transformations in Italy's penal system to make the key analytical observation that conditions of overcrowding have become the new normal under which the modern prison system continues to operate and deliver punishment. Engaging with the politics of crowding thus entails a direct and pertinent engagement with the modern state's politics of criminal justice and social control. Worldwide over the last decades a growing number of jurisdictions have prison systems operating above or to the limit of their capacity yet little attention has been paid to these elements in the analysis of prison politics and day to day functions. By exploring the crowding issue this book offers an original and interesting insight into the politics and dynamics characterising contemporary prison systems. The hypothesis of this book is that the politics of prison crowding have become the template for the daily administration of the prison system which incorporates not just policy and rules but day to day functions and practices regulating life behind bars. Through interviews in modern Italian prisons the book brings to light a radical redefinition of a carceral system that harshens the delivery of punishment while justifying this exacerbation of pain by adding new bureaucratic logic to the administration of the penal system within a narrative of compliance to human rights standards. By shedding new light on prison politics to open new critical perspectives and research paths *The Politics of Prison Crowding* offers a fundamental tool to scholars, students and all professional policymakers and practitioners dealing with prison policies and the politics of justice.

Prison Life Writing Simon Rolston, 2021-06-30 *Prison Life Writing* is the first full-length study of one of the most controversial genres in American literature. By exploring the complicated relationship between life writing and institutional power, this book reveals the overlooked aesthetic innovations of incarcerated people and the surprising literary roots of the U.S. prison system. Simon Rolston observes that the autobiographical work of incarcerated people is based on a conversion narrative, a story arc that underpins the concept of prison rehabilitation and that sometimes serves the interests of the prison system rather than those on the inside. Yet many imprisoned people rework the conversion narrative the way they repurpose other objects in prison. Like a radio motor retooled into a tattoo gun, the conversion narrative has been redefined by some

authors for subversive purposes including questioning the ostensible emancipatory role of prison writing critiquing white supremacy and broadly reimagining autobiographical discourse An interdisciplinary work that brings life writing scholarship into conversation with prison studies and law and literature studies Prison Life Writing theorizes how life writing works in prison explains literature s complicated entanglements with institutional power and demonstrates the political and aesthetic innovations of one of America s most fascinating literary genres **The Role of Prisons in Society** United States.
