Grantham, 2018-12-13 This collection of essays investigates the way in which modern private law apportions responsibility between multiple parties who are or may be responsible for the same legal event It examines both doctrines and principles that share responsibility between plaintiffs and defendants on the one hand and between multiple defendants on the other The doctrines examined include those originating doctrines which operate to create shared liabilities in the first place such as vicarious and accessorial liability and more centrally those doctrines that operate to distribute the liabilities and responsibilities so created These include the doctrine of contributory comparative negligence joint and several solidary liability contribution reimbursement and proportionate liability as well as defences and principles of equitable allowance that permit both losses and gains to be shared between parties to civil proceedings The work also considers the principles which

apportion liability between multiple defendants and insurers in cases in which the cause or timing of a particular loss is hard to determine The contributions to this volume offer important perspectives on the law in the UK USA Canada Australia and New Zealand as well as a number of civilian jurisdictions They explicate the main rules and trends and offer critical insights on the growth and distribution of shared responsibilities from a number of different perspectives historical comparative empirical doctrinal and philosophical

Imprisonment in England and Wales Christopher Harding,Bill Hines,Richard Ireland,Philip Rawlings,2023-10-25 Originally published in 1985 Imprisonment in England and Wales is an account of the changing functions and conditions of imprisonment in England and Wales from the Medieval period to the present day It is designed both as a text for students and teachers of history law and social science and as an introduction to the subject for more general readers and is one of the few attempts to provide an overall view of the institution of imprisonment in this country over a period of several centuries The authors have made use of original sources and other research to provide an accessible account of the subject combining essential factual detail with an analysis of the use of imprisonment It is therefore particularly of interest to those approaching the subject for the first time and is also intended to provide guidance for further research into particular areas of the subject The authors draw upon their respective knowledge of four main periods to show how imprisonment has performed a number of different functions the punishment and reform of convicted offenders the coercion of debtors the custody of persons awaiting trial and more generally the containment of society's undesirables At the same time the institution of imprisonment is put into the context of wider social political and economic forces and related to the development of an increasingly centralised and incursive system of criminal law as well as to the use and disuse of other forms of punishment and legal control This discussion is supported by an account of the characteristics of prisons the problems of administration and the implementation of penal and reformative policy Surrey Record Society ,1929

Medieval Maidens Kim M. Philips,2003-06-28 The medieval landscape as viewed through the eyes of scholars was hardly populated by women Particularly young unmarried women or maidens have been paid little attention This book aims to fill that gap by examining the meaning experiences and voices of young womanhood The life phase of adolescence was different for maidens than for young men and as such merits study in its own right At the same time a study of young womanhood provides insights into ideals of feminine gender roles and identities at different social levels

Violence, Custom and Law Cynthia J. Neville,2019-08-06 Centuries long hostility between Scotland and England affected the pattern of criminal activity in the Anglo Scottish Border lands This is a fascinating account of how the area created and refined a new system of law to deal with the conflict in the thirteenth to fifteenth centuries **The Johns**

Hopkins University Studies in Historical and Political Science ,1926 *Isabella and the Strange Death of Edward II*
Paul Doherty,2013-08-15 In chess from the time of Queen Isabella of England the queen has been considered the most powerful and feared piece on the board Known to chroniclers as the she wolf Isabella daughter of Philip IV of France married King Edward II of England in 1308 in a union intended to create a lasting peace between the two countries But after 13 years of enduring her husband s unkind and dissolute nature she fled abroad With her lover the exiled Roger Mortimer she raised an army of mercenaries and invaded England successfully deposing Edward Popular belief holds that Edward was murdered in an infamous manner at Berkeley Castle near Gloucester at the order of his wife and her lover But after Mortimer s execution a letter arrived at court that cast doubt over Edward s death and raised the possibility of his escape The evidence remains controversial to this day and here Paul Doherty examines it in his fascinating detective study set in one of the most turbulent and exciting periods of English history [The Green Bag](#) ,1902 Includes index 1 v **A Calendar of New Forest Documents, 1244-1334** David J.
