Look There Selected Poems:

The Stars of Earth - new and selected poems Emily Grosholz, 2017-10-16 Emily Grosholz weaves elements of philosophy mathematics and the sciences into her experience of the social and natural world to produce wise and cosmopolitan poetry of high lyricism The Stars of Earth starts with new poems chronicling the months of a year lived and observed followed by selections from Grosholz's previous volumes in chronological order This rare treasury spans four decades of Grosholz's acclaimed poetry PRAISE FOR THE STARS OF EARTH Emily Grosholz is a poet of radiant intelligence patient lyricism and meticulous craft She has a gifted naturalist's regard for the living world and wherever she looks that world for its part offers her its poetry With a philosopher's wit and a mathematician's eye for beauty she can link geometry and physics to the apricot color of a robin's breast She also writes with great empathy for her subjects The Stars of Earth collects four decades of her elegant and excellent work We are lucky to have it Mark Jarman author of *The Heronry* Compressed on the page then wafting ever outward on wings of imagination fine poetry and fine theorems are first cousins Or more rarely in poems like Emily Grosholz's twins Timid and fluid rainbows Over the nacreous surfaces Of shells on peacock feathers And soap bubbles appear Whenever incident light Reflects off nether and upper Laminae of films one wave train Tagging after another Like a younger sister Read this book Marjorie Senechal author of *Shaping Space* I admire Emily Grosholz because of the sounds her poems make She is always experimenting even when the results seem effortless The cunning irregularities are what most compel the reader is never allowed to relax The general readers among us are admitted courteously to the civilizing company The heart not as a hackneyed valentine but as a living muscle is always present as pulse and passion The overwhelming sense these poems give is of affirmation Michael Schmidt author of *New and Collected Poems* The Stars of Earth is that rarest of books Emily Grosholz chronicles everything from love to loss childhood to marriage to parenthood She explores two continents and the minds of scientists artists friends long lost family And as befits a poet philosopher whose pursuits include the philosophy of mathematics she achieves potent mixes of the daily and the deep Nietzschean thought served up in a deli a toddler's first steps along the frail parabolas of love Melissa Balmain author of *Walking in on People* **Select Poems** Richard Henry Dana, 1855 Eleanor Ehrenkranz, 2012-02 This book is a compilation of recent Yiddish Israeli and American Jewish poetry in one compact volume Eleanor Ehrenkranz's Jewish poetry anthology encapsulates the agony of the Middle East in distilled images that pierce the heart Tovah Feldshuh actress I have to admit that I don't usually like poetry But ever since I first read it I have made an exception for Yankev Glatshteyn's *Praying the Sunset Prayer* which expertly performs what I believe to be the function of art to suggest to us why life is worth living Dara Horn novelist I loved reading Robert Pinsky's poem *The Night Game* It is wonderfully wise and evocative characteristically American and Jewish I see in Pinsky's words the limitless opportunities of America through the lens of America's game baseball Senator Joseph I. Lieberman Rachel Korn's *I Am Soaked Th rough By You* is a beautifully economical history of love soaked through with passion tenderness and

Selected Poems of Edward Thomas Edward Thomas,2011-08-04 When Edward Thomas was killed at the Battle of Arras in 1917 his poems were largely unpublished But in the years since his death his work has come to be cherished for its rare sustained vision of the natural world and as a mirror of England Walter de la Mare This edition drawn from Thomas s manuscripts and typescripts as well as from his published works offers an accessible introduction to this most resonant and relevant of poets In his lifetime he was known and loved by a very loving few Now since his death he is known and loved by very many and yearly this is more so There is in his poems and unassumingly profound sense of permanence A war came and ditched him but his poems stay with no other wounds than those which caused them Dylan Thomas A very fine poet And a poet all in his own right The accent is absolutely his own Robert Frost The one hundred and forty poems he wrote in the last two years of his life are a miracle I can think of no body of work in English that is more mysterious Michael Longley
