**New Approaches in Teaching History** Frederic Krome, 2024-02-14 Science fiction literature and film are an underappreciated source for the teaching of history. Finding material that can excite a student's curiosity can be a key towards greater student engagement, especially among students who are taking history as a requirement rather than from interest. The discovery that they can read or watch science fiction as part of their classwork often comes as a pleasant surprise. Beyond its popularity, however, utilizing science fiction for class assignments has certain pedagogical advantages: it introduces students to new vistas in historical thought, helps them learn how literature and film can be applied as a primary source, and can encourage participation in projects that are enjoyable. Each chapter provides case studies focusing on a different subject in the modern history curriculum and, in addition to providing an analysis of specific texts and/or cinematic sources, gives suggestions on assignments for the students.

While America Watches Jeffrey Shandler, 2000-09-21 The Holocaust holds a unique place in American public culture and as Jeffrey Shandler argues in While America Watches it is television more than any other medium that has brought the Holocaust into our homes our hearts and our minds Much has been written about Holocaust film and literature and yet the medium that brings the subject to most people television has been largely neglected Now Shandler provides the first account of how television has familiarized the American people with the Holocaust He starts with wartime newsreels of liberated concentration camps showing how they set the moral tone for viewing scenes of genocide and then moves to television to explain how the Holocaust and the Holocaust survivor have gained stature as moral symbols in American culture From early teleplays to coverage of the Eichmann trial and the Holocaust miniseries as well as documentaries popular series such as *All in the Family* and *Star Trek* and news reports of recent interethnic violence in Bosnia Shandler offers an enlightening tour of television history Shandler also examines the many controversies that televised presentations of the Holocaust have sparked demonstrating how their impact extends well beyond the broadcasts themselves While America Watches is sure to continue this discussion and possibly the controversies among many readers
