the United States and its allies Exploring the disruptive effects of the double edged sword of nationalism and modernization the contributors discuss the full range of Western security interests in the region Case studies of key countries emphasize the prospect for peaceful political economic and cultural change The authors analyze the ramifications of the Arab Israeli conflict and the threats posed by Soviet penetration Arguing that confusion and contradiction mark U S policy in the Middle East the book concludes that U S strategists should focus not on curing the region s internal problems but on coping with them without sacrificing long term goals for quick fixes *Security and Insecurity in the Middle East* Imad El-Anis,Sahra Joharchi,Natasha Underhill,2018-10-09 This volume draws together a number of research papers presented at a conference titled Security Insecurity and Prospects for Peace in the Middle East and North Africa organised by Nottingham Trent University s Middle East and North Africa Research cluster in April 2016 The conference focused on questions pertinent to what may be termed the post Arab Spring era in which the Middle East is experiencing unprecedented national and transnational challenges Conflict instability radicalisation and the mass displacement of people have become increasingly salient features of the political and economic landscape of the region The contributions here analyse a range of political economic security and socio cultural issues that the authors argue lie at the heart of the instability that the region is currently experiencing Re thinking issues of security and insecurity in the Middle East not only allows us to explain what might have led to current instability but also allows us to posit possible solutions to these security issues In doing so this book goes beyond the concepts of security and insecurity as a standard account of perpetrator versus victim in a state centric and violence centric manner to a broader and more complex understanding of the underlying processes informing security and insecurity in the region The contributors include scholars from around the world working in a variety of different fields including Middle Eastern studies international relations and international political economy providing an eclectic discussion of the state of the region Critical Issues Facing the Middle East J. Russell,2006-07-21 Addressing systemic changes in the Middle East s security environment since the Iraq War prominent experts analyze the challenges these changes pose to US strategy and policy They examine the causes of profound economic political and religious transitions and their implications for hopes of reform **Contentious Issues of Security and the Future of Turkey** Nursin Atesoglu Güney,2018-01-18 Security is a major contemporary concern with foreign and security policies topping the agenda of many governments At the centre of Western security concerns is Turkey due to its geographical proximity to converging major fault lines such as the Caucasus the Mediterranean and the Middle East As trans Atlantic debates evolve around these major fault lines future relations will have a direct impact on the re orientation of Turkish foreign and security policies This comprehensive study focuses on the future of Turkish foreign and security policies within the emerging strategies of the two Wests Discussing the challenges Turkey has been facing since the turn of the century it examines Turkish foreign policy in the context of trans Atlantic relations as a global actor and with respect to conflict new power relations energy security Greece Cyprus and the

environment The Middle East, Oil, and the U.S. National Security Policy Donald M. Snow, 2016-03-17 Three interrelated subject areas are at the heart of the current foreign and national security dilemma One is the Middle East which has been the epicenter of most U S policy activity for over a third of a century The second is energy policy particularly as it is affected by the development and exploitation of shale oil and gas reserves in the United States This is linked to the Middle East because it has been American dependence on Middle East petroleum that has created the interest the U S has in this region The third area is military manpower policy and two simultaneous wars in the new century have raised questions about the all volunteer force policy in place since 1972 It is increasingly evident that foreign and defense policy are strained and in need of fresh conceptualization The three areas identified are the most obvious examples of policy dysfunction The key area is the Middle East region As long as the United States remains heavily committed to this part of the world especially with military force and essentially because of its energy needs there will be strains on manpower resources that could force a reexamination of the all volunteer concept At the same time the reduction of U S dependence on Middle Eastern oil loosens the bonds that seem to impel American activism in the region The result could be true opportunities for a less confrontational adversary driven foreign and defense posture *U.S. Policy in the Middle East, November 1974-February 1976* United States.

Department of State. Office of Media Services, 1976 **Turkey's Foreign Policy and Security Perspectives in the 21st Century** Sertif Demir, 2016-04-23 This book aims at analyzing Turkish foreign and security policies in the 21st century Turkey's foreign and security policies have become the focus of academic discussions since Turkey is located in the middle of the most unstable region in the world Turkey's self assured foreign policy has similarly attracted the attention of academicians worldwide Meanwhile Turkey's security policy has also been the subject of discussions as the country has been struggling with ethnic terrorism for 35 years Furthermore the US invasion of Iraq and the recent Syrian civil war along with other factors have caused religious radicalism to expand its power throughout the Middle East which has heavily impacted on Turkey's security Turkey's longstanding problems with its neighbors have also affected the general characteristics of its foreign policy particularly leading to its securitization
