Readers Repentance Women Preachers Women Writers And Nineteenth Century Social Discourse:

The Reader's Repentance Christine L. Krueger, 1992-01-15 A woman preaching is like a dog walking on its hind legs Dr Johnson pronounced It is not done well but you are surprised to find it done at all The prejudice embodied in this remark has persisted over time impeding any proper assessment of the female preaching tradition and its role in shaping social and literary discourse The Reader's Repentance recovers this tradition and in doing so revises the history of nineteenth century women's writing Christine L Krueger persuasively argues that Evangelical Christianity by assuming the spiritual equality of women and men and the moral superiority of middle class women opened a space for the linguistic empowerment of women and fostered the emergence of women orators and writers who in complex and contradictory ways became powerful public figures In the light of unpublished or long out of print writing by eighteenth and nineteenth century women preachers Krueger shows how these women drew on religious language to critique forms of male domination promote female political power establish communities of women and most significantly feminize social discourse She traces the legacy of these preachers through the work of writers as diverse as Hannah More Charlotte Elizabeth Tonna Elizabeth Gaskell and George Eliot women who despite political differences shared an evangelical strategy for placing women's concerns on the social agenda of their time Documenting and analyzing the tradition of women's preaching as a powerful and distinctly feminist force in the development of nineteenth century social fiction The Reader's Repentance reconstitutes a significant chapter in the history of women and culture This original work will be of interest to students of women's history literature and eighteenth and nineteenth century society

Women's Theology in Nineteenth-Century Britain Julie Melnyk, 2019-07-16 First published in 1998 This collection of original essays identifies and analyzes 19th century women's theological thought in all its diversity demonstrating the ways that women revised subverted or rejected elements of masculine theology in creating theologies of their own While women's religion has been widely studied this is the only collection of essays that examines 19th century women's theology as such A substantial introduction clarifies the relationships between religion and theology and discusses the barriers to women's participation in theological discourse as well as the ways women overcame or avoided these barriers The essays analyze theological ideas in a variety of genres The first group of essays discusses women's nonfiction prose including women's devotional writings on the Apocalypse devotional prose by Christina Rossetti and its similarities to the work of Hildegard von Bingen periodical prose by Anna Jameson and Julia Wedgwood and the letters of Harriet and Jemima Newman sisters of John Henry Newman Other essays examine the novel presenting analysis of the theologies of novelists Emma Jane Worboise Charlotte M Yonge and Mary Arnold Ward Further essays discuss the theological ideas of two purity reformers Josephine Butler and Ellice Hopkins while the final essays move beyond Victorian Christianity to examine spiritualist and Buddhist theology by women This collection will be important to students and scholars interested in Victorian culture and ideas literary critics historians and theologians and

particularly to those in women's studies and religious studies **The Lure of Babylon** Michael E. Schiefelbein, 2001 This book explores the effect of Catholicism on the imagination and the fiction of Protestant novelists in England during the decades surrounding Catholic Emancipation 1829 and the reestablishment of the Roman Catholic Church in England 1850 This book examines anti Catholicism in popular and respected novelists such as Scott and Dickens showing the secret attraction to Catholicism of staunch anti Catholic Protestants Women's Poetry and Religion in Victorian England Cynthia Scheinberg, 2002-05-30 Victorian women poets lived in a time when religion was a vital aspect of their identities Cynthia Scheinberg examines Anglo Jewish Grace Aguilar and Amy Levy and Christian Elizabeth Barrett Browning and Christina Rossetti women poets and argues that there are important connections between the discourses of nineteenth century poetry gender and religious identity Further Scheinberg argues that Jewish and Christian women poets had a special interest in Jewish discourse calling on images from Judaism and the Hebrew Scriptures their poetry created complex arguments about the relationships between Jewish and female artistic identity She suggests that Jewish and Christian women used poetry as a site for creative and original theological interpretation and that they entered into dialogue through their poetry about their own and each other's religious and artistic identities This book's interdisciplinary methodology calls on poetics religious studies feminist literary criticism and little read Anglo Jewish primary sources *Dialogue, Didacticism and the Genres of Dispute* Adrian J Wallbank, 2015-10-06 Dialogue was a pivotal genre for the spread of Enlightenment ideas Focusing on non canonical British writers Wallbank examines the evolution of dialogue as a genre during the Romantic period

Foundational Texts of Mormonism Mark Ashurst-McGee, Robin Scott Jensen, Sharalyn D. Howcroft, 2018 Joseph Smith founding prophet and martyr of the Church of Jesus Christ of Latter day Saints personally wrote dictated or commissioned thousands of documents Among these are several highly significant sources that scholars have used over and over again in their attempts to reconstruct the founding era of Mormonism usually by focusing solely on content without a deep appreciation for how and why a document was produced This book offers case studies of the sources most often used by historians of the early Mormon experience Each chapter takes a particular document as its primary subject considering the production of a document as an historical event in itself with its own background purpose circumstances and consequences The documents are examined not merely as sources of information but as artifacts that reflect aspects of the general culture and particular circumstances in which they were created This book will help historians working in the founding era of Mormonism gain a more solid grounding in the period's documentary record by supplying important information on major primary sources **Keeping the Victorian House** Vanessa D. Dickerson, 2016-07-01 First published in 1995 The essays in this volume demonstrate how Victorian women took up various positions along a continuum that ranged from the desire of Shelley's creature for the power and acceptance it associated with the house to the rejection of Brontë's heroine of the immobility and powerlessness she ultimately experienced there More specifically the essays in this volume explore the nature

of the Victorian woman's domestic relations by centring in one activity that most informed her place in what was often the father's house housekeeping The essays in this edition determine how writers especially novelists both male and female used housekeeping to construct reconstruct represent and inscribe the female self and condition This title will be of interest to students of history and literature

Bluestockings E. Eger, 2010-01-20 This study argues that female networks of conversation correspondence and patronage formed the foundation for women's work in the higher realms of Shakespeare criticism and poetry Eger traces the transition between Enlightenment and Romantic culture arguing for the relevance of rational argument in the history of women's writing

Translation, Authorship and the Victorian Professional Woman Lesa Scholl, 2016-02-17 In her study of Charlotte Brontë Harriet Martineau and George Eliot Lesa Scholl shows how three Victorian women writers broadened their capacity for literary professionalism by participating in translation and other conventionally derivative activities such as editing and reviewing early in their careers In the nineteenth century a move away from translating Greek and Latin Classical texts in favour of radical French and German philosophical works took place As England colonised the globe Continental philosophies penetrated English shores causing fissures of faith understanding and cultural stability The influence of these new texts in England was unprecedented and Eliot Brontë and Martineau were instrumental in both literally and figuratively translating these ideas for their English audience Each was transformed by access to foreign languages and cultures first through the written word and then by travel to foreign locales and the effects of this exposure manifest in their journalism travel writing and fiction Ultimately Scholl argues their study of foreign languages and their translation of foreign language texts nations and cultures enabled them to transgress the physical and ideological boundaries imposed by English middle class conventions

Writing against Revolution Kevin Gilmartin, 2007-01-11 Conservative culture in the Romantic period should not be understood merely as an effort to preserve the old regime in Britain against the threat of revolution Instead conservative thinkers and writers aimed to transform British culture and society to achieve a stable future in contrast to the

destructive upheavals taking place in France Kevin Gilmartin explores the literary forms of counterrevolutionary expression in Britain showing that while conservative movements were often inclined to treat print culture as a dangerously unstable and even subversive field a whole range of print forms ballads tales dialogues novels critical reviews became central tools in the counterrevolutionary campaign Beginning with the pamphlet campaigns of the loyalist Association movement and the Cheap Repository in the 1790s Gilmartin analyses the role of periodical reviews and anti Jacobin fiction in the campaign against revolution and closes with a fresh account of the conservative careers of Robert Southey and Samuel Taylor Coleridge

Female Performers in British and American Fiction Barbara Straumann, 2018-05-22 The female performer with a public voice constitutes a remarkably vibrant theme in British and American narratives of the long nineteenth century The tension between fictional female performers and other textual voices can be seen to refigure the cultural debate over the voice of women in aesthetically complex ways By focusing on singers actresses preachers and speakers this book traces and explores an important tradition of feminine articulation Drawing on critical approaches in literary studies gender studies and philosophy the book conceptualizes voice for the discussion of narrative texts Examining voice both as a thematic concern and as an aesthetic effect the individual chapters analyse how the actual articulation by female performers correlates with their cultural visibility and agency What this study foregrounds is how women characters succeed in making themselves heard even if their voices are silenced in the end

Infidel feminism Laura Schwarz,2017-10-03 Infidel feminism is the first in depth study of a distinctive brand of women s rights that emerged out of the Victorian Secularist movement It looks at the lives and work of a number of female activists whose renunciation of religion shaped their struggle for emancipation Anti religious or secular ideas were fundamental to the development of feminist thought but have until now been almost entirely passed over in the historiography of the Victorian and Edwardian women s movement In uncovering an important tradition of Freethinking feminism this book reveals an ongoing radical and free love current connecting Owenite feminism with the more respectable post 1850 women s movement and the New Women of the early twentieth century This book will be invaluable to both scholars and students of social and cultural history and feminist thought and to interdisciplinary studies of religion and secularisation as well as those interested in the history of women s movements more broadly **Doomsayers** Susan Juster,2010-08-03 The age of revolution in which

kings were dethroned radical ideals of human equality embraced and new constitutions written was also the age of prophecy Neither an archaic remnant nor a novel practice prophecy in the eighteenth century was rooted both in the primitive worldview of the Old Testament and in the vibrant intellectual environment of the philosophers and their political allies the republicans In *Doomsayers Anglo American Prophecy in the Age of Revolution* Susan Juster examines the culture of prophecy in Great Britain and the United States from 1765 to 1815 side by side with the intellectual and political transformations that gave the period its historical distinction as the era of enlightened rationalism and democratic revolution Although sometimes viewed as madmen or fools prophets of the 1790s and early 1800s were very much products of a liberal commercial society even while they registered their disapproval of the values and practices of that society and fought a determined campaign to return Protestant Anglo America to its biblical moorings They enjoyed greater visibility than their counterparts of earlier eras thanks to the creation of a vigorous new public sphere of coffeehouses newspapers corresponding societies voluntary associations and penny pamphlets Prophecy was no longer just the art of applying biblical passages to contemporary events it was now the business of selling both terror and reassurance to eager buyers Tracking the careers of several hundred men and women in Britain and North America most of ordinary background who preached a message of primitive justice that jarred against the cosmopolitan sensibilities of their audiences *Doomsayers* explores how prophetic claims were formulated challenged tested advanced and abandoned The stories of these doomsayers whose colorful careers entertained and annoyed

readers across the political spectrum challenge the notion that religious faith and the Enlightenment represented fundamentally alien ways of living in and with the world From the debates over religious enthusiasm staged by churchmen and the literati to the earnest offerings of ordinary men and women to speak to and for God Doomsayers shows that the contest between prophets and their critics for the allegiance of the Anglo American reading public was part of a broader recalibration of the norms and values of civic discourse in the age of revolution *Mothers of the Nation* Anne K.

Mellor, 2000-05-22 A survey of British women's writings of the late eighteenth and early nineteenth centuries and the revolutionary New Woman they promoted British women writers were enormously influential in the creation of public opinion and political ideology during the years from 1780 to 1830 Anne Mellor demonstrates the many ways in which they attempted to shape British public policy and cultural behavior in the areas of religious and governmental reform education philanthropy and patterns of consumption She argues that the theoretical paradigm of the doctrine of the separate spheres may no longer be valid According to this view British society was divided into distinctly differentiated and gendered spheres of public versus private activities in the eighteenth and nineteenth centuries Surveying all the genres of literature drama poetry fiction non fiction prose and literary criticism Mellor shows how women writers promoted a new concept of the ideal woman as rationally educated sexually self disciplined and above all virtuous This New Woman these writers said was better suited to govern the nation than were its current fiscally irresponsible lecherous and corruptible male rulers Beginning with Hannah More Mellor argues that women writers too often dismissed as conservative or retrogressive instead promoted a revolution in cultural mores or manners She discusses writers as diverse as Elizabeth Inchbald Hannah Cowley and Joanna Baillie as Charlotte Smith Anna Barbauld and Lucy Aikin as Mary Wollstonecraft Charlotte Reeve and Anna Seward and concludes with extended analyses of Charlotte Smith's *Desmond* and Jane Austen's *Persuasion* She thus documents women writers full participation in that very discursive public sphere which Habermas so famously restricted to men of property Moreover the new career of philanthropy defined by Hannah More provided a practical means by which women of all classes could actively construct a new British civil society and thus become the mothers not only of individual households but of the nation as a whole Intellectual and social historians and not just feminists have long believed that the late 18th and early 19th centuries in Britain saw an increasing separation of the male public and female domestic realms with the result that the public sphere theorized by Jurgen Habermas and others to have emerged in the Enlightenment almost entirely excluded women With energy wit and admirable command of her sources Mellor author of distinguished books on Romanticism demonstrates that just the opposite was true in the years around 1800 women became the primary producers and consumers of writing in Britain and vitally participated in the discursive public sphere many arguing in their different ways for what Hannah More the most popular author of the period called a moral revolution in the national manners and principles A splendid survey of women novelists poets critics playwrights and social theorists this bracing and important work of revision deserves a place in
