Anonymous,2024-03-05 Reprint of the original first published in 1880 **Mobile Saints** Kate Craig,2021-04-21 Mobile Saints examines the central medieval ca 950 1150 CE practice of removing saints relics from rural monasteries in order to take them on out and back journeys particularly within northern France and the Low Countries Though the permanent displacements of relics translations have long been understood as politically and culturally significant activities these temporary circulations have received relatively little attention Yet the act of taking a medieval relic from its home even for a short time had the power to transform the object the people it encountered and the landscape it traveled through Using hagiographical and liturgical texts this study reveals both the opportunities and tensions associated with these movements circulating relics extended the power of the saint into the wider world but could also provoke public displays of competition mockery and resistance By contextualizing these effects within the discourses and practices that surrounded traveling relics

Mobile Saints emphasizes the complexities of the central medieval cult of relics and its participants while speaking to broader questions about the role of movement in negotiating the relationships between sacred objects space and people
