Matter and Memory Henri Bergson,Nancy M. Paul,W. Scott Palmer,2018-07-11 Matter and Memory is a book of cognitive philosophy by Henri Bergson which discusses the classic problem of how the human mind and its memories are related to the spirit Bergson uses the phenomena of memory to

construct arguments in favor of the spirit's existence. The various types of memory and how they are related to the physical world are discussed. Bergson analyses how memories are formed, what bearing they have on the world, and how they ultimately come to constitute their possessor's innate spirit. This book was originally written by Bergson in response to an essay by Th odile Ribot who held that all memory could be traced back to the brain's nervous system. Thus the essence of human memory could be reduced to mere matter rather than containing a higher spiritual element. Bergson fervently disagreed with this opinion and strove to write this thesis as a counter to the notion that the spirit can be reduced to only molecular activity.

Matter and Memory. Authorised Translation by Nancy Margaret Paul and W. Scott Palmer [pseud.] Henri Bergson, 1959

Matter and Memory Henri Bergson, 2015-07-20

Excerpt from Matter and Memory. The translation of Monsieur Bergson's *Mati re et M moire* has been made from the fifth edition of 1908 and has had the great advantage of being revised in proof by the author. Monsieur Bergson has also written a new introduction for it which supersedes that which accompanied the original work. The translators offer their sincere thanks to the author for his invaluable help in these matters and for many suggestions made by him while the book was in manuscript. They beg leave to call the reader's attention to the fact that all the marginal notes are peculiar to the English edition and that although Monsieur Bergson has been good enough to revise them, he is not responsible for their insertion or character since they form no part of his own plan for the book.

Matter and Memory (Classic Reprint) Henri Bergson, 2017-09-18

Excerpt from Matter and Memory. There we shall try to see it ourselves. Our first chapter defines this way of looking at matter; the last sets forth the consequences of such a view. But as we said before, we treat of matter only in so far as it concerns the problem dealt with in our second and third chapters, that which is the subject of this essay: the problem of the relation between soul and body.
