**The People's War** Robert W. Thurston, Bernd Bonwetsch, 2000 The People's War lifts the Stalinist veil of secrecy to probe an almost untold side of World War II the experiences of the Soviet people themselves Going beyond dry and faceless military accounts of the eastern front of the Great Patriotic War and the Soviet state's one dimensional heroic People this volume explores how ordinary citizens responded to the war Stalinist leadership and Nazi invasion Drawing on a wealth of archival and recently published material contributors detail the calculated destruction of a Jewish town by the Germans and present a chilling picture of life in occupied Minsk They look at the cultural developments of the war as well as the wartime experience of intellectuals for whom the period was a time of relative freedom They discuss women's myriad roles in combat and other spheres of activity They also reassess the behavior and morale of ordinary Red Army troops and offer new conclusions about early crushing defeats at the hands of the Germans defeats that were officially explained as cowardice on the part of high officers A frank investigation of civilian life behind the front lines The People's War provides a detailed balanced picture of the Stalinist USSR by describing not only the command structure and repressive power of the state but also how people reacted to them cooperated with or opposed them and adapted or ignored central policy in their own ways By putting the Soviet people back in their war this volume helps restore the range and complexity of human experience to one of history's most savage periods

*Terrible Fate* Benjamin Lieberman, 2013-12-16 In the modern Greek city of Thessaloniki the ruins of a vast Jewish cemetery lie buried under the city's university Nearby is the site of the childhood home of one of the founders of the modern Turkish state These are tantalizing reminders of what was once the bustling cosmopolitan city of Salonica home not just to Greeks but to thousands of Sephardic Jews Turks Bulgarians and Armenians living and working peacefully alongside one another Thessaloniki is just one example among many of what used to be Over the past two centuries ethnic cleansing has remade the map of Central and Eastern Europe and the Middle East transforming vast empires that embraced many ethnic groups into nearly homogenous nations Towns and cities from Germany to Turkey still show traces of the vanished and nearly forgotten ethnic and religious communities that once called these places home In *Terrible Fate* Benjamin Lieberman describes the violent transformations that occurred in Salonica and hundreds of other towns and cities as the Ottoman Russian Austro-Hungarian and German empires collapsed to be reborn as the modern nation states we know today His book is the first comprehensive history of this process that has involved the murder and forced migration of tens of millions of people Drawing upon eyewitness accounts contemporary journalism and diplomatic records Lieberman's story sweeps across the continent taking the reader from

**Brezhnev's Folly** Christopher J. Ward,2009-06-01 Heralded by Soviet propaganda as the Path to the Future the Baikal Amur Mainline Railway BAM represented the hopes and dreams of Brezhnev and the Communist Party elite of the late Soviet era Begun in 1974 and spanning approximately 2 000 miles after twenty nine years of halting construction the BAM project was intended to showcase the national unity determination skill technology and industrial might that Soviet socialism claimed to embody More pragmatically the Soviet leadership envisioned the BAM railway as a trade route to the Pacific where markets for Soviet timber and petroleum would open up and as an engine for the development of Siberia Despite these aspirations and the massive commitment of economic resources on its behalf BAM proved to be a boondoggle a symbol of late communism s dysfunctionality and a cruel joke to many ordinary Soviet citizens In reality BAM was woefully bereft of quality materials and construction and victimized by poor planning and an inferior workforce Today the railway is fully complete but remains a symbol of the profligate spending and inefficiency that characterized the Brezhnev years In Brezhnev s Folly Christopher J Ward provides a groundbreaking social history of the BAM railway project He examines the recruitment of hundreds of thousands of workers from the diverse republics of the USSR and other socialist countries and his extensive archival research and interviews with numerous project workers provide an inside look at the daily life of the BAM workforce We see firsthand the disorganization empty promises dire living and working conditions environmental damage and acts of crime segregation and discrimination that constituted daily life during the project s construction Thus perhaps we also see the final irony of BAM that the most lasting legacy of this misguided effort to build Soviet socialism is to shed historical light on the profound ills afflicting a society in terminal decline **New States, New Politics** Ian Bremmer,Ray Taras,1996-12-28 Since its publication in 1993 Nations and Politics in the Soviet Successor States edited by Ian Bremmer

and Ray Taras has established itself internationally as the genuinely comprehensive systematic and rigorous analysis of the nation and state building processes of the fifteen states that grew out of the 1991 collapse of the Soviet Union New States New Politics Building the Post Soviet Nations was first published in 1997 and succeeds and replaces the editors earlier book with a fresh collection of specially commissioned studies from the world s foremost specialists Far from eradicating tensions among the former Soviet peoples the disintegration of empire saw national minorities rediscovering long suppressed identities The contributors to New States New Politics bring together historical and ethnic backgrounds with penetrating political analysis to offer an intriguing record of the different roads to self assertion and independence being pursued by these young nations
