## **Secularism And Constitutionality:**

**Secularism and Constitutionality** Amita Sarakāra, 1988      **Constitutional Secularism in an Age of Religious Revival** Susanna Mancini, Michel Rosenfeld, 2014 Traditional models of constitutional secularism have struggled to accommodate the modern revival of religious politics. The concept has been criticised as empty or illegitimate while political and legal struggles have contested its meaning. This book gathers leading experts to examine the scope and substance of constitutional secularism today.      Religious Liberty and the Secular State John M. Swomley, 1987 This book examines the political and religious context in which the Constitution and The Bill of Rights were adopted. Swomley reasons that those who wrote and adopted the Constitution and First Amendment intended a strict separation of church and state, a government that would neither aid nor impede religion. Religious Liberty and the Secular State refutes Chief Justice Rehnquist's position that the framers of the Constitution did not intend to ban all religious aid, only preferential aid. Swomley also refutes Rehnquist's claim that the Establishment Clause in the First Amendment was intended to prevent the establishment of a single national church. Swomley concludes that the Constitution was intended to prevent the federal government from establishing one or more churches and to prevent the tax support of churches on any basis. This book exposes the Supreme Court's erosion of the Establishment Clause while emphasizing the Free Exercise Clause. Swomley also explores civil religion, secular humanism, and the current counter revolution against separation of church and state led by some religious and political conservatives who would profit from government aid. He also lists the benefits churches would realize under a secular government.

**Legitimacy Gap** Vincent Depaigne, 2017-08-25 This book provides an account and explanation of a fundamental dilemma facing secular states: the legitimacy gap left by the withdrawal of religion as a source of legitimacy. Legitimacy represents a particular problem for the secular state. The secular, in all its manifestations, is very much linked to the historical rise of the modern state. It should not be seen as a category that separates culture and religion from politics, but rather as one that links these different dimensions. In the first part of the book, Depaigne explains how modern constitutional law has moved away from a substantive legitimacy based in particular on natural law towards a procedural legitimacy based on popular sovereignty and human rights. Depaigne examines three case studies of constitutional responses to legitimacy challenges which articulate the three main sources of procedural legitimacy: people, rights, and culture in different ways. The neutral model, constitutions based on the displacement of culture; the multicultural model, constitutions based on diversity and pluralism; and the asymmetric model, constitutions based on tradition. Even if secularization can be considered European in its origin, it is best seen today as a global phenomenon which needs to be approached by taking into account the particular cultural dimension in which it is rooted. Depaigne's detailed study shows how secularization has moved either towards nationalization linked to a particular national identity as in France, and to some extent in India, or towards de secularization whereby secularism is displaced by particular cultural norms as in Malaysia.      Religion, Secularism, and Constitutional

Democracy Jean L. Cohen, Cécile Laborde, 2015-12-22 Polarization between political religionists and militant secularists on both sides of the Atlantic is on the rise. Critically engaging with traditional secularism and religious accommodationism, this collection introduces a constitutional secularism that robustly meets contemporary challenges. It identifies which connections between religion and the state are compatible with the liberal republican and democratic principles of constitutional democracy and assesses the success of their implementation in the birthplace of political secularism, the United States and Western Europe. Approaching this issue from philosophical, legal, historical, political, and sociological perspectives, the contributors wage a thorough defense of their project's theoretical and institutional legitimacy. Their work brings fresh insight to debates over the balance of human rights and religious freedom, the proper definition of a nonestablishment norm, and the relationship between sovereignty and legal pluralism. They discuss the genealogy of and tensions involving international legal rights to religious freedom, religious symbols in public spaces, religious arguments in public debates, the jurisdiction of religious authorities in personal law, and the dilemmas of religious accommodation in national constitutions and public policy when it violates international human rights agreements or liberal democratic principles. If we profoundly rethink the concepts of religion and secularism, these thinkers argue, a principled adjudication of competing claims becomes possible.

Indian Secularism: Constitutional Vision and its Subversion Dr. Avaneesh Maurya, 2024-10-29 This book gives the reader a brief introduction to some of the theories of secular thought that are popular in the West as well as in India. It also deals extensively into what the true meaning of secularism in India is. It innovatively embeds Indian cases and contexts in the Constitutional Perspective. It presents an understating of the manner in which India developed its peculiar variant of secularism. Chapter 1 traces the historical and conceptual exposition of secularism both in the western and Indian contexts. Chapter two narrated the political intensions of the constitution framers and constitutional provisions. In the following two chapters, it deals with judicial pronouncements with regards to secularism and also discussed the threats to Indian Constitutional Secularism and its vision by its rebellions. This work is a modified version of the doctoral thesis submitted to the Pondicherry University.

*A Secular Europe: Law and Religion in the European Constitutional Landscape* Lorenzo Zucca, 2012-10-11 How to accommodate diverse religious practices and laws within a secular framework is one of the most pressing and controversial problems facing contemporary European public order. In this provocative contribution to the subject, Lorenzo Zucca argues that traditional models of secularism focusing on the relationship of state and church are outdated and that only by embracing a new picture of what secularism means can Europe move forward in the public reconciliation of its religious diversity. The book develops a new model of secularism suitable for Europe as a whole. The new model of secularism is concerned with the way in which modern secular states deal with the presence of diversity in the society. This new conception of secularism is more suited to the European Union whose overall aim is to promote a stable, peaceful, and unified economic and political space starting from a wide range of different national experiences and

perspectives The new conception of secularism is also more suited for the Council of Europe at large and in particular the European Court of Human Rights which faces growing demands for the recognition of freedom of religion in European states The new model does not defend secularism as an ideological position but aims to present secularism as our common constitutional tradition as well as the basis for our common constitutional future
