised people With chapters exploring the authors own experiences of working with a wide range of participants including homeless people indigenous peoples drug addicts learning disabled children and prisoners the book

draws on research undertaken by academics across the globe Geographical Research with Vulnerable Groups unpicks and interrogates each part of the research process from obtaining ethics permission from review bodies to recruitment and gatekeepers through to dissemination of research findings Throughout the discussion authors foreground the relational identities of the actors in the research process highlighting the ways in which institutional attempts to protect marginalised people from risk perpetuate a perceived and even material vulnerability This honest and empirically driven text will provide an illuminating insight for researchers embarking on research with marginalised people The chapters in this book were originally published as a special issue of Social Cultural Geography

Mental Health, Crime and the Impact of Criminal Justice on the Vulnerable Bevis E. McNeil, Maria De Angelis, Anthony Ó Donnghaile-Drummond, John Gregson, 2024-10-12 This book addresses a variety of key issues surrounding mental health and the criminalization of certain individuals and groups by the Criminal Justice System and the impact this can have on their mental health It challenges the assumption that people with mental health problems are in some way a risk or danger to society and themselves and therefore have a greater propensity for committing crimes when in reality they are more likely to become the victims of crime It argues that the misguided correlations drawn between mental health and crime as perpetuated by the media policy makers clinicians agents of the criminal justice system and ultimately the public lead to the criminalization of the vulnerable Furthermore the criminalization stigmatization stereotyping labelling and discrimination endured by people with mental health problems has a devastating effect on their mental health and well being and has negative consequences for society as a whole Each chapter focuses on a specific area relating to mental health identifying key themes and issues as well as offering recommendations for improvements with regards to the treatment and support for people with mental health problems In addition the treatment of offenders with mental health problems who engage with the criminal justice system and its services such as the police prison and probation services is critically evaluated

Understanding Prisoner Victimization Tom Daems, Elien Goossens, 2024-04-16 People in prison are usually and often exclusively seen and approached as persons who have committed one or more crimes and who have to pay their debt to society However while in prison they often get victimised themselves Research has demonstrated that prisons tend to be unsafe environments where various forms of victimisation take place These forms of victimisation often go unnoticed and usually do not attract much interest from policymakers or society at large prisoners are indeed far from ideal victims This book is devoted to understanding prisoner victimisation in particular from a European perspective Chapters in this volume focus on recent empirical work in a number of European countries Belgium England and Wales and the Netherlands These chapters are complemented with a series of reflections from a conceptual methodological and human rights perspective Chapter The Victim Offender Overlap in Prisons and Associated Challenges for Prison Managers is available open access under a Creative Commons Attribution 4.0 International License via link.springer.com

Exploring Vulnerability in the Criminal Justice System in England and Wales Laura

Farrugia, 2024-08-01 Providing a comparative analysis of both vulnerable witnesses and vulnerable suspects this book discusses the increasingly difficult issue faced by many in modern policing forensic psychology criminology and social justice studies Examining recent legislation guidance current psychological theory and contemporary research and literature the book enhances the currently limited knowledge of vulnerability in the criminal justice system CJS through the presentation of theoretical understanding case law and real life case studies It also explores how vulnerable victims witnesses and suspects progress through the system in England and Wales from initially being identified as vulnerable through to the measures used to assist them during interviews and at trial In doing so it provides a historical overview of how vulnerability has previously been considered and how effective those with vulnerabilities were perceived to be in actively participating in the CJS Further chapters consider how vulnerable individuals are safeguarded the differences in services available to them and what this may lead to in terms of effective participation in the system How vulnerable groups are interviewed what is considered best practice and whether such practices are suitable also come under scrutiny Exploring Vulnerability in the Criminal Justice System in England and Wales is important reading for students and scholars of policing forensic psychology criminology and social justice studies It will also be of use for any organisations that conduct internal investigations such as non government organizations security and defence organisations and corporate organizations
