Glynn Owens, 2002 How do traditional concepts of masculinity restrict men's life choices and affect their health? Why is it that men die earlier than women? Can men find new ways of negotiating masculinity that are not injurious to their physical and emotional health? This book provides a clear and relatively concise social psychology drawing together the variety of arguments, controversies, and approaches that constitute the field. It is organized around three interrelated aspects of critics' dissatisfaction with social psychology: its methods and claim to be a science, the paradigm crisis, its mental concepts, and especially its view of selfhood, the conceptual crisis, and its dehumanizing character, and the political effects of psychological practices and knowledge, the moral political crisis. Several critical tools have guided efforts to rethink the discipline, such as sociological and philosophical studies of science, the turn to language, discourse analysis, feminism, and poststructuralism. These are described, and their usefulness is examined in providing a critique of and alternatives to social psychology's subject and method. The emphasis throughout is on the variety of approaches to deconstructing and reconstructing social psychology, encouraging a broad appreciation of subsequent controversies, such as realism and agency. Students will welcome the clarity of the author's approach to a field which has seemed daunting and impenetrable in the past. *The Secret of Life, Death and Immortality - A Startling Proposition, with a Chapter Devoted to Mental Therapeutics and Instructions for Self Healing* Henry Fleetwood, Oscar Wilde, 2019-10-11 First published in 1908, this vintage book explores the concepts of life and death with special reference to immortality and chapters on the power of the mind and mental healing. In this new edition, available for the first time in the United States, Dorothy Judd draws on her increasing experiences with dying children and their parents to refine and clarify her work as presented in the earlier edition. This book helps readers to make sense out of the irreconcilable tension of embracing death as a part of life and accepting the death of a child. Through her work with Robert, a young boy dying of acute myeloblastic leukemia, Judd helps readers to see anew the need to reconcile the two tensions and to make the necessary decisions for medical care. *Killers of the Flower Moon: Adapted for Young Adults*
