Building Art Paul Goldberger, 2017-11-14 From Pulitzer Prize winning critic Paul Goldberger a full fledged critical biography of Frank Gehry undoubtedly the most famous architect of our time Fascinating An informative startling journey into the inner sanctums of modern architecture s power structure The New York Times Book Review Riveting Full of little known facts about the Pritzker Prize winner that will surprise the most knowledgable Gehry philes Architectural Digest Goldberger follows Gehry from his humble origins the son of working class Jewish immigrants in Toronto to the heights of his extraordinary career He explores Gehry s relationship to Los Angeles a city that welcomed outsider artists and profoundly shaped him in his formative years He surveys the full range of his work from the Bilbao Guggenheim to the Walt Disney Concert Hall in L A to the architect s own home in Santa Monica which galvanized his neighbors and astonished the world He analyzes his carefully crafted persona in which an amiable surface masks a driving ambition And he discusses his use of technology not just to change the way a building looks but to revolutionize the very practice of the field Comprehensive and incisive Building Art is a sweeping view of a singular artist and an essential story of architecture s modern era **The Pritzker Architecture Prize, 1996**, 1996 The Pritzker Architecture Prize, 1998 **The Pritzker Architecture Prize, 1998** Renzo Piano, 1999 **The Pritzker Architecture Prize, 1999** Norman Foster, 2000 Oh No He Didn't! Brilliant Women and the Men Who Took Credit for Their Work Wendy J. Murphy, JD, 2024-09-24 Don t you hate it when someone takes credit for another person s idea It happens a lot and the people who lose out are often women This book tells the stories of women whose inventions discoveries and creations were credited to men women like Zelda Fitzgerald the novelist painter and playwright who was more than F Scott s wife and Margaret Knight who invented the flat bottomed paper bag but saw the patent go to a man who stole off to the Patent Office with her idea By telling the stories of the brilliant women artists inventors scientists architects and mathematicians who were denied their due Oh No He Didn t will help all women tackle obstacles and create a kinship of understanding that will inspire and transcend generations The Pritzker Architecture Prize, 1993 **Original Copies** Bianca Bosker, 2013-01-31 A 108 meter high Eiffel Tower rises above Champs Elys es Square in Hangzhou A Chengdu residential complex for 200 000 recreates Dorchester England An ersatz Queen s Guard patrols Shanghai s Thames Town where pubs and statues of Winston Churchill abound Gleaming replicas of the White House dot Chinese cities from Fuyang to Shenzhen These examples are but a sampling of China s most popular and startling architectural movement the construction of monumental themed communities that replicate towns and cities in the West Original Copies presents the first definitive chronicle of this remarkable phenomenon in which entire townships appear to have been airlifted from their historic and geographic foundations in Europe and the Americas and spot welded to Chinese

cities These copycat constructions are not theme parks but thriving communities where Chinese families raise children cook dinners and simulate the experiences of a pseudo Orange County or Oxford In recounting the untold and evolving story of China's predilection for replicating the greatest architectural hits of the West Bianca Bosker explores what this unprecedented experiment in duplitecture implies for the social political architectural and commercial landscape of contemporary China With her lively authoritative narrative the author shows us how in subtle but important ways these homes and public spaces shape the behavior of their residents as they reflect the achievements dreams and anxieties of those who inhabit them as well as those of their developers and designers From Chinese philosophical perspectives on copying to twenty first century market forces Bosker details the factors giving rise to China's new breed of building Her analysis draws on insights from the world's leading architects critics and city planners and on interviews with the residents of these developments

Gender Studies in Architecture Dörte Kuhlmann, 2014-04-11 Analyzing a range of ideas from biological evolutionary and anthropological theories to a variety of feminist psychoanalytic poststructuralist and constructivist discourses this book provides a comprehensive introduction to the problematics of gender and power in architectural and urban design Topics range from conceptions of postulated matriarchal architecture in Old Europe to contemporary technologies of control from the mechanisms of gaze to architectural performatives from the under representation of women in the planning profession to the integration of gender issues to the curriculum The particular strengths of the book lie in its inclusiveness and critical analysis It is not a partisan defence of feminism or any other theory but a critical introduction to the issues relating to gender Moreover the conclusions reach beyond a narrow gender studies perspective to social and ethical considerations that are unavoidable in any responsible architectural or urbanistic practice With its broad range and balanced analysis of different theories the book is suitable as an overview of gender studies in architecture and useful for any designer who is concerned with the social effects of the built environment *Hearts of the City* Herbert

Muschamp, 2013-12-11 From the late Herbert Muschamp the former architecture critic of The New York Times and one of the most outspoken and influential voices in architectural criticism a collection of his best work The pieces here from The New Republic Artforum and The New York Times reveal how Muschamp's views were both ahead of their time and timeless He often wrote about how the right architecture could be inspiring and uplifting and he uniquely drew on film literature and popular culture to write pieces that were passionate and often personal changing the landscape of architectural criticism in the process These columns made architecture a subject accessible to everyone at a moment when because of the heated debate between modernists and postmodernists architecture had become part of a larger public dialogue One of the most courageous and engaged voices in his field he devoted many columns at the Times to the lack of serious new architecture in this country and particularly in New York and spoke out against the agenda of developers He departed from the usual dry didactic style of much architectural writing to playfully for example compare Frank Gehry's Guggenheim Bilbao to the body

of Marilyn Monroe or to wax poetic about a new design for Manhattan's manhole covers One sees in this collection that Muschamp championed early on the work of Frank Gehry Rem Koolhaas Zaha Hadid Thom Payne Frank Israel Jean Nouvel and Santiago Calatrava among others and was drawn to the theoretical writings of such architects as Peter Eisenman Published here for the first time is the uncut version of his brilliant and poignant essay about gay culture and Edward Durrell Stone's museum at 2 Columbus Circle Fragments from the book he left unfinished whose title we took for this collection A Dozen Years Metroscope and Atomic Secrets are also included Hearts of the City is dazzling writing from a humanistic thinker whose work changed forever the way we think about our cities and the buildings in them *The New York Times Guide to Essential Knowledge* The New York Times, 2011-10-25 A COMPLETE REVISION AND THOROUGH UPDATING OF THE ULTIMATE REFERENCE FROM THE NEWSPAPER OF RECORD A comprehensive guide offering insight and clarity on a broad range of even more essential subjects Whether you are researching the history of Western art investigating an obscure medical test following current environmental trends studying Shakespeare brushing up on your crossword and Sudoku skills or simply looking for a deeper understanding of the world this book is for you An indispensable resource for every home office dorm room and library this new edition of *The New York Times Guide to Essential Knowledge* offers in depth explorations of art astronomy biology business economics the environment film geography history the Internet literature mathematics music mythology philosophy photography sports theater film and many other subjects This one volume is designed to offer more information than any other book on the most important subjects as well as provide easy to access data critical to everyday life It is the only universal reference book to include authoritative and engaging essays from New York Times experts in almost every field of endeavor *The New York Times Guide to Essential Knowledge* provides information with matchless accuracy and exceptional clarity This new revised and expanded third edition covers major categories with an emphasis on depth and historical context providing easy access to data vital for everyday living Covering nearly 50 major categories and providing an immediate grasp of complex topics with charts sidebars and maps the third edition features 50 pages of new material including new sections on Atheism Digital Media Inventions and Discoveries Endangered Species Inflation Musical Theater Book Publishing Wikileaks The Financial Crisis Nuclear Weapons Energy The Global Food Supply Every section has been thoroughly updated making this third edition more useful and comprehensive than ever It informs educates answers illustrates and clarifies it's the only one volume reference book you need **Girls Can!** Tora Pruden, Marissa Sebastian, Paige Towler, 2020-10-06 Get ready to smash stereotypes overcome odds and achieve your goals This powerful book combines biographical profiles on amazing women myth busting science advice on achieving great things and exclusive interviews to prove that girls really can do anything Have you ever heard someone say Girls can't do that Get ready to put that idea to rest once and for all Fantastic photographs and an eye catching design pair with riveting diverse tales of both famous and little known women who made their mark in leadership sports the arts the sciences and more Advice
