RoboCup 2004: Robot Soccer World Cup VIII Daniele Nardi, Martin Riedmiller, Claude Sammut, José Santos-Victor, 2005-03-23 These are the proceedings of the RoboCup 2004 Symposium held at the Instituto Superior Técnico in Lisbon Portugal in conjunction with the RoboCup competition The papers presented here document the many innovations in robotics that result from RoboCup A problem in any branch of science or engineering is how to devise tests that can provide objective comparisons between alternative methods In recent years competitive engineering challenges have been established to motivate researchers to tackle difficult problems while providing a framework for the comparison of results RoboCup was one of the first such competitions and has been a model for the organization of challenges following sound scientific principles In addition to the competition the associated symposium provides a forum for researchers to present refereed papers But for RoboCup the symposium has the greater goal of encouraging the exchange of ideas between teams so that the competition as a whole progresses from year to year and strengthens its contribution to robotics One hundred and eighteen papers were submitted to the Symposium Each paper was reviewed by at least two international referees 30 papers were accepted for presentation at the Symposium as full papers and a further 38 were accepted for poster presentation The quality of the Symposium could not be maintained without the support of the authors and the generous assistance of the referees

RoboCup 2002: Robot Soccer World Cup VI Gal A. Kaminka, Pedro U. Lima, Raul Rojas, 2003-11-11 RoboCup 2002 the 6th Robot World Cup Soccer and Rescue Competitions and Conference took place during June 19-25 2002 at the Fukuoka Dome main venue in Fukuoka Japan It was by far the RoboCup event with the largest number of registered participants 1004 persons distributed in 188 teams from 29 countries and visitors around 120 000 persons As was done in its previous editions since 1997 the event included several robotic competitions and an international symposium The papers and posters presented at the symposium constitute the main part of this book League reports in the final section describe significant advances in each league and the results The symposium organizers received 76 submissions among which 17 papers 22% were accepted for oral presentation at the symposium first section of the book and 21 papers 29% were accepted as posters second section of the book Most papers were evaluated by three

reviewers each chosen from the members of the International Program Committee IPC The IPC consisted of a balanced combination of regular RoboCup participants and researchers from outside this community The reviewers worked hard to guarantee a fair review process the result of their work was a high quality symposium with very interesting presentations
