

Balance

BY DORIANNE LAUX

I'm remembering again, the day
we stood on the porch and you smoked
while the old man told you
about his basement full of wine,
his bad heart and the doctor's warning,
how he held the dusty bottle out to you,
glad, he said, to give it away
to someone who appreciated
its value and spirit, the years
it took to settle into its richness
and worth. I'm watching again,
each cell alive, as you reach
for the wine, your forearm exposed
below the rolled sleeve, the fine hairs
that sweep along the muscle, glowing,
lifting a little in the afternoon breeze.
I'm memorizing the shape of the moment:
your hand and the small bones
lengthening beneath the skin
as it tightens in the gripping,
in the receiving of the gift, the exact
texture and color of your skin,
and the old man's face, reduced
to its essence. That,
and the brief second
when both of you had a hand on the bottle—
the thing not yet given,
not yet taken, but held
between you, stoppered, full.
And my body is flooded again
with an elemental joy,
holding onto it against another day
in the unknowable future when I'm given
terrible news, some dark burden
I'll be forced to carry. I know
this is useless, and can't possibly work,
but I'm saving that moment, for balance.

THE POETRY AND 'STRATEGIES' OF ALLEN TATE. LEE FLORIAN GERLACH,1955 *Sense of Emptiness* Pernilla Hallonsten, Marina Shchepetunina, Junichi Toyota, 2011-12-08 Human perception is often believed to function holistically especially in the tradition of Gestalt psychology involving a focused item and its surrounding This holistic approach can allow us to explain something that is not directly experienced in our perception meaning that the absence as well as the presence of something can have a significant impact on how we perceive the world The way we perceive the presence is more or less the same cross culturally but the prominence of the absence or what is termed emptiness in this volume varies considerably from one culture to another The aim of this volume is to identify what emptiness is like and how different cultures incorporate this concept from various perspectives It turns out that emptiness plays a key role in identifying socio cultural diversity in a broader sense including arts and languages This volume consists of contributions from different fields covering a wide range of topics such as history literary studies mythology film studies architecture linguistics social anthropology ethnology and cognitive science Due to the range covered in this volume studies presented here are highly interdisciplinary but all chapters deal with the sense of emptiness which suggest that the underlying idea of the significance of emptiness is pervasive Yet this topic has not previously been systematically compared across different disciplines It is hoped that this volume will offer a first overview of the pervasiveness and integration of disciplines concerning the sense of emptiness
