

the crowd, he said: "We who have given up our homes and all that is dear to us find it hard to understand stinginess in others. Now I have some exquisite pears, which I shall freely offer to you all."

"If you have pears of your own," said one of the on-lookers, "why didn't you eat one of those?"

"Because first I need one of these pips to grow them from," said the priest. He made quick work of the pear, then took a pip in his hand and, unfastening a pick from his shoulder, made a hole in the ground several inches deep. He dropped in the pip, covered it with dirt, and asked one of the bystanders to fetch him a little boiling water, which he poured over it. All eyes were fixed upon him.

Suddenly a sprout shot up from the spot. It grew larger and larger, branched and thickened, and in a trice there was a full-grown tree laden with leaves before them. Buds appeared in rich profusion, then flowers, and finally all the branches were hung with fruit — plump, ripe, fragrant pears.

The priest began to pick them and hand them round to the crowd, until every last one was gone. Then he took his pick and began to hack away at the base of the tree. Finally it fell and he shouldered it, leaves and all, and walked quietly away.

All this time, the countryman with the cart of pears had been standing among the crowd, straining his neck to see, and forgetting all about his business. Now that the priest had disappeared from view, he turned — and saw that every last pear on his cart was gone! Instantly he realized that the pears the priest had been giving away were his.

At the Threshold of the Image Andrea Pinotti,2025-09-16 An exploration of the impact of immersive experiences on visual practices from cave painting to virtual reality In this groundbreaking book philosopher Andrea Pinotti explores the impacts of a desire that has motivated human beings since prehistory the desire to enter an image He proposes that over the centuries every culture has tried to realize this wish with whatever visual resources were available at the time and today s virtual reality technologies seem close to fulfilling it The image in VR becomes an immersive 360 degree environment and the frame that used to confine it to a world apart disappears Even the physical medium in which the image materializes appears to be transparent However Pinotti insists that once the border between the real world and the iconic world becomes permeable we are faced with a troubling two way passage we penetrate the world of the image but the image floods into our world The desire for being encompassed by the image he shows is accompanied by fear of this overflowing In its analysis of this desire fear At the Threshold of the Image takes the reader on an extraordinary journey from the myths of Narcissus and Pygmalion to contemporary VR headsets passing through the pictorial traditions of trompe l oeil and living sculptures the mirrors in Alice in Wonderland illusionistic architecture panoramas and phantasmagorias and 3D cinema *Quill & Quire* ,2003
