Sheren, 2015-08-15 After World War II the concept of borders became unsettled especially after the rise of subaltern and multicultural studies in the 1980s Art at the U S Mexico border came to a turning point at the beginning of that decade with the election of U S President Ronald Reagan Beginning with a political history of the border with an emphasis on the Chicano movement and its art production Ila Sheren explores the forces behind the shift in thinking about the border in the late twentieth century Particularly in the world of visual art borders have come to represent a space of performance rather than a geographical boundary a cultural terrain meant to be negotiated rather than a physical line From 1980 forward Sheren argues the border became portable through performance and conceptual work This dematerialization of the physical border after the 1980s worked in two opposite directions the movement of border thinking to the rest of the world as well as the importation of ideas to the border itself Beginning with site specific conceptual artwork of the 1980s particularly the performances of the Border Art Workshop Taller de Arte Fronterizo Sheren shows how these works reconfigured the border as an active site Sheren moves on to examine artists such as Guillermo G mez Pe a Coco Fusco and Marcos Ramirez ERRE Although Sheren places emphasis on the Chicano movement and its art production this groundbreaking book suggests possibilities for the expansion of the concept of portability to contemporary art projects beyond the region *ABIA: South and Southeast Asian Art and Archaeology Index* Sita Pieris, Ellen Raven, 2010-11-19 Volume Three offers 1643 annotated records on publications regarding the art and archaeology of South Asia Central Asia and Tibet selected from the ABIA Index database at www.abia.net which were published between 2002 and 2007 **Worldly Affiliations** Sonal Khullar, 2015-05-02 The purpose of art the Paris trained artist Amrita Sher Gil wrote in 1936 is to create the forms of the future by drawing its inspiration from the present Through art new worlds can be imagined into existence as artists cultivate forms of belonging and networks of association that oppose colonialist and nationalist norms Drawing on Edward Said's notion of affiliation as a critical and cultural imperative against empire and nation state *Worldly Affiliations* traces the emergence of a national art world in twentieth century India and emphasizes its cosmopolitan ambitions and orientations Sonal Khullar focuses on four major Indian artists Sher Gil Maqbool Fida Husain K G Subramanyan and Bhupen Khakhar situating their careers within national and global histories of modernism and modernity Through a close analysis of original artwork archival materials artists writing and period criticism Khullar provides a vivid historical account of the state and stakes of artistic practice in India from the late colonial through postcolonial periods She discusses the shifting terms of Indian artists engagement with the

West an urgent yet fraught project in the wake of British colonialism and to a lesser extent with African and Latin American cultural movements such as N gritude and Mexican muralism Written in a lucid and engaging style this book links artistic developments in India to newly emerging histories of modern art in Asia Africa and Latin America Drawing on original research in the twenty first century art world Khullar shows the persistence of modernism in contemporary art from India and compares its function to Walter Benjamin s ruin In the work of contemporary artists from India modernism is the ground from which to imagine futures This richly illustrated study juxtaposes little known rarely seen or previously unpublished works of modern and contemporary art with historical works popular or mass reproduced images and documentary photographs Its innovative art program renders newly visible the aesthetic and political achievements of Indian modernism
