Private Power And Centralization In France:

Private Power and Centralization in France Ezra N. Suleiman, 2014-07-14 By examining the relationship between the notaires members of a significant French legal profession with deep roots in French history and the state Ezra Suleiman demonstrates that clientelism exists and may be more dangerous in a centralized state than in a decentralized one Originally published in 1988 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 Private Power and Centralization in France Ezra N.

Suleiman, 1987-01-01 **The Politics of Cultural Policy in France** K. Eling, 1999-02-08 The Politics of Cultural Policy in France offers a lively and iconoclastic account of cultural policy making in France Focusing on the policies of the Socialist governments of 1981-86 and 1988-93 the book suggests that policy towards the arts was shaped less by an all powerful state than by influential professional interest groups In addition to presenting unusual insights into a policy area which has rarely been studied by political science The Politics of Cultural Policy in France thus provides significant revisions to conventional views of relations between the state and civil society in France **Redefining the French Republic** Alistair Cole, Gino

Raymond, 2006-06-12 This text investigates continuity and change in contemporary French politics society and culture It draws on contributions that reflect a variety of methodological approaches ranging from theoretical speculations and modelling to the interpretation of fieldwork data Politics, Power, and Bureaucracy in France Ezra N.

Suleiman, 2015-03-08 The interaction between politics and administration has generally been ignored by students of bureaucracy Ezra N Suleiman however views the French bureaucracy as a dynamic and integral part of the French political system Using survey data as well as historical and contemporary sources he concentrates on the highest officials and examines their relationships with both the political sector and the society After identifying the place of the state in French society the author deals with the recruitment of higher civil servants using comparative data to explain why the high social origins of French civil servants have remained constant His investigation of the important institutional mechanisms of the central administration stresses that even a centralized and powerful bureaucracy must be seen as a complex of institutions rather than as a monolithic organization Finally the author deals with the relations of the higher civil servants with other groups in society and with the regime of the Fifth Republic Originally published in 1974 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich

scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
