Mountains Are For Climbing:

Life Is Like Climbing a Mountain James E. Bruce, 2008-09 The objective of this book is to inform educate inspire and motivate individuals and groups toward understanding oneself and others through a literal or virtual mountain climbing experience The aim is to introduce the reader to a literary journey that involves the process and the act of mountain climbing This book brings forth the recognition that just as literal mountains may be comprised of rocks trees ice snow and dirt either singularly or in any combination so too are we as individuals comprised of differing traits strengths values mores and beliefs that offer both specific strengths and weaknesses that alternate given the environment that surround us the situation presented to us and what we feel within us A volcanic mountain it should be noted is more representative to one's inner self Similar to that of this living rock changes occur subtly deep within us sometimes immediate and many times occurring unnoticed by us over long periods of time Like the sudden sight of smoke or vibrations felt from underground it is only during the external expression of change do we realize that we and those around us are merely experiencing the change that has long since occurred The inherent volatility of this living rock parallels the vulnerability potential explosiveness and yet the total dependencies that exist in the individual human experience as well as within our local and world communities These physical mountains are used as a metaphor to offer insight into understanding the dynamics and challenges that are involved in the process of climbing a virtual mountain The mountain climbing process might become more meaningful to an explorer who climbs a virtual mountain that may ultimately take the form of realizing a goal dream or aspiration This book explores the spiritual aspect of the physical mountain particularly how the physical mountain has been a reference place for some people whose successful climb offer testimony to a life changing experience This mountain climbing model is useful towards attaining individual personal or collective goals set in areas such as education business wealth building job or career development marriage political aspirations geographical relocating re-establishing oneself raising children leading or managing sports teams hiring and managing a work force or even military strategy This climbing a mountain model can be used for creating a strategic map towards achieving other personal goals such as writing a book building a house from the ground up or regaining physical or mental health Similarly for organizations this climbing a mountain model can be used as a guide when setting an organization's growth plans in motion The principles are the same Finally this book provides a strategic working roadmap that will transform the reader to an explorer to a believer and finally to an achiever The achiever in retrospect will be inspired to recall and then recite the most powerful words I said I can I know that I would and I made it happen

Never Quit Climbing: Overcoming Life's Seemingly Insurmountable Mountains

Gary Sinclair, 2018-12-29 We all face problems difficulties and challenges don't we They often seem like huge mountains and their magnitude drains our hope faith joy and strength to live Our relationships get broken bodies face cancer loved ones die good jobs vanish finances get depleted children stray and dreams are shattered And yet mountains get climbed every day Some people conquer defeat their pain and overcome How By learning how to climb their mountain not run away or give up Gary Sinclair is a climber of both mountains of granite and ones that he and his wife Jackie have faced over the years In fact one of their toughest personal challenges took them on a climbing journey that brought out the beauty and strength that their lessons in the mountains had taught them years before In *Never Quit Climbing* you'll learn how you can tackle even the most formidable peaks you and your family are facing or will encounter someday Every chapter is practical with thought provoking questions and practical steps to help you up your mountain You'll be encouraged by their story of faith wisdom hope and community that brought them through one of the hardest periods of their married life You'll be encouraged how not to quit what cautions to take what equipment to bring along and even how to come down from your mountain after you've reached the top Your mountain may be very different than Gary's but you'll find principles concepts and practical help that will give you strength and direction to either get started or keep going Gary is also a motivational speaker coach and leadership trainer who continues to hike and climb every chance he and his wife get He has two grown children and six grandsons who all live in the Midwest

If Your Mountain Won't Move, Climb It! Annette Whitmire, 2014-10-01 Jesus said in Mark 11:23 If anyone says to this mountain Go throw yourself into the sea and does not doubt in their heart but believes that what they say will happen it will be done for them My five year old grandson asked How does God move mountains Aren't they really heavy They sure are and He sure can But what if your mountain will not move or even budge I hope for the next few chapters I can walk along side of you as you climb your mountain by sharing with you bits and pieces of my own personal experiences difficulties and accomplishments A friend of mine once said We tend to look at mountains as a bad thing that Jesus has to cast into the sea but sometimes those mountains are not troubles in our lives but triumphs Sometimes God does not move the mountain but calls us to climb it and conquer it So gather your supplies and get on your hiking shoes and let's go mountain climbing

Meditations on the Peaks Julius Evola, 1998-02-01 Evola articulates the close relationship between the physical rigors of mountain climbing and the ascent of the initiate toward self transcendence Julius Evola a leading exponent of esoteric thought was also an ardent mountain climber who personally scaled the peaks of the Tyrols Alps and Dolomites For Evola the physical conquest of a mountain with all the courage self transcendence and mental lucidity that it entails becomes an inseparable and complementary part of spiritual awakening It is no coincidence that many ancient cultures chose mountains as the abodes of their gods and considered the rigorous ascent of peaks as the task of heroes and initiates In modern times which tend to suffocate the heroic with naked self interest the mountain still forms part of the profound dimension of spirit where the soul finds within itself more than what it thought itself to be In *Meditations on the*

Peaks Evola combines recollections of his own experiences with reflections on other inspirational men and women who shared his view of the transcendent greatness of mountains
