Dawnbringer: The Complete Story Joshua Elzner, 2024-04-08 A complete epic medieval fantasy saga Dawnbringer is a series of novels set in the world of Ierendal upon the small continent of Telmerion cold and rugged and yet inhabited since the beginning of human history by the first family of humankind Though the setting is high fantasy a work of co creative imagination fashioning a mythical world with its own history and geography the plot and the ins and outs of the world are deeply realistic portraying as it were an ancient and long forgotten past of our own world Or more precisely what is offered here is a mythical exposition of the true past that we all share with very little magic or other fantasy tropes but with a great deal of magic in other words a world filled with wonders and terrors of all kinds from the ancient guardians of the world the Anaion to vicious and deadly beasts such as dragons e tenga and druadach The characters find themselves caught in the

cosmic battle between light and darkness between the weakness of love and the power of hate which casts its rays and its shadows also into the heart of every man and woman The journey marked out before their feet calls for integrity fidelity and heroism and also something even more something that lies at the heart of every good adventure and every life and which is the very measure of man When Eldarien returns to his homeland after many years away burdened by the awareness that he has perpetrated great evil at the hands of an Empire whose knight he has become he encounters a continent riven by strife and war and threatened by creatures even more horrifying born of the very darkness itself He wishes to lay aside the sword to leave behind a past marked with violence and bloodshed but he also longs to aid his people against the forces that endanger their very existence And such a path he cannot walk alone facing obstacles both within and without and he finds given to him both the light that he wishes to serve and friends to share the journey All the while the land that he loves slides inexorably into conflict into what shall be known henceforth as the War of Darkness and he and those to whom he is joined are called upon to share the fate of their people looking forward in hope to the promised coming of dawn after darkest night Throughout time myth has been one of the fundamental activities of the human heart as it seeks to contemplate and understand the mystery of reality to find a path through the fabric of history as its tapestry is ever woven a path that unveils meaning in the enigmas of life and gives sense and stability to the drama of existence But especially the activity of myth of fantasy is born of a primal wonder before the awesome miracle of being and of the fundamental human activity which is play and serves to keep this wonder and play alive always In precisely this way it has been and shall always be a catalyst to enkindle and deepen the longing in the heart of each one of us for redemption for a new and better world a world where righteousness and happiness dwell and all is freedom and purpose unity and harmony ecstatic delight and true adventure Such does Dawnbringer humbly seek stepping into the flowing current of thought and imagination as it surges on through history offering in a narrative of proportions both intimate and epic a glimpse of the light that shines upon us all and of the conflict that resides at the center of every life that the weak again may be strong and the child again may be king **A**

Literature, Science and Arts ,1894 Leviticus de Tenebris Tyson Teeples,2024-05-11 In book II of the Exodus Ad Aeternum series continue the adventure of the warrior as he takes what he learned at the mountain summit and returns to the misted lowlands to illuminate the shadows deep in the fissures of his mind Here he considers the possibility that the characteristics he fears represses rejects and hides all have the potential to become powerful assets In the depths of the valley of the shadows the hero finally understands his worth in this vast universe embracing his character strengths and weaknesses personality heights and depths conscious action and unconscious instinct divine light and diabolical darkness and brings both halves of his existence into one complete whole As he descends into the depths of his soul there is another who has awoken and begins her ascent up the mountain to find her purpose in the presence of the divine Along the way she encounters prophets and parchments learning powerful principles of personal perception **Consciousness in Jung and Patañjali** Leanne Whitney,2017-08-03 The East West dialogue increasingly seeks to compare and clarify contrasting views on the nature of consciousness For the Eastern liberatory models where a nondual view of consciousness is primary the challenge lies in articulating how consciousness and the manifold contents of consciousness are singular Western empirical science on the other hand must provide a convincing account of how consciousness arises from matter By placing the theories of Jung and Pata jali in dialogue with one another Consciousness in Jung and Pata jali illuminates significant differences between dual and nondual psychological theory and teases apart the essential discernments that theoreticians must make between epistemic states and ontic beliefs Pata jali s Classical Yoga one of the six orthodox Hindu philosophies is a classic of Eastern and world thought Pata jali teaches that notions of a separate egoic I are little more than forms of mistaken identity that we experience in our attempts to take ownership of consciousness Carl Jung s depth psychology which remains deeply influential to psychologists religious scholars and artists alike argues that ego consciousness developed out of the unconscious over the course of evolution By exploring the work of key theoreticians from both schools of thought particularly those whose ideas are derived from an integration of theory and practice Whitney explores the extent to which the seemingly irremediable split between Jung and Pata jali s ontological beliefs can in fact be reconciled This thorough and insightful work will be essential reading for academics theoreticians and postgraduate students in the fields of psychology philosophy of science and consciousness studies It will also appeal to those interested in the East West psychological and philosophical dialogue
