that's a good thing. Learning how to propagate your own plants can result in a great deal of savings and/or earnings. Everyone in my family from nieces and nephews to grandmas and grandpas spent some time dabbling in our nursery. Our two sons learned work ethics and the value of a dollar. They also learned to appreciate and at times be awed by nature. It took me 35 years of crawling around in the dirt on my hands and knees to learn what I share with you in this book. Reflecting on those years I cannot think of a more rewarding way to spend the better part of my life. It is my sincere hope that you share what you learn in this book with the children in your life. Kids love to garden and there is no better way to spend quality time with a child than teaching them how to garden. Plants are the heartbeat of the earth. If we can teach kids how to propagate plants, care for them and admire and respect the plants of this planet, you and I will leave this earth in very capable hands. Jump in, get dirty. Get lost in the magic of plant propagation.
