## **Reader In Peace Studies:**

**Approaches to Peace** David P. Barash, 2010 Approaches to Peace provides a unique and interdisciplinary sampling of classic articles and short literary selections focusing on the diverse aspects of peace and conflict studies Readings cover the causes of war and proposed means of preventing it and reflect upon the universal concern for positive peace The material examines nonviolence movements peace movements religious inspirations and our future prospects for peace The book's balanced and unbiased approach make it easily adaptable to both general discussions of peace and conflict as well as the rapidly changing issues of the moment Approaches to Peace is able to stand on its own as a foundation text in any introductory peace studies course It is also compact enough to use as a supplement with other more specialized readings or used in conjunction with a text Each selection is prefaced by a short introduction highlighting the author's background the work's historical context and the selection's significance in terms of the big picture Study questions and a list of suggested readings at the end of each selection also provide a useful resource for students **Peace and Conflict Studies** Charles

BOOK JACKET     *A Peace Reader* Joseph Fahey, Richard Armstrong, 1992 A Peace Reader Revised contains articles

reflecting different and even opposing viewpoints offering competing visions of the future They range from the scholarly to the folksy from the philosophical to the satirical from the didactic to the poetic In an effort to help students develop critical thinking skills the authors include study questions after every major article The result is a book as contemporary as today's headlines and as timeless as the wisdom of the ages     **The Women and War Reader** Lois Ann Lorentzen, Jennifer E.

Turpin, 1998-07 Women play many roles during wartime This compelling study brings together the work of foremost scholars on women and war to address questions of ethnicity women and the war complex peacemaking motherhood and more It leaves behind outdated arguments about militarist men and pacifist women while still recognizing differences in men's and women's relationships to war     **Ethnographic Peace Research** Gearoid Millar, 2017-11-24 This volume calls for an

empirical extension of the local turn within peace research Building on insights from conflict transformation gender studies critical International Relations and Anthropology the contributions critique existing peace research methods as affirming unequal power marginalizing local communities and stripping the peace kept of substantive agency and voice By incorporating scholars from these various fields the volume pushes for more locally grounded ethnographic and potentially participatory approaches While recognizing that any Ethnographic Peace Research (EPR) agenda must incorporate a variety of methodologies the volume nonetheless paves a clear path for the much needed empirical turn within the local turn literature

Pruitt, 2013-04-01 This book highlights the important role youth can play in processes of peacebuilding by examining music as a tool for engaging youth in such activities As Lesley J Pruitt discusses throughout the book music as expression as creation as inspiration can provide many unique insights into transforming conflicts altering our understandings and achieving change She offers detailed empirical work on two youth peacebuilding

programs in Australia and Northern Ireland countries that appear overtly peaceful but where youth still face structural violence and related direct violence at the community level She also pays careful attention to the ways in which gender norms might influence young people's participation in music based peacebuilding activities Ultimately the book defines a new research area linking youth cultures and music with peacebuilding practice and policy [The Witch Studies Reader](#) Soma Chaudhuri, Jane Ward, 2025-02-21 Stories about witches are by their nature stories about the most basic and profound of human experiences healing sex violence tragedies aging death and encountering the mystery and magic of the unknown It is no surprise then that witches loom large in our cultural imaginations In academia studies of witches rarely emerge from scholars who are themselves witches and or embedded in communities of witchcraft practitioners The Witch Studies Reader brings together a diverse group of scholars practitioners and scholar practitioners who examine witchcraft from a critical decolonial feminist perspective that decenters Europe and departs from exoticizing and pathologizing writing on witchcraft in the global South The authors show how witches are keepers of suppressed knowledges builders of new futures exemplars of praxis and theorists in their own right Throughout they account for the vastly different national political economic and cultural contexts in which the witch is currently being claimed and repudiated Offering a pathbreaking transnational feminist examination of witches and witchcraft that upends white supremacist colonial patriarchal knowledge regimes this volume brings into being the interdisciplinary field of feminist witch studies Contributors Maria Amir Ruth Asiimwe Bernadette Barton Ethel Brooks Shelina Brown Ruth Charnock Soma Chaudhuri Carolyn Chernoff Saira Chhibber Simon Clay Krystal Cleary Adrianna L Ernstberger Tina Escaja Laurie Essig Marcelitte Failla D Ferrett Marion Goldman Jaime Hartless Margaretha Haughwout Patricia Humura Apoorva Joshi Govind Kelkar Oliver Kellhammer Ay a Kurto lu Helen Macdonald Isabel Machado Brandy Renee McCann Dev Nathan Mary Jo Neitz Amy Nichols Belo Allison or AP Pierce Emma Quilty Anna Rogel Karen Schaller Jacquelyn Marie Shannon Shashank Shekhar Sinha Gabriella V Smith Nathan Snaza Shannon Hughes Spence Eric Steinhart Morena Tartari Nicole Trigg Katie Von Wald Tushabe wa Tushabe Jane Ward *The Disability Studies Reader* Lennard J. Davis, 2006 The second edition of The Disability Studies Reader builds and improves upon the classic first edition which has sold well over 6000 copies since 1999 As a field disability studies burst onto the scene across the social sciences and humanities in the 1990s and the first edition of the reader gathered the best work that had been written on the subject including essays by famous authors such as Susan Sontag and Erving Goffman The new edition is more global in its coverage and adds material on genetic testing the human genome queer studies and issues in developing countries The size of the audience has grown since the first edition's publication and the second edition's new material will make it even more useful for courses on the subject Courses on the subject have mushroomed in the past ten years and can now be found across the social sciences humanities and behavioral sciences **The Palgrave Handbook of Disciplinary and Regional Approaches to Peace** Oliver Richmond, Sandra Pogodda, Jasmin Ramovic, 2016-03-15 In this handbook a

diverse range of leading scholars consider the social cultural economic political and developmental underpinnings of peace This handbook is a much needed response to the failures of contemporary peacebuilding missions and narrow disciplinary debates both of which have outlined the need for more interdisciplinary work in International Relations and Peace and Conflict studies Scholars students and policymakers are often disillusioned with universalist and northern dominated approaches and a better understanding of the variations of peace and its building blocks across different regions is required Collectively these chapters promote a more differentiated notion of peace employing comparative analysis to explain how peace is debated and contested

*War, Peace, And The Social Order* Brian E. Fogarty, 2019-09-18 This book is the author's attempt to translate his knowledge of peace studies into the language of sociology so that the former can be grasped as a more complete whole It aims to increase interest among sociologists in issues of war and peace because they provide food for sociological thought

Peacebuilding Paradigms Henry F. Carey, 2020-12-17 Peacebuilding Paradigms focuses on how seven paradigms from the Comparative Politics International Relations and Policy Analysis subfields Realism Liberalism Constructivism Cosmopolitanism Critical Theories Locality and Policy analyze peacebuilding The contributors explore the arguments of each paradigm and then compare and contrast them This book suggests that a hybrid approach that incorporates useful insights from each of these paradigms best explains how and why peacebuilding projects and policies succeed in some cases fail in others and provide lessons learned Rather than merely using a theoretical approach the authors use case studies to demonstrate why a focus on just one paradigm alone as an explanatory model is insufficient This collection directly at how peacebuilding theory affects peacebuilding policies and provides recommendations for best practices for future peacebuilding missions
