Recovery's Edge Neely Laurenzo Myers, 2015-12-18 In 2003 the Bush Administration's New Freedom Commission asked mental health service providers to begin promoting recovery rather than churning out long term chronic mental health service users Recovery's Edge sends us to urban America to view the inner workings of a mental health clinic run in part by people who are themselves in recovery from mental illness In this

provocative narrative Neely Myers sweeps us up in her own journey through three years of ethnographic research at this unusual site providing a nuanced account of different approaches to mental health care Recovery's Edge critically examines the high bar we set for people in recovery through intimate stories of people struggling to find meaningful work satisfying relationships and independent living This book is a recipient of the Norman L and Roselea J Goldberg Prize from Vanderbilt University Press for the best book in the area of medicine **Managing Your Drug Or Alcohol Problem** Dennis C.

center of thinking about law The contributors to this volume do not regard pain and suffering as objective facts of a universe remote from law rather they examine how both are discursively constructed in and by law They examine how pain and suffering help construct and give meaning to the law as we know it The authors attend to the various ways suffering appears in law as well as the different forms of suffering that require the law s attention Throughout this book law is regarded as a domain in which the meanings of pain and suffering are contested and constituted as well as an instrument for inflicting suffering or for providing or refusing its relief It challenges scholars lawyers students and policymakers to ask how various legal actors and audiences understand the suffering of others Contributors Montr D Carodine Cathy Caruth Alan L Durham Bryan K Fair Steven H Hobbs Gregory C Keating Linda Ross Meyer Meredith M Render Jeannie Suk John Fabian Witt
