Rational Womans Guide To Self Defense:

The Rational Woman's Guide to Self-defense Mary Conroy, 1975 **Breaking the Gender Code** Georgina Hickey, 2023-12-12 Historian Georgina Hickey investigates challenges to the code of urban gender segregation in the 20th century focusing on organized advocacy to make the public spaces of American cities accessible to women She traces waves of activism from the Progressive Era with its calls for public restrooms rooming houses anti spitting ordinances covered bus stops employment bureaus lunch rooms and women police through and beyond second wave feminism and its focus on the creation of alternative women only spaces In doing so Hickey looks at how class race and sexuality shaped activists agendas and shaped women s experiences of urban space and the gains and limitations of this activism She uses a wide range of archival material from press coverage to neighborhood association records to etiquette manuals and studies a variety of cities from Minneapolis to Atlanta Throughout she draws connections between the vulnerability of women in public spaces real and presumed and contemporary debates surrounding rape culture bathroom bills and domestic violence Ultimately Hickey unveils the institutionalized hierarchies that have made women feel uncomfortable in American cities and the both strikingly successful and incomplete initiatives activists undertook to open up public space to women The manuscript is organized into eight chapters that move chronologically through the twentieth century with an epilogue that reflects on how these issues manifest in the present *Real Knockouts* Martha McCaughey, 1997-07 Unprecedented numbers of American women are today learning how to knock out maim even kill men who assault them From behind the scenes of gun ranges martial arts dojos fitness centers offering Cardio Combat and in padded attacker courses like Model Mugging *Real Knockouts* demonstrates how self defense trains women out of the femininity that makes them easy targets for men s abuse And yet much feminist thought like the broader American culture seems deeply ambivalent about women s embrace of violence even in self defense Investigating the connection between feminist theory and a woman s balled fist McCaughey found self defense culture to embody literally a new kind of feminism one that will change forever the way we think of gender politics the female body and feminism itself *The High-Value Woman's Guide to Self-Protection* HEBooks, *The High Value Woman s Guide to Self Protection* Tired of finding yourself trapped in relationships that drain your energy doubt your worth or leave you questioning your instincts You re not alone and it s not your fault This book is your ultimate playbook for spotting manipulation and toxicity before they take root in your life Packed with razor sharp insights practical tools and empowering strategies *The High Value Woman s Guide to Self Protection* shows you how to trust your intuition set unshakable boundaries and walk away from harmful dynamics while there s still time Because you deserve love respect and a life free from chaos Let HEBooks show you how to protect your heart reclaim your power and step into the fearless unstoppable version of yourself you were born to be Your future self will thank you Are you ready *Rape On The Public Agenda* Maria Bevacqua, 2000-08-10 An examination of the history development and impact of the feminist anti rape movement *Carceral*

Capitalism Jackie Wang, 2018-03-02 Essays on the contemporary continuum of incarceration the biopolitics of juvenile delinquency predatory policing the political economy of fees and fines and algorithmic policing What we see happening in Ferguson and other cities around the country is not the creation of livable spaces but the creation of living hells When people are trapped in a cycle of debt it also can affect their subjectivity and how they temporally inhabit the world by making it difficult for them to imagine and plan for the future What psychic toll does this have on residents How does it feel to be routinely dehumanized and exploited by the police from Carceral Capitalism In this collection of essays in Semiotext e's Intervention series Jackie Wang examines the contemporary incarceration techniques that have emerged since the 1990s The essays illustrate various aspects of the carceral continuum including the biopolitics of juvenile delinquency predatory policing the political economy of fees and fines cybernetic governance and algorithmic policing Included in this volume is Wang's influential critique of liberal anti racist politics Against Innocence as well as essays on RoboCop techno policing and the aesthetic problem of making invisible forms of power legible Wang shows that the new racial capitalism begins with parasitic governance and predatory lending that extends credit only to dispossess later Predatory lending has a decidedly spatial character and exists in many forms including subprime mortgage loans student loans for sham for profit colleges car loans rent to own scams payday loans and bail bond loans Parasitic governance Wang argues operates through five primary techniques financial states of exception automation extraction and looting confinement and gratuitous violence While these techniques of governance often involve physical confinement and the state sanctioned execution of black Americans new carceral modes have blurred the distinction between the inside and outside of prison As technologies of control are perfected carcerality tends to bleed into society **Feminist Collections**, 1984 **The Reasonable Woman** Wendy
