Religion and Global Order John L. Esposito, Michael Watson, 2000 This volume elucidates and evaluates the role of religion and theology in the contemporary conception of the question of global order It also assesses the influence of religion on the conduct of international relations **Religion and the Political Order** , 1986 Religions/Globalizations Dwight N. Hopkins, 2001-10-03 A collection of essays demonstrating the ways diverse religious rituals symbols ethics and ideologies perform as primary planks in the construction of the public realm with particular focus on peripheral nations and politicized spiritualities of resist **New Religions and Globalization** Armin Geertz, Margit Warburg, 2008-08-01 Globalization is a predominant theme in contemporary educational and political circles Research on globalization has become a political priority because the world has become a single place as Roland Robertson formulated it where events in any particular part of the world can and often do have political economical and military consequences for the rest of the world Discourse on globalization however has generally ignored the cultural consequences Recent waves of violence that seem to be religiously fueled if not motivated among immigrants and refugees in Europe and their home regions in the Middle East have demonstrated that we can only ignore culture values and religion at our own peril Globalization and new religions is the theme of this book It is argued here that studying new religions in a globalization perspective offers theoretical and methodological advantages both for the general study of religion and the general study of globalization Religions are often cosmopolitan and universal in their overall message yet they may at the same time be utterly immersed in local interactions This is often clearly expressed among minority religions The contrast of the local and the global is accentuated by globalization and in particular many new religions have followed suit This book draws together a selection of top quality papers given at a conference held in Aarhus in 2002 under the auspices of the Research Network on New Religions RENNER The papers which have been edited and up dated represent the work of leading scholars in the history of religions sociology of religion psychology of religion and other disciplines They address questions that are vital for everyone in the modern world whether approached as a reflection of world economy and power dynamics new possibilities of communication and cultural exchange in the light of mass media and technology increased cultural plurality in the wake of migration or as a combination of any of these globalization challenges the academic study of religion to renewed theoretical and methodological reflection

Bassam Tibi, 2012-03-12 This book examines global and local politics and how Islam impacts on civilizational relations between different groups and polities In particular he examines how Islamism as opposed to Islam becomes an immediate source of tension and conflict between the secular and the religious Tibi rejects the clash of civilizations theory and argues for the revival of Islamic humanism to help bridge the gap **Challenging Religion** James A. Richardson, 2003-09-02 Leading scholars examine the growth of new religious movements or cults in the US and Europe over the last 50 years and state attempts to monitor and control them debating the political practical and ethical issues which arise Political Theology of International Order William Bain, 2020-04-09 Is contemporary international order truly a

secular arrangement Theorists of international relations typically adhere to a narrative that portrays the modern states system as the product of a gradual process of secularization that transcended the religiosity of medieval Christendom William Bain challenges this narrative by arguing that modern theories of international order reflect ideas that originate in medieval theology They are in other words worldly applications of a theological pattern This ground breaking book makes two key contributions to scholarship on international order First it provides a thorough intellectual history of medieval and early modern traditions of thought and the way in which they shape modern thinking about international order It explores the ideas of Augustine Thomas Aquinas William of Ockham Martin Luther and other theologians to rise above the sharp differentiation of medieval and modern that underpins most international thought Uncovering this theological inheritance invites a fundamental reassessment of canonical figures such as Hugo Grotius and Thomas Hobbes and their contribution to theorizing international order Second this book shows how theological ideas continue to shape modern theories of international order by structuring the questions theorists ask as well as the answer they provide It argues that the dominant vocabulary of international order system and society anarchy balance of power and constitutionalism is mediated by the intellectual commitments of nominalist theology It concludes by exploring the implications of thinking in terms of this

theological inheritance albeit in a world where God is only one of several possibilities that can be called upon to secure the regularity of order

Citizens of the World Margit Warburg, 2018-08-14 *Citizens of the World* deals with the Baha'is and their religion. While covering the historical development in sufficient detail to serve as a general monograph on Baha'ism, emphasis is laid on examining contemporary Baha'ism with the Danish Baha'ist community as a recurrent case. The book discusses Baha'ist religious texts, rituals, economy, everyday life, demographic development, mission strategies, leadership, and international activism in analyses based on primary material such as interview studies among the Baha'is, fieldwork data from the Baha'ist World Centre in Israel, and field trips around the world. The approach is a combination of history of religions and sociology of religion within a theoretical framework of religion and globalisation. Several general topics in the study of new religions are covered. The book contributes to the theoretical study of globalisation by proposing a new model for analysing globalisation and transnational religions.

Religion and the Political Imagination Ira Katznelson, Gareth Stedman Jones, 2010-10-07 The theory of secularisation became a virtually unchallenged truth of twentieth-century social science. First sketched out by Enlightenment philosophers, then transformed into an irreversible global process by nineteenth-century thinkers, the theory was given substance by the precipitate drop in religious practice across Western Europe in the 1960s. However, the re-emergence of acute conflicts at the interface between religion and politics has confounded such assumptions. It is clear that these ideas must be rethought. Yet as this distinguished international team of scholars reveal, not everything contained in the idea of secularisation was false. Analyses of developments since 1500 reveal a wide spectrum of historical processes: partial secularisation in some spheres has been accompanied by sacralisation in others. Utilising new approaches derived from history, philosophy, politics, and anthropology, the essays collected in *Religion and the Political Imagination* offer new ways of thinking about the urgency of religious issues in the contemporary world.

The Politics of Buddhist Organizations in Taiwan, 1989-2003 André Laliberté, 2013-08-21 Exploring a dimension of Taiwanese politics that has received little attention, this book gives a detailed survey of three of the most important Buddhist organizations in Taiwan: the Buddhist Association of the Republic of China, the Buddha Light Mountain monastic order, and the Buddhist Compassion Relief Tzu Chi Association.

Religion and Globalization Peter Beyer, 1994-03-31 In his exploration of the interaction between religion and worldwide social and cultural change, the author examines the major theories of global change and discusses the ways in which such change impinges on contemporary religious practice, meaning, and influence. Beyer explores some of the key issues in understanding the shape of religion today, including religion as culture and as social system, pure and applied religion, privatized and publicly influential religion, and liberal versus conservative religions. He goes on to apply these issues to five contemporary illustrative cases: the American Christian Right, Liberation Theology movements in Latin America, the Islamic Revolution in Iran, Zionists in Israel, and religious

Baha'ism and Globalisation Annika Hvithamar, Margit Warburg, Morten Warmind, 2005-12-01 Globalisation has become a buzzword that typically refers to the intensifying

integration of the world economy especially as midwifed by technological advances It also implies a growing political and cultural sense that all humanity is globally interdependent There have always been individuals of course who have advocated such awareness one of them being the founder of the Baha i faith who formulated a spiritual equivalent as the religion s central doctrine in the late 19th century Ye are the fruits of one tree and the leaves of one branch Its emphasis on global unification made Baha i an obvious candidate for a case study on new religions and globalisation The chapters in this volume fall into two sections diachronic and synchronic The first part is organised chronologically beginning with the emergence of the globalist tendency in the messianic vision of Babism the precursor to Baha i and concluding with an analytic history of its leaders changing attitudes to international politics The second part considers a variety of global themes in contemporary Baha i practice including global thought in Baha i writings the impact of the internet and the triumphalist and secular strains in Baha i identity Though five million members make it one of the world s most successful new religions Baha i has attracted little scholarly attention Most of the academics concentrating on Baha i have contributed to this volume which will appeal not only to students of modern religious movements but to anyone interested in the ways religions can adapt to and embrace the modern world

Political Islam, World Politics and Europe Bassam Tibi, 2014-07-11 The new and updated edition of *Political Islam World Politics and Europe* focusses on the shift within political Islam in light of 9 11 and the events of the Arab Spring from a jihadist struggle to institutional Islamism Refuting what has often been referred to by commentators as the moderation of Islamism the second edition of this book introduces the concept of institutional Islamism a process which Tibi argues was accelerated in the aftermath of the Arab Spring Both jihadist and institutional Islamism pursue the same goal of an Islamist state but disagree fundamentally on the strategy for achieving it Whilst jihadism is committed to the idea of a violent Islamic world revolution institutional Islamism embraces political institutions as a means to an end Turning to the events of the Arab Spring in Tunisia Libya and Egypt this book attempts to determine whether an abandonment of violence is enough to underpin a shift to genuine democracy Analysing the fall of Morsi in particular Tibi questions what lessons can be learnt from his presidency and argues that this event will not change the overall trend of development from jihadism to institutional Islamism A timely addition to existing literature this book will be of interest to students and scholars studying Middle Eastern and European Politics Political Islam and International Relations

Islam and Political Violence Shahram Akbarzadeh, Fethi Mansouri, 2010-06-30 How do we engage with the pressing challenges of xenophobia radicalism and security in the age of the war on terror The widely felt sense of insecurity in the West is shared by Muslims both within and outside Western societies Growing Islamic militancy and resulting increased security measures by Western powers have contributed to a pervasive sense among Muslims of being under attack both physically and culturally Islam and Political Violence brings together the current debate on the uneasy and potentially mutually destructive relationship between the Muslim world and the West and argues we are on a dangerous trajectory strengthening dichotomous notions of the divide

between the West and the Muslim world Peace on Earth Michael Amaladoss,2003 **States and Peoples in Conflict** Michael Stohl,Mark I. Lichbach,Peter Grabosky,2017-04-07 This volume evaluates the state of the art in conflict studies Original chapters by leading scholars survey theoretical and empirical research on the origins processes patterns and consequences of most forms and contexts of political conflict protest repression and rebellion Contributors examine key pillars of conflict studies including civil war religious conflict ethnic conflict transnational conflict terrorism revolution genocide climate change and several investigations into the role of the state The research questions guiding the text include inquiries into the interactions between the rulers and the ruled authorities and challengers cooperation and conflict accommodation and resistance and the changing context of conflict from the local to the global Drones and Global Order Paul Lushenko,Srinjoy Bose,William Maley,2021-12-28 This book explores the implications of drone warfare for the legitimacy of global order The literature on drone warfare has evolved from studying the proliferation of drones to measuring their effectiveness to exploring their legal moral and ethical impacts These three waves of scholarship do not however address the implications of drone warfare for global order This book fills the gap by contributing to a fourth wave of literature concerned with the trade offs imposed by drone warfare for global order The book draws on the English School of International Relations Theory which is premised on the existence of a society of states bounded by common norms values and institutions to argue that drone warfare imposes contradictions on the structural and normative pillars of global order These consist of the structure of international society and diffusion of military capabilities as well as the sovereign equality of states and laws of armed conflict The book presents a typology of contradictions imposed by drone warfare within and across these axes that threaten the legitimacy of global order This framework also suggests a confounding consequence of drone warfare that scholars have not hitherto explored rigorously drone warfare can sometimes strengthen global order The volume concludes by proposing a research agenda to reconcile the complex and often counter intuitive impacts of drone warfare for global order This book will be of considerable interest to students of security studies global governance and International Relations *Religion in International Relations Theory* Nukhet Sandal,Jonathan Fox,2013-06-19 There is a growing realization among international relations scholars and practitioners that religion is a critical factor in global politics The Iranian Revolution the September 11 attacks the ethno religious conflicts such as the ones in the former Yugoslavia and Sri Lanka are among the many reasons for this increased focus on religion in international affairs The rise of religious political parties across the world ranging from the Christian Democrats in Europe to Bharatiya Janata Party in India similarly illustrated religion s heightened international profile Despite all this attention it is challenging to situate religion within a discipline which has been dominantly secular from its inception Only a few existent works have ventured to integrate religion into core international relations theories such as Classical Realism Neorealism Neoliberalism Constructivism and the English school This work is the first systematic attempt to comparatively assess the place of religion in the aforementioned

theoretical strands of international relations with contemporary examples from around the world Written in an accessible and systematic fashion this book will be an important addition to the fields of both religion and international relations Nukhet A Sandal is Assistant Professor in the Political Science Department at Ohio University Jonathan Fox is Professor in the Department of Political Studies at Bar Ilan University Israel Islam: Islam and social movements Bryan S.
