Reading And Writing Before School:

Helping Your Children with Reading and Writing at Home Mary A. Colbert, William P. Colbert, 2009-01-31 Helping Your Children with Reading and Writing at Home By Mary Ann Colbert Dr William P Colbert There really is no place like home when it comes to developing competent readers and writers And with the aid of our new world changing guide the process and the goal of developing lifelong readers and writers will be greatly facilitated Many years ago we set about finding out what type of reading and writing help parents and other adults were giving children and how it was working We asked everyone and anyone who would talk with us and we came up with some rather startling information to share in our guide Now talking with parents grandparents adults and children about the reading and writing activities they have experienced at home is second nature to us Through the years we have discovered that a great many things are happening in American homes relative to helping children in these areas and even greater things are possible The purpose of our book We like to call it a guide is to awaken parents grandparents and other adults who work with children to the great possibilities that are open to them that will revolutionize learning now and for future generations The ideas suggestions and strategies in our guide step off from the interests of the learners which are the best indicators of what the children are ready and able to learn next as opposed to curriculums and textbooks which often have an iron grip on what is available for young students to learn We show our readers how to take advantage of the great knowledge they have about their children and how to use it to guide their children's learning and more especially to identify what is the next appropriate step for their children to take in their learning All this is done in the home setting with family members participating and sharing the fruits of their learning labors Besides giant leaps in learning families can expect outstanding growth in family interpersonal relationships The family is actually drawn closer together by sharing their diverse interests At the onset of the guide adults are asked to compare their thinking on reading and writing learning with some of the experts in the field via a true false checklist This technique totally involves parents with the book from the start and parents are often surprised to see how their thinking coincides with experts in the field The next section contains three case studies that illustrate in detail exactly what some very effective adults did to further the reading and writing skills of the children with whom they worked The third sections contain some precise strategies that parents and other adults can begin using today with their children The next sections identifies what children see as effective reading and writing strategies that are used by parents and their teachers Section five is a summary of some ideas of some great teachers of reading and writing The ideas here are undergirded by some sound learning principles which every adult who works with children will want to know about The final section ends much like the guide begins with a checklist of some true false items that will help guide parents and other adults to increasing success in helping their children with reading and writing at home Parallel Learning of Reading and Writing in Early Childhood Mary Shea, 2011-04-28 Parallel Learning of Reading and Writing in Early Childhood explores why it's important to provide a

balanced language learning environment for young children and offers approaches for children to practice and explore language Writing a different but parallel process can open the door to reading and an effective writing approach in the home and early childhood classrooms leads to the development of phonemic awareness understanding of phonetic principles vocabulary fluency and comprehension Effective early childhood teachers are those that extend the knowledge children have amassed at home and use the knowledge of how children learn naturally in the world to inform their practice This book offers the purpose context and outcomes of including writing right from the start in young children s literacy learning Through analysis of writing samples research and principles of best practices Shea outlines the essential ingredients for early language learning and provides a developmentally appropriate approach to language learning Throughout the chapters Shea integrates discussion of assessment classroom environment instructional teacher scaffolding and differentiating instruction across developmental levels along with the supporting theory Special features vignettes and descriptions of Pre K K and Grade 1 classrooms that incorporate writing across the day artifacts of children s writing that demonstrate an evolution of knowledge related to both message and word construction concept labeling words and topic specific terms defined throughout the book to support the reader s understanding of professional terminology discussion of seminal and current research as well as best practices Companion Website with lesson ideas and abundant writing samples from a wide range of demographic cultural and language contexts for readers to view analyze and discuss This text offers pre and in service early childhood education teachers the content and resources to develop a deeper understanding of language learning to prompt an examination of current practice and to stimulate curricular re designs that foster meaningful joyful and motivated learning

Reading and Writing for Pleasure Teresa Cremin,Helen Hendry,Liz Chamberlain,Samantha Jayne Hulston,2025-09-12 Reading and writing for pleasure represent issues of global concern and interest in policy research and practice underpinned by evidence illustrating their importance for young people s academic social and emotional experiences and outcomes In the face of a sustained decline in children s enjoyment in both reading and writing this highly significant book presents findings from a three year study of research and practice that nurtures young people s engagement as readers and writers The book offers a rich understanding of the study highlighting the commonalities and synergies identified from the research literature and diverse practice contexts It introduces a new and powerful Reading and Writing Framework for Practice for schools and charitable literacy programmes The authors offer practical strategies and recommendations throughout for practitioners researchers and policy makers who wish to advance this agenda in their own contexts Areas covered include The nature of reading and writing for pleasure Literate identities Motivating readers and writers Social interactions Role models and connected communities Future research practice and policy This field defining text is a key resource for all those committed to halting the decline in young people s engagement as volitional readers and writers **Learning From Children Who Read at an Early Age** Diana Hughes,Rhona Stainthorp,2012-10-12 Based on research project which has attracted a great
