**Myths and Mythologies** Jeppe Sinding Jensen,2016-06-16 In all cultures and at all times humans have told stories about where they came from who they are and how they should live their lives Myths and Mythologies brings together the key classic and contemporary writings philosophical psychological sociological semiological and cognitivist on myth To the insider myths contain truth revelation and a history of ourselves to the outsider a culture s myths can be seen as the product of foolish infantile and wishful thinking Myths tell us about specific cultures about human creativity and how narrative shapes and reflects understanding The Reader is an invaluable resource for students and scholars interested in the impact of narrative on human culture and the meaning of truth in religious language      Supernaturalism in Human Life Jacob Pandian,2002      *The Master Plant* Andrew Russell,Elizabeth Rahman,2020-06-03 Described as a master plant by many indigenous groups in lowland South America tobacco is an essential part of shamanic ritual as well as a source of everyday health wellbeing and community In sharp contrast to the condemnation of the tobacco industry and its place in contemporary public health discourse the book considers tobacco in a more nuanced light as an agent both of enlightenment and destruction Exploring the role of tobacco in the lives of indigenous peoples The Master Plant offers an important and unique contribution to this field of study through its focus on lowland South America the historical source region of this controversial plant yet rarely discussed in recent scholarship The ten chapters in this collection bring together ethnographic accounts key

developments in anthropological theory and emergent public health responses to indigenous tobacco use Moving from a historical study of tobacco usage covering the initial domestication of wild varieties and its value as a commodity in colonial times to an examination of the transcendent properties of tobacco and the magic symbolism and healing properties associated with it the authors present wide ranging perspectives on the history and cultural significance of this important plant The final part of the book examines the changing landscape of tobacco use in these communities today set against the backdrop of the increasing power of the national and transnational tobacco industry The first critical overview of tobacco and its uses across lowland South America this book encourages new ways of thinking about the problems of commercially exploited tobacco both within and beyond this source region Myth of the Modern Hero Jane L. Bownas, 2017-11-21 The idea of the hero originates in myths from the distant past and has been applied to many different concepts in different societies cultures and historical time periods As a mythical signifier the meaning of the word hero changes according to the intentions of the user and this study examines some of the ways in which heroic myths have been created either to justify the actions of those in power or to produce an imaginary ideal to which the majority can aspire The warrior heroes of Greek legend fighting for individual glory and honour have little in common with the soldiers fighting in the wars of the twentieth century resulting in the creation of a new hero myth that of the patriotic dutiful and obedient soldier As a result of wars and the emergence of new states there is a need for new myths depicting heroes who fight and if necessary die in order to defend their nation Heroic myths are important for those seeking power and this study considers the extent to which Germanic myths played a part in the emergence of Hitler as a heroic leader In recent times the idea of the hero with which people most readily identify is the extreme altruist someone who is ready to risk their own life to save the life of another person The possible origins of and reasons for such behaviour are examined All humans possess the potential to act in ways which might be considered to be heroic even when this involves living an ordinary life with courage and endurance **2016** Günter Berghaus, 2016-05-24 Volume 6 2016 is an open issue with an emphasis on Nordic countries Denmark Finland Lithuania Estonia Iceland Four essays focus on Russia two on music other contributions are concerned with Egypt USA and Korea Furthermore there are sections on Futurist archives Futurism in caricatures and Futurism in fiction **Northrop Frye in Context** Diane Dubois, 2011-09-22 Diane Dubois takes a contextual approach to Northrop Frye's work and claims that it is best assessed in relation to his biographical circumstances In context and in specific details Dubois book seeks to illuminate Frye's oeuvre as a personal lifelong project This volume successfully situates Frye's work within the social political religious and philosophical conditions of the time and place of conception and writing Dubois ranges from Frye's critical utopia and views on criticism and education through the university church and William Blake to politics and the Canadian and academic milieu This book which is particularly good at tracing Frye's academic influences and his roots in Methodism and Canada will have a strong appeal to an international audience of general readers students teachers and specialists Frye is a key figure in

the cultural and literary theory of the twentieth century and Dubois accomplished discussion helps us to see his work anew Jonathan Hart author of Northrop Frye The Theoretical Imagination 1994 Interpreting Cultures 2006 Empires and Colonies 2008 and Literature Theory History 2011 The Politics of Storytelling Michael Jackson, 2013-09-12 Hannah Arendt argued that the political is best understood as a power relation between private and public realms and that storytelling is a vital bridge between these realms a site where individualized passions and shared perspectives are contested and interwoven Jackson explores and expands Arendt's ideas through a cross cultural analysis of storytelling that includes Kuranko stories from Sierra Leone Aboriginal stories of the stolen generation stories recounted before the South African Truth and Reconciliation Commission and stories of refugees renegades and war veterans Focusing on the violent and volatile conditions under which stories are and are not told and exploring the various ways in which narrative reworkings of reality enable people to symbolically alter subject object relations Jackson shows how storytelling may restore existential viability to the intersubjective fields of self and other self and state self and situation Claude Lévi-Strauss Maurice Godelier, 2018-08-07 One of the world's leading anthropologists assesses the work of the founder of structural anthropology As a young man Maurice Godelier was Claude Lévi Strauss's assistant Since then Godelier has drawn on this experience to develop a profound and intimate grasp on the writings of his former teacher one of the most influential thinkers of the twentieth century Meticulously researched Lévi Strauss A Critical Study of His Thought will prove indispensable to students of Lévi Strauss and to structural anthropologists more generally It is a compelling and comprehensive study destined to become the definitive work on the evolution of Lévi Strauss's ideas at the heart of which lies his analysis of kinship and myth

**Post-Structuralist Joyce** Derek Attridge, Daniel Ferrer, 1985-01-31 This volume is devoted to translations of some of the most significant criticism of James Joyce to have appeared in French journals over the last twenty years Joyce has been a great stimulus for new modes of theoretical and critical inquiry in France which have in turn exerted a profound influence on

the intellectual climate both in the UK and in North America In their shared preoccupations with the mechanisms of textuality and the implications thereof for the writing and reading subject all the contributors to this volume who include Hélène Cixous Jacques Aubert Jean-Michel Rabat-Andr Topik and Jacques Derrida form part of the movement away from the structuralism that dominated intellectual discussion in the 1960s to what is now called though not in France itself post-structuralism
