Lauterpacht,C. J. Greenwood,A. G. Oppenheimer,1997-12-04 A unique and essential work of reference for the international lawyer **Asian Yearbook of International Law, Volume 22 (2016)** Seokwoo Lee,Hee Eun Lee,2019-09-02 Launched in 1991 the Asian Yearbook of International Law is a major internationally refereed yearbook dedicated to international legal issues as seen primarily from an Asian perspective It is published under the auspices of the Foundation for the Development of International Law in Asia DILA in collaboration with DILA Korea the Secretariat of DILA in South Korea When it was launched the Yearbook was the first publication of its kind edited by a team of leading international law scholars from across Asia It provides a forum for the publication of articles in the field of international law and other Asian international legal topics The objectives of the Yearbook are two fold First to promote research study and writing in the field of international law in Asia and second to provide an intellectual platform for the discussion and dissemination of Asian views and practices on contemporary international legal issues Each volume of the Yearbook contains articles and shorter notes a section on Asian state practice an overview of the Asian states participation in multilateral treaties and succinct analysis of recent international legal developments in Asia a bibliography that provides information on books articles notes and other materials dealing with international law in Asia as well as book reviews This publication is important for anyone working on international law and in Asian studies **The International Legal Personality of the Individual** Astrid Kjeldgaard-Pedersen,2018-08-08 This is the first monograph to scrutinize the relationship between the concept of international legal personality as a theoretical construct and the position of the ultimate subject the individual as a matter of positive international law By testing the four main theoretical conceptions of international legal personality against historical and existing norms of positive international law that regulate the conduct of individuals the book argues that the common narrative in contemporary scholarship about the development of the role of the

individual in the international legal system is flawed. Contrary to conventional wisdom, international law did not apply to states alone until World War II, only to transform during the second half of the 20th century so as to include individuals as its subjects. Rather, the answer to the question of individual rights and obligations under international law is and always was strictly empirical. It follows of course that the entities governed by a particular norm tell us nothing about the legal system to which that norm belongs. Instead, the distinction between international law and national law turns exclusively on whether the source of the norm in question is international or national in kind. Against the background of these insights, the book shows how present-day international lawyers continue to allow an idea which was never more than a scholarly invention of the 19th century to influence the interpretation and application of international law. This state of affairs has significant real-world ramifications as international legal rights and obligations of individuals and other non-state entities are frequently applied more restrictively than interpretation without presumptions regarding personality would merit.

Territorial Disputes in the Americas Jorge Emilio Núñez, 2025-08-20. Territorial disputes are intricately shaped by historical, legal, geopolitical, social, cultural, and other factors. This book uses a multidimensional approach to assess real case scenarios across the Americas individually and collectively. The work evaluates a selected sample of these disputes, tracing origins to colonial histories, unclear border demarcations, or uncharted lands, and challenges enforcing legal boundaries. It then explores critical thematic areas illustrated with compelling examples: disputes entangled with non-American agents like European nations, colonialism, neo-colonial interference, and pervasive colonial mindsets; ongoing regional differences between neighboring states; and the intricate, sometimes conflicting roles of indigenous communities and implanted populations asserting self-determination, often diverging from states' interests. The work reveals sovereignty and disputes intertwined, encompassing plural agents, roles, contexts, realms, and modes of existence beyond traditional views. Cases like the Falkland/Malvinas Islands, Mexico-US border, Amazon region, and Antarctica highlight how regional organizations and alliances could enhance peacebuilding, strengthen American states against external powers, and challenge traditional unidimensional scholarly approaches with a nuanced, comprehensive perspective. The book will appeal to researchers, academics, and policymakers in the areas of Public International Law, Political Science, and International Relations, Legal Philosophy, Political Philosophy, and Jurisprudence.

Terrorism and International Law Maurice Flory, Rosalyn Higgins, 2002-05-03. The proliferation in terrorist activity has provoked an increase in the body of law both at national and international level, which has sought to counter and prevent it. The bodies involved in this process range from the UN Security Council to government legislatures. This book is the first to address in one volume the wide variety of responses to terrorism as they exist in both international and domestic contexts. It also represents the first ever comprehensive collection of documents referring to terrorism which are to be found in the laws of the UK and France as well as in international law. *Terrorism and International Law* comprises contributions by thirteen well-known authorities in the areas of international

French and UK law and is divided into four main sections international cooperation against terrorism the French and British responses to terrorism the limits of state action and a documentary supplement The contributors have sought to show how international and domestic law can be used together to combat the multi faceted problems which terrorism raises The issue of human rights is also discussed with particular reference to the jurisprudence of the European Commission and Court of Human Rights The fourth documentary section of the book provides coverage of international treaties UN resolutions UK and French legislation case law and official statements relating to terrorism This book provides an invaluable source of commentary and reference material in the area of terrorism and international and domestic law which will be useful for practitioners diplomats students and teachers

The International Committee of the Red Cross and the Protection of War Victims François Bugnion,2003 **An Outline of International Law** Dominique De Stoop,2019-04-01 Written by Dr Dominique De Stoop former Senior Assistant Secretary of the International and General Legal Branch of the Australian Ministry of Foreign Affairs and Trade An Outline of International Law offers a clear comprehensive explanation of the multifaceted realm of international law Dr De Stoop provides background information on the sources of international laws their scope and their effectiveness Each chapter covers a specific area of law including the following Treaty negotiations State sovereignty Human rights and refugee rights Criminal offences and terrorism The law of the sea and international shipping law Environmental law and conservation International and domestic armed conflicts Disarmament and arms control Economic and trade law A valuable resource for law students civil servants and members of intergovernmental organizations An Outline of International Law is your inclusive guide to the international agreements customary international laws and judicial decisions governing the global community

The International Law Commission's Draft Articles on State Responsibility Shabtai Rosenne,2025-01-20 **International Investment Law** Tarcisio Gazzini,Eric De Brabandere,2012-08-22 Transnational investment involves a variety of actors States public and private legal entities and natural persons whose relationships are governed by rules and legal instruments belonging to different legal systems This book provides a systematic study of the

sources of rights and obligations in the field of transnational investment and their coordination and interaction. It focuses primarily on the network of over 3 000 Bilateral Investment Treaties, international investment contracts, customary international law, the main multilateral treaties, national legislation, international case law and general principles of law. The book, firmly based on State practice, arbitral awards and national decisions, is indispensable to fully appraise the nature and content of the claims of private investors as well as to identify the law applicable in investment arbitration.

Public Policy Exception Under The New York Convention Anton G. Maurer, 2013-06-01. The Public Policy Exception under the New York Convention: History, Interpretation and Application describes in detail the drafting history of the public policy exception of Art V 2 b of the New York Convention in order to determine the purpose the signatory states wanted to achieve with this clause. The book also explains how this clause is applied by the courts in many economically relevant states and especially in Brazil, Russia, India and China. In September 2012, the Indian Supreme Court in a case entitled *Bharat Aluminium Co v Kaiser Aluminium Technical Service Inc* announced a long expected decision practically reversing the judgments of *Bhatia International* and *Venture Global* and holding that Indian Courts are not permitted to set aside foreign arbitral awards. In this Revised Edition, the author explains and explores the reasoning of the Indian Supreme Court in this landmark decision and discusses the practical implications and consequences. **Public Policy Exception under the New York Convention: History, Interpretation and Application** is of importance for all internationally active companies as well as for lawyers and courts. The book aids lawyers and companies in drafting arbitration clauses and in enforcing foreign arbitral awards. Often judgments will not be enforced abroad; this is especially true with respect to an enforcement of foreign judgments in the BRIC countries. Therefore, internationally active companies and their advisors need guidance if and where foreign arbitral awards in their favor will be enforced abroad.

The Practice of Arbitration Patrick Wautelet, Thalia Kruger, Govert Coppens, 2012-09-14. This book offers a series of commentaries on noteworthy arbitral awards and court decisions on arbitration. All contributions focus on the practice of arbitration. Influential authors with proven arbitration experience share their insights on celebrated and less well known cases drawn from various countries, various arbitration institutions and including both commercial and investment arbitration. This collection of essays celebrates the work and scholarship of Hans van Houtte who has been a professor of international commercial arbitration at the University of Leuven for more than 20 years. In addition to his widely praised contribution to the theory of arbitration, Professor Van Houtte has built a long career in the practice of arbitration, presiding over a vast array of arbitral tribunals and holding appointments to international tribunals, most recently as president of the Iran-US Claims Tribunal. Hans van Houtte has always been concerned with the practical usefulness of scholarly writings, and this book respects this approach. This volume will prove essential for all arbitration practitioners and will also be of great interest also to academics and research students with an interest in international arbitration. This title is included in Bloomsbury Professional's International Arbitration online service.
