The New Heretics of France Susan Palmer, 2011-09-30 Since the Age of Enlightenment France has upheld clear constitutional guidelines that protect human rights and religious freedom Today however intolerant attitudes and discriminatory practices towards unconventional faiths have become acceptable and even institutionalized in public life Susan Palmer offers an insightful examination of France s most stigmatized new religions or sectes and the public management of religious and philosophical minorities by the state The New Heretics of France tracks the mounting government sponsored anti cult movement in the wake of the shocking mass suicides of the Solar Temple in 1994 an event that ushered France s most visible religious minorities onto a blacklist of 172 sectes commissioned by the National Assembly Drawing on extensive interviews and field research Palmer describes the controversial histories of well known international New Religious Movements including the Church of Scientology Raelian Movement and Unificationism as well as esoteric local groups Palmer also reveals the partisanship of Catholic priests journalists village mayors and the passive public who support La R publique s efforts to control minority faiths all in the name of Liberty Equality and Fraternity Through historical and sociological theory Palmer analyzes France s war on sectes as a strategic response to social pressures arising from globalization and immigration Her study addresses the impact of these social pressures on traditional cultures and national character as well as important issues of religious freedom and public tolerance

Regulating Religion James T. Richardson, 2012-12-06 Regulating Religion Case Studies from Around the Globe presents through the inclusion of contributions by international scholars a global examination of how a number of contemporary societies are regulating religious groups It focuses on legal efforts to exert social control over such groups especially through court cases but also with selected major legislative attempts to regulate them As such this analysis falls within the broad area of the sociology of social control and more specifically legal social control a topic of great interest when studying how contemporary societies

attempt to maintain social order The factual details about social and legal developments in societies where religion has been defined as problematic include Western and Eastern Europe Asia Oceania and the Americas This book will be of interest to researchers and students in the sociology of religion the sociology of law social policy and religious studies as well as policy makers , Religion et démocratie Collectif,2014-09-01 Avec la chute du communisme la r islamisation les d bats sur la la cit l essoufflement de la th ologie de la lib ration en Am rique latine la conscience de l troite imbrication du religieux et du politique se fait de plus en plus vive Les auteurs de ce livre r unis autour de Patrick Michel sociologue du religieux et directeur de recherche au CNRS ont voulu clarifier ces mutations en cours la fois par des tudes de cas le Maghreb l Inde l Am rique latine la Russie et par des analyses transversales individu politique et sujet religieux logiques religieuses et construction d mocratique Dans un monde devenu incertain le religieux sans cesse requis habite les d faillances du politique et pr tend proposer des valeurs une d mocratie qui serait incapable d en produire De ce fait il demeure un instrument d observation privil gi de nos soci t s dont les changements obligent les sociologues repenser profond ment les anciennes grilles d analyse laborer des concepts nouveaux et mettre en chantier des probl matiques in dites **The Ecumenical Movement and the Making of the European Community** Lucian Leuștean,2014 A study that assesses the political history of religious dialogue in the European Community detailing close relations between churchmen and high ranking officials in European institutions immediately after the 1950 Schuman Declaration **New Religions and Globalization** Armin Geertz,Margit Warburg,2008-08-01 Globalization is a predominant theme in contemporary educational and political circles Research on globalization has become a political priority because the world has become a single place as Roland Robertson formulated it where events in any particular part of the world can and often do have political economical and military consequences for the rest of the world Discourse on globalization however has generally ignored the cultural consequences Recent waves of violence that seem to be religiously fueled if not motivated among immigrants and refugees in Europe and their home regions in the Middle East have demonstrated that we can only ignore culture values and religion at our own peril Globalization and new religions is the theme of this book It is argued here that studying new religions in a globalization perspective offers theoretical and methodological advantages both for the general study of religion and the general study of globalization Religions are often cosmopolitan and universal in their overall message yet they may at the same time be utterly immersed in local interactions This is often clearly expressed among minority religions The contrast of the local and the global is accentuated by globalization and in particular many new religions have followed suit This book draws together a selection of top quality papers given at a conference held in Aarhus in 2002 under the auspices of the Research Network on New Religions RENNER The papers which have been edited and up dated represent the work of leading scholars in the history of religions sociology of religion psychology of religion and other disciplines They address questions that are vital for everyone in the modern world whether approached as a reflection of world economy and power dynamics new possibilities of

communication and cultural exchange in the light of mass media and technology increased cultural plurality in the wake of migration or as a combination of any of these globalization challenges the academic study of religion to renewed theoretical and methodological reflection
