A Rebel's Treatise On Understanding God, 2013 A theological treatise that endeavours to reconcile everyday questions about belief in God through a cheeky opinionated prose

The Way of Overcomers Zacharias Tanee Fomum, 2016-06-06 In this book the author Z T Fomum highlights the need for God to have men and women determined and committed to the triumph and glory of God He's looking for people who are ready for critical battles requiring faith and obedience The author explains that the Lord is looking for groups of individual overcomers that He will use Ultimately He wants the whole Body the Bride of His Son to be committed to establishing the kingdom of God on earth through their lives of sacrifice and total surrender All this is illustrated by the life of Gideon and the 300 overcomers the life of an individual overcomer like Caleb an overcomer at work like Joshua and then finally the church and the overcomers This book is a real instrument of revival in order to lead each saint to cooperate with the Holy Spirit to overcome the flesh and its desires overcome the world and its desires overcome the devil and his inspired desires

Institution of a Christian Man Gerald Bray, 2018-06-28 Compiled during the early years of the Reformation Institution of a Christian Man lays out the principles of the nascent Church of England In his definitive new edition Gerald Bray charts the development of this text from the first version introduced by Archbishop Thomas Cranmer and his cohort of bishops to the extensive edits made by Henry VIII himself and finally to the version written by Bishop Edmund Bonner under the radically different circumstances of Mary I's reign By combining the Bishops Book and the King's Book into a single text rather than in sequence Bray shows which sections were added deleted and retained throughout the revisions This process allows the Reader to reconstruct the texts and at the same time follow the process by which one was transformed into the other Bishop Bonner's Book which appears separately illustrates additional changes and elaborations from the previous two books Such a comparative study in a user friendly and accessible style has never been published before Although written nearly 500 years ago much of what these books pronounce is still valid and can be addressed to contemporary use A thorough analysis of content also sheds light on a neglected phase of the Reformation and provides a unique insight into the theological development that characterised the earliest stages of the Church of England
