Ruling Illusions Philosophy And The Social Order:

Ruling Illusions Anthony Skillen, 1978 Toward a Just Social Order Derek L. Phillips, 2014-07-14 Derek Phillips presents a strong case for the importance of normative theories about the just social organization of society. Most sociologists urge the avoidance of value judgments but Professor Phillips argues for a notion of a just social order that reflects a twin concern with explanatory and normative thinking. Originally published in 1986, The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press. Marxism And The Moral Point Of View Kai Nielsen, 2021-11-28 Marxism and the Moral Point of View attempts to say what consistent Marxists working within the parameters of the canonical conceptions of Marxism should say about morality. This includes what they should say about the function of morality in society about the extent of moral comment they can justifiably make and about freedom, equality and justice including the justice of whole social formations. Karl Marx and most Marxists follow him was opposed.

Zimbabwe@40 Lloyd Sachikonye, David Kaulemu, 2021-05-17 Zimbabwe 40 is a celebration of the country's four decades of independence and statehood. Forty years is a relatively short period in a nation's life but it is a formative period. What lessons can be learnt from the successes and failures, challenges and opportunities of the last 40 years? What should be avoided in the next 40? Lloyd Sachikonye and David Kaulemu have assembled a distinguished team of scholars to address these questions and the book focuses on issues that characterise the country's development trajectory: the linkage between values and institutions, defects in its democracy, the curse of mineral and agricultural endowment, the impact of migration and the social exclusion of women and young people. The book is written from a depth of commitment to a just, peaceful and prosperous Zimbabwe and represents a work in progress reflecting the continuing research, evaluation and dialogue that each of the authors is engaged in and signalling the nature and direction of future such work. As the editors conclude, none of the chapters are pessimistic nor are they negative about the country. They are realistic about the gravity of the historical moment the nation faces and the high moral, political and economic mountains we must climb before we can see the Promised Land. Yet they are full of hope; they are convinced that we have not come to the end of history.

The Social and Political Thought of Noam Chomsky Alison Edgley,2004-08-02 The Social and Political Thought of Noam Chomsky questions Chomsky s claim not to have a theory about the relationship between human beings and their society other than that which can be written on the back of postage stamp Edgley compares Chomsky s vision of the good society with liberal communitarian perspectives and establishes that it is grounded in a hopeful belief about human nature She argues that sympathy with this vision of the good society is essential for understanding the nature of Chomsky s critique of state capitalism its inherent nationalism and the media The author concludes that Chomsky s analysis is coherent and systematic when one acknowledges that he is not just a critic but a theorist

Modernism and the Grounds of Law Peter Fitzpatrick,2001-05-02 Existing approaches to the relation of law and society have for a long time seen law as either autonomous or grounded in society Drawing on untapped resources in social theory Fitzpatrick finds law pivotally placed in and beyond modernity Being itself of the modern law takes impetus and identity from modern society and through incorporating pre modern elements of savagery and the sacred it comes to constitute that very society When placing law in such a crucial position for modernity Fitzpatrick ranges widely from the colonizations of the Americas through the thought of the European Enlightenment and engages finally with contemporary arrogations of the global By extending his previous work on the origins of modernity this book makes a significant contribution to continuing developments in law and society legal philosophy and jurisprudence

A Neo-Aristotelian Theory of Social Justice Adrian J. Walsh,2018-10-26 First published in 1997 Adrian Walsh develops an original account of social justice using neo Aristotelian value theory At the heart of the book is an account of the human good in which human

interests are divided into three main categories the basal interests the eudaimonian interests and the interests in subjectivity Subsequently the distributive goods to which distributive principles are to apply are divided into three main spheres the basal sphere the eudaimonian sphere and the sphere of subjectivity While the overall orientation of the project is egalitarian different distributive principles are applied in each of the three spheres with the intention ultimately of realising the egalitarian ideal The main feature of the book is the development of a pluralist egalitarian theory of social justice using a distinctive account of the human good *Marxism, Morality, and Social Justice* Rodney G. Peffer, 2014-07-14 The interpreter of Marx's writings faces the task of reconciling on the one hand Marx's frequent explicit condemnations and criticisms of morality and on the other the obvious way in which his world view reflects substantive moral judgments In this book R G Peffer tackles the challenges of finding in Marx's work an implicit moral theory of answering claims that Marxism is incompatible with morality and of developing the outlines of an adequate Marxist moral and social theory Peffer analyzes the moral components of Marx's thought and considers all the major interpretations of his moral perspective he concludes that Marx is a mixed deontologist who is most committed to a maximum system of equal freedoms both positive and negative He then utilizes contemporary metaethical theory to show that Marxism is compatible with morality in general and with the concepts of justice and rights in particular Peffer proposes a radically egalitarian theory of social justice which subsumes Marx's own moral theory and a minimal set of Marxist empirical theses which together entail the Marxist's basic normative political positions This book demonstrates that contemporary analytic political philosophy is invaluable for coming to terms with Marxism and that it is only Marx's less abstract empirical theories about classes and class struggle the dysfunctions of capitalism and the possibility of creating democratic self managing postcapitalist societies that are needed for the development of an adequate Marxist moral and social theory Originally published in 1990 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Compassion and Remorse Steven Tudor, 2001 This book articulates in rich and complex ways the nature of two important moral emotions or ways of being compassion and remorse As an exemplar of the agent centred tradition in normative ethical theory it is a fine piece of work exhibiting one of the more admirable and enjoyable aspects of work in that tradition the ability to build bridges between a variety of philosophical traditions Steven Tudor makes excellent use of authors in both the analytic and continental traditions while maintaining an admirable clear style The book elucidates in nuanced and quite sophisticated ways the various aspects of compassion and remorse and how they are distinguishable from neighbouring and less valuable states such as pity empathy guilt feelings shame and regret At the same time it acknowledges

and combats various criticisms of compassion and remorse as moral responses by distinguishing between distorted and undistorted forms of these states Compassion and Remorse Acknowledging the Suffering Other is an interesting and intelligent work of philosophy Dr Christine Swanton University of Auckland New Zealand author of Freedom A Coherence Theory winner of Johnsonsian Prize 1990 Steven Tudor's book examines two important features of moral experience compassion and remorse both of which deserve a central place in the contemporary revival of virtue theory Both involve the recognition of other people's suffering while the second also involves a personal recognition of in some cases responsibility for that suffering Drawing on a number of sources phenomenology theology postmodernism and the philosophy of Wittgenstein Tudor interprets these important moral responses not as bare cognitions but in terms of understanding feeling and practical engagement Following a path of clear and cogent arguments he develops a number of moral themes so as to sketch an illuminating conception of the moral life This is a book for the thoughtful and reflective participant in those moral debates which touch on our personal relations with and responsibility for each other What it offers the reader in the end is a strong defence of moral universality and a common human nature Professor Brenda Almond University of Hull author of Exploring Ethics A Traveller's Tale 1998 and Vice President of the Society for Applied Philosophy Dr Steven Tudor studied philosophy and law at the University of Melbourne Australia where he is currently a Senior Fellow in the Department of Philosophy He also practises law as a barrister *Equality and Liberty* J. Angelo Corlett, 2016-07-27 *Equality and Liberty* Analysing Rawls and Nozick is an indispensable source for those seriously interested in some rigorous assessments of the ideas of America's two most popular political philosophers The essays in this volume cover a wide range of topics some engaging each other in their analyses of particular Rawlsian or Nozickian themes This collection of recent essays brings the student up to date concerning some of the more recent developments and assessments of Rawlsian and Nozickian ideas

Recovering the Self Victor Jeleniewski Seidler, 2013-01-11 This important book seeks to place questions of morality and justice at the heart of social theory By exploring the works of Marx Durkheim and Weber it shows the hidden complexities of a modernity too often identified with a unified vision of the rational self later to fall apart into fragments within postmodernity Reinstating the body and emotional life Seidler sets new terms for respect and equality showing ways the self is undermined in its sense of self worth and adequacy through the workings of relationships of power and subordination Drawing upon feminism and Critical Theory to question the allegedly straightforward opposition between essentialism and social constructionism Seidler places the issues of morality right into the centre of the self problem Through reinstating connections between the self and the historical adventures of socialism feminism masculinity ethnicity and autobiographically Jewish identity he shows the intimate affinity between these different categories of experience Identities are not freely chosen but involve a coming to terms with histories of class race and gender Critical of postmodern theories in which anything goes and in which everything you see is relative this book is concerned with the reassertion of value and

recovering a viable tradition in which we can again explore issues of freedom and social justice Our discussions have turned increasingly esoteric as they have sheltered in an intellectual cage which has been difficult to enter This book seeks to open up the cage and re establish the suspended conversation between social theory and the concerns of everyday life

The Mythology of Modern Law Peter Fitzpatrick, 2002-09-11 The Mythology of Modern Law is a radical reappraisal of the role of myth in modern society Peter Fitzpatrick uses the example of law as an integral category of modern social thought to challenge the claims of modernity which deny the relevance of myth to modern society

Moral Understandings Margaret Urban Walker, 2007-09-13 This is a revised edition of Walker s well known book in feminist ethics first published in 1997 Walker s book proposes a view of morality and an approach to ethical theory which uses the critical insights of feminism and race theory to rethink the epistemological and moral position of the ethical theorist and how moral theory is inescapably shaped by culture and history The main gist of her book is that morality is embodied in practices of responsibility that express our identities values and connections to others in socially patterned ways Thus ethical theory needs to be empirically informed and politically critical to avoid reiterating forms of socially entrenched bias Responsible ethical theory should reveal and question the moral significance of social differences The book engages with and challenges the work of contemporary analytic philosophers in ethics Moral Understandings has been influential in reaching a global audience in ethics and feminist philosophy as well as in tangential fields like nursing ethics research ethics disability ethics environmental ethics and social and political theory This revised edition contains a new preface a substantive postscript to Chapter 1 about the subject of moral philosophy the addition of a new chapter on the importance of emotion in practices of responsibility and the addition of an afterword which responds to critics of the book

Rethinking Development Peter Preston, 2012-07-26 First published in 1987 this volume stresses the importance of development studies for sociology as P W Preston argues that this field of study is emerging from the technical social scientific ghetto back into the mainstream of the classical tradition of social

theorizing represented by Marx Weber and Durkheim Preston discusses the position of development studies in relation to the wider group of the social sciences in general and to sociology in particular Using examples mainly from the study of Southeast Asia he looks at the diversity of available modes of social theoretic engagement and considers the work of the colonial administrator scholar the humanist academic scholar and the scholar who theorises on behalf of the planners discusses the mode of political writing and Marxian analyses of development and considers the particular problems surrounding the elites of post colonial nation states *Dangerous Supplements* Peter Fitzpatrick,1991 In *Dangerous Supplements* expert legal scholars employing a variety of theoretical perspectives feminism poststructuralism semiotics and Marxism challenge predominating views in jurisprudence Prevailing notions of the nature of the law they argue have failed to recognize the law s dependence on social constructs and the indeterminance of language The contributors further claim that proponents of traditional notions have borrowed knowledge from other fields only to reject that knowledge as ultimately subversive and dangerous in its ramifications Taking as a point of departure H L A Hart s *The Concept of the Law* Peter Fitzgerald shows how Hart adopted Wittgenstein s linguistic theory to overthrow J L Austin s simple conception of rules and habits in law only to jettison this theory in order to locate the essence of law in its evolution from a primal scene Other chapters examine the way in which the setting of English law above social relations has masked an imperial mission how the philosophies of Hayek and Marx as well as the discourses of liberalism feminism semiotics and poststructuralism have been assiduously marginalized and rendered inessential to jurisprudence
