Georg Lukács stands as a towering figure in the areas of critical theory, literary criticism, aesthetics, ethical theory, and the philosophy of Marxism and German Idealism. Yet despite his influence throughout the twentieth century, his contributions to the humanities and theoretical social sciences are marked by neglect. What has been lost is a crucial thinker in the tradition of critical theory but also by extension a crucial set of ideas that can be used to shed new light on the major problems of contemporary society. This book reconsiders Lukács' intellectual contributions in the light of recent intellectual developments in political theory, aesthetics, ethical theory, and social and cultural theory. An international team of contributors contend that Lukács' ideas and theoretical contributions have much to offer the theoretical paucity of the present. Ultimately, the book reintegrates Lukács as a central thinker not only in the tradition of critical theory but also as a major theorist and critic of modernity, of capitalism, and of new trends in political theory, cultural criticism, and legal theory.
