Economics of Sustainable Energy Jaan S. Islam, M. R.

Islam, Meltem Islam, M. A. H. Mughal, 2018-09-14 Co written by a pioneer of the sustainability movement this groundbreaking volume offers a new way of thinking about the economics of sustainable energy a goal that has eluded scientists and economists for decades Every year as soon as reports on global economic inequality remind us about the direction our civilization is heading there is a hysterical reaction but hysteria dies down within weeks and we go back to the lifestyle that brought us here today Often the blame is laid on the Millennial generation for their apathy lust for comfort and bratty attitude Yet business insider surveys indicate it s the same Millennial generation that overwhelmingly cares for the state of the world and the direction in which our civilization is heading Nearly 50% of them ranked climate change and destruction of nature as their primary concern This is followed by concern for war and global conflict and then global economic inequality The vast majority of those surveyed are willing and eager to make lifestyle changes This book breaks open the hypocrisy of our civilization and stops the blame game in its tracks and identifies the root causes of today s world economy ecology and global politics The book demonstrates that changes in lifestyle are necessary but not sufficient No economic policy or technology development mode has a chance to survive let alone thrive unless supported by the political establishment In this process the government plays a pivotal role The challenge is to change the attitude of the government from a self serving controlling mode to a representative philanthropic mode This new system of economic development and political governance is inspired by a long forgotten understanding of political economics medieval Islamic economics In reviewing the history of economics from trade currencies and interest the strengths and weaknesses of various economic developments over our

centuries are evaluated Based on the historical analysis a step by step procedure is outlined for this fundamental change in our society today As a whole this book is the first in the modern era to offer such a comprehensive analysis complete with solutions to the entire crisis of today s civilization

Economic Empowerment Of Women In The Islamic World: Theory And Practice Toseef Azid,Jennifer L Ward-batts,2020-06-22 The book Economic Empowerment of Women in the Islamic World discusses the economic social and political rights and status of women in Islam which is theoretically given by the Islamic Jurisprudence Shariah law The chapters in this volume will address historical practices in comparison to the status of women in the contemporary Muslim world Men and women in Islam regardless of their age social class and education are equal as citizens and individuals but not identical in their rights and responsibilities It can be observed from Islamic history that in the early age of Islam women were given full confidence trust and high responsibilities in leadership educational guidance and decision making This volume will try to clarify the confusion in the status of the women in Islam that is presented by the media as it is assumed that theoretical Islamic empowerment of women bears little relation to the real conditions of women in modern Muslim societies It has been widely claimed in the media that Muslim women suffer more than men in Muslim societies and communities in terms of insecurity domestic abuse and low access to education and medical care It is also stated in the press and media that absence of good governance also results in gender inequality and violation of the rights of Muslim women This volume also aims to provide the solutions for the empowerment of women in the Islamic world We assumed that without good governance the status of women is not likely to improve Muslim women have the potential to play a fundamental role in curbing corruption social ills violence and crime in the Muslim world This volume will make the case that in order to achieve stability and prosperity the government must ensure a platform for women to participate in decision making and hence benefit from the rights they are accorded in Islam By covering a range of perspectives on the economic lives of Muslim women around the world it hopes to shed light on the problems faced and to offer possible solutions to the empowerment of women in the Islamic world

Covering key topics such as income small businesses entrepreneurship and credit this major reference work is ideal for industry professionals government officials computer scientists entrepreneurs business owners managers policymakers researchers scholars practitioners instructors and students Directory of Islamic Financial Institutions John R. Presley, 2012-05-25 When originally published this was the first reference book to address itself to Islamic banking and finance and it offers comprehensive information on all major institutions which have commercial or banking interests in this field It includes analysis of the principles behind interest free banking and indicates its relationship with financial institutions in both Islamic countries and Western ones It also lists the laws governing interest free banking in countries where it is extensively in operation and provides essential information for all international financial institutions The Directory lists all banks and financial institutions by country giving details of their specific role and areas of operation Islam and Economic Policy Rodney Wilson, 2015-05-15 This textbook looks at the impact of Islamic teaching on public economic policy and asks how Islamic economics differs from mainstream micro and macroeconomics *What Is Wrong with Islamic Economics?* Muhammad Akram Khan, 2013-01-01 I read with great interest the current state of Islamic economics and finance as examined by Muhammad Akram Khan who has given a fresh outlook for the readers to find out its limitations and to search for its solutions Khan has read widely in the subject matter and presented his views with reference to literature and thoughtful and logical arguments While many may not agree with his arguments or will have a better explanation I find his arguments at least worthy of examination to strengthen the arguments of those who might oppose him Although Khan is critical of the subject matter he is very sympathetic to the greater objectives of Islamic economics and provides his own prescriptions to achieve those objectives M Kabir Hassan University of New Orleans US This is a very thought provoking book coming at a crucial stage in the development of Islamic economics and finance Although the reader may not agree with some of the conclusions reached it is clearly a scholarly and extensively researched piece of work it should be read by all serious students of the subject area Amongst other things it throws light on the reasons why the practical implementation of Islamic economics and finance particularly in relation to the financial system and financial institutions has not always conformed to the true theoretical foundations laid down by Islamic scholars John Presley Loughborough University UK and recipient of Islamic Development Bank Prize in Islamic Finance 2001 2002 Islamic economic system is a type of capitalism with a spiritual dimension is a major conclusion of this book I applaud this insight of Muhammad Akram Khan The same can be perhaps said of Islamic finance which in its hurry to build viable and efficient financial institutions has ignored the very same need to start with profits and risk sharing principle and no riba principles to build pricing models to anchor the new sub discipline The good news is that in the course of time to come Akram s advocacy may be realised since such serious works have already begun Mohamed Ariff University Putra Malaysia and Bond University Australia Although there are many books on Islamic economics this critical but sympathetic account by Muhammad Akram Khan is worthy of attention The author has

clearly read widely on the subject and appreciates the limitations of much that he has read Islamic economics is a work in progress and by focusing on its shortcomings Khan challenges the assumptions of many working in the field His discussion of methodology is insightful and even the prohibition of riba for many the defining characteristic of Islamic finance is examined from a fresh perspective While many will not agree with the analysis and the conclusions even critics should be able to appreciate the strengths of the arguments made In summary this is a worthwhile and in many respects an innovative survey of the state of Islamic economics and finance It deserves to be widely read Rodney Wilson Durham University UK What is Wrong with Islamic Economics takes an objective look at the state of the art in Islamic economics and finance It analyses reasons for perceived stagnation and also suggests a way forward As well as probing various myths the book presents several innovative ideas and a methodology for developing the subject on new foundations It also highlights weaknesses in the conventional position on prohibition of interest which has led Islamic banks devise a series of legal tricks The author notes how the original aim of devising a new brand of banking has become less prominent whilst Islamic banks now position themselves more closely to conventional banks The book also offers insights into how certain traditional thinking has seemingly ignored the egalitarian spirit of the law of zakah and created a scenario where zakah is not able to help the billions of poor people around the globe This detailed book will appeal to students professors researchers Islamic banks and finance houses consulting companies accounting firms and regulatory bodies Professional economists libraries in research and training organizations as well as anyone with a general interest in the topic will find much to interest them **The Future**

as a culmination of the seismic shifts and tensions that have tested the very foundations of the international system Amid unprecedented developments T rkiye reaffirmed its role as an established and prominent player embodying a foreign policy that is multilayered multiaxial and multidimensional even as the international system was constantly tested At its core T rkiye s foreign policy approach is humanitarian earning it the reputation of being the guardian of the vulnerable and the protector of the voiceless Beyond the ongoing genocide in Gaza the international system witnessed defining moments such as the abrupt death of Iran s top officials in a helicopter crash and the fall of Bashar al Assad s regime in Syria The re election of Donald Trump as President of the United States further underscored the year s unpredictability Additionally elections in approximately 70 countries encompassing half the world s population saw incumbent parties faltering under public dissatisfaction with economic disruptions and the lingering effects of the pandemic paving the way for far right populist movements The return of Trump signaled a marked shift in U S foreign policy His expected America First 2 0 protectionist stance and tax cuts raised concerns about the future of multilateralism and global trade leaving European countries bracing for potential economic ramifications Meanwhile the ousting of Assad after decades of autocratic rule marked by atrocities committed against civilians signaled the end of an era and the beginning of a new dawn for Syria one fraught with both challenges and opportunities for the nation s future Nonetheless on a broader scale global instability defined the year 2024 In Europe domestic crises resulted in governmental collapses in Germany and France while South Korea experienced significant political turmoil following a failed attempt to impose martial law The ongoing war in Ukraine and the genocide in Gaza further strained the international system exposing the fragility of democratic institutions and the continued erosion of multilateral norms These profound challenges underscore the pressing need for a reimagined and resilient global governance framework capable of addressing the complexities of an increasingly volatile World As it has always been a pivotal actor in promoting regional stability and peace T rkiye continued to assume a leading role in efforts to stabilize the region With Assad s regime toppled Ankara positioned itself as a key player in Syria s reconstruction including plans to provide electricity and collaborate on hydrocarbon projects signaling T rkiye s intent to integrate Syrian energy infrastructure into its sphere Concurrently T rkiye brought to the table initiatives for a maritime demarcation agreement with Syria reinforcing Ankara s leadership in regional stability Relations with Israel reached a critical point amidst T rkiye s unequivocal condemnation of the genocide in Gaza Since the Operation al Aqsa Flood Israeli aggression has resulted in over 44 000 civilian casualties including more than 16 000 children 105 000 injured and with many others facing famine sickness and a lack of essential resources under relentless bombardment T rkiye under the leadership of President Recep Tayyip Erdo an has consistently advocated for a two state solution to ensure dignity and freedom for the Palestinian people while persistently calling for an end to the ongoing genocide However the global community including many of the world s so called democracies failed to support T rkiye s peace proposals and calls for halting the genocide Despite this T rkiye s principled stance resonated at the

United Nations Headquarters the Security Council and across the globe In November T rkiye severed all its diplomatic ties with Israel a decisive move that underscored its strong alignment with international law humanitarian principles and moral values prompted by Israel s unwillingness to end the genocide in Gaza In 2024 T rkiye s humanitarian diplomacy continued its longstanding expansion beyond its immediate neighborhood In Africa Ankara further reinforced its influence through ongoing mediation efforts infrastructure investments and cultural diplomacy By exporting cutting edge drone technology T rkiye has bolstered its strategic foothold Simultaneously educational scholarships and media outreach have bolstered T rkiye s position as an equal partner emphasizing cooperation in contrast to the traditional asymmetric approaches of ex colonial Western powers toward the region As a result of T rkiye s multiaxial foreign policy Ankara adeptly balanced its NATO commitments with independent initiatives reflecting its ability to navigate the complexities of an evolving global order T rkiye s multiaxial approach engaging with both the West and East as well as the North and South demonstrated a nuanced and adaptive strategy that reinforced its position as a central actor in international relations This approach allowed Ankara to foster robust relations with key global players across diverse political and economic blocks while maintaining a steadfast commitment to regional and global stability and cooperation By strategically aligning its defense diplomatic and economic policies T rkiye advanced its influence and credibility on the global stage showcasing its ability to contribute to resolving international challenges and ensuring a balanced and inclusive approach to global governance For T rkiye 2024 was a year of assertiveness and proactive diplomacy Leveraging geopolitical shifts T rkiye amplified its influence on regional and global stages Its strategic vision seamlessly blended humanitarianism with calculated diplomacy offering a beacon of hope amid global turbulence As the world transitions to 2025 T rkiye s foreign policy underscores the responsibility for redefining her role standing as a symbol of resilience and inspiration As the guardian of the vulnerable and the protector of the voiceless T rkiye remains as a beacon of hope not only for the neighboring region but for the entire world Within this framework this issue of Insight Turkey seeks to address many of these topics offering in depth analyses to enhance our understanding not only of Turkish foreign policy but also of the regional and global dynamics in which T rkiye plays a pivotal role In recent years public diplomacy has become a central pillar of T rkiye s foreign policy particularly since the establishment of the Directorate of Communications in 2018 Therefore understanding T rkiye s approach to public diplomacy is crucial In his research article O uz G ner provides a comprehensive analysis of T rkiye s public diplomacy ecosystem He delves into its practices explores the transformative impact of institutionalization and examines the concept of nation branding as a key component of this evolution In the same vein Ali i ek and Ali Asker argue that while T rkiye has achieved significant success in its public diplomacy efforts the time has come for T rkiye and Azerbaijan united by the deeply rooted concept of one nation two states reflected in public opinion and their cooperative endeavors to expand their strategic partnership into the sphere of public diplomacy i ek and Asker explore how T rkiye can share its public diplomacy expertise with Azerbaijan and examine

the potential for collaborative public diplomacy initiatives between the two nations As mentioned earlier defense continues to be a critical domain in Turkish foreign policy due to its strategic significance In this context Recep Ehito lu and Ibrahim Karata offer a fresh perspective in their article arguing that the rise of T rkiye s defense sector has contributed to establishing a form of Pax Turka in certain conflicts They suggest that as the Turkish defense industry develops more advanced weaponry the influence of Pax Turka could become increasingly pronounced particularly in parts of the region Their study further predicts that the scope of Pax Turka may expand significantly by the 2030s The Kurdish Question has long been a pivotal element in T rkiye s domestic affairs with significant implications for its foreign policy While this issue is analyzed in detail regarding the current government s policies there is a noticeable gap in the discussion concerning the stance of opposition parties particularly the CHP Addressing this gap Halime K k e and Ramazan Akk r s article examines and compares the policies of two CHP leaders namely Deniz Baykal and Kemal K l daro lu They argue that during Baykal s tenure the CHP s approach to the Kurdish Question was largely shaped by concerns about protecting the regime In contrast under K l daro lu the party s stance shifted to focus more on the socio economic challenges faced by Kurds marking a partial departure from nationalist policies The growing importance of T rkiye in regional and global affairs has become particularly evident in the context of the Russia Ukraine war where it has emerged as a key actor striving to end the conflict through various initiatives This issue of Insight Turkey focuses on this topic with both a commentary and a research article Specifically Bar a lar s commentary emphasizes that the true adversary in the Russia Ukraine conflict is not any specific nation or faction but the looming threat of nuclear war arguing that preventing nuclear escalation must be the foremost priority The author also highlights how T rkiye by promoting dialogue and facilitating peace negotiations exemplifies a strategic and alternative approach to conflict resolution one that seeks not only to prevent further escalation but also to lay the groundwork for lasting peace On the other hand Merve Suna zel zcan in her qualitative study examines the mediating role of militarist and internationalist sentiments in shaping the relationship between the personal values of Turkish society and their attitudes toward the war in Ukraine This issue of Insight Turkey also places significant emphasis on developments in the Middle East particularly the events in Palestine and Iran s policies Within this framework the commentaries by Mahmoud al Rantisi and Mustafa Caner provide detailed analyses of these topics Specifically al Rantisi explores the impact of Yahya Sinwar s martyrdom on the Palestinian resistance and the Hamas movement offering also an analysis of how Israel consistently misunderstands the mindset of the Palestinian resistance a dynamic that is expected to persist in the future Furthermore Mustafa Caner s commentary focuses on Iran Israel relations examining Iran s policy toward Israel through historical strategic and contemporary lenses The analysis delves into Iran s strategic calculations and the balancing actions and mechanisms it has employed in the post October 7 period to avert a full scale war in the region Two additional research articles focusing on Iran are also included in this issue The first by Hakk Uygur offers a detailed and significant analysis of

the evolution and institutionalization of Iran's intelligence apparatus including the internal dynamics and developments among its intelligence agencies The second article by Yousof Qorashi examines the efforts of Iran and India to expand their influence in Central Asia highlighting how the U S has not only obstructed these ambitions but also hindered cooperation between the two states This issue also addresses developments in Iraq Azerbaijan and Afghanistan First Mohamad Hassan Soueidan's article highlights two major projects in Iraq the Grand Faw Port and the Dry Canal According to the author these initiatives which aim to connect Iraq with Europe through Turkey and Syria have the potential to transform Iraq's role in global trade and reshape its economic landscape Second Shamkhal Abilov Natig Abdullayev and Eldar Hamzal shed light on the Sumgait events of 1988 and the Khojaly massacre of 1992 focusing on Russia's involvement in both cases Furthermore their analysis also examines whether Azerbaijan and Armenia demonstrate tendencies of denialism when comparing these events Third Shahid Ahmed Afridi uses Afghanistan as a case study employing post structuralism to deconstruct the theoretical foundations of the liberal peace order He critically examines the U S peacebuilding framework in Afghanistan offering fresh insights into its limitations and implications Last but not least this issue of Insight Turkey features a commentary that examines the implications of the forthcoming Trump Administration for the global order Written by K l Bu ra Kanat the commentary provides a detailed analysis of the potential policies of the new administration toward key global actors including Russia China and the Middle East As we bid farewell to another year Insight Turkey proudly concludes its 26th year of publication marked by impactful and comprehensive analyses of Turkish foreign policy and regional developments As we prepare to embark on a new year we are excited to bring fresh topics innovative perspectives and in depth insights to our readers We extend our heartfelt gratitude to all our readers for their continued support and engagement We look forward to your continued readership and invite you to join us on this journey as we explore the evolving dynamics of our world in the year ahead
