Selected Essays Andrey Bely, 1985 *Selected Essays of Andrey Bely* Andrey Bely, 1985 **Andrey Bely** John E. Malmstad, 2019-05-15 No figure in turn of the century Russia John Malmstad asserts better epitomizes the paradoxes of that era than Andrey Bely 1880 1934 Eulogized by Boris Pasternak as the most remarkable writer of our age and now widely regarded as the seminal figure in Russian modernism and as one of the major writers of this century Bely subjected the received standards of truth and value in literature to a penetrating and radical critique After a long period of suppression under the Stalinist regime Bely has become the object of growing critical attention in both East and West Originating in a symposium held in 1984 under the auspices of the Harriman Institute at Columbia University on the fiftieth anniversary of Bely's death this volume includes ten essays by established scholars of modern Russian literature including leading Western specialists on Bely The essays survey Bely's major works in all genres summarize present research on Bely reassess critical approaches and offer fresh interpretations Analytic summaries of primary works make the essays fully accessible to non Slavist readers *A Reader's Guide to Andrei Bely's "Petersburg"* Leonid Livak, 2019-01-15 Andrei Bely's 1913 masterwork *Petersburg* is widely regarded as the most important Russian novel of the twentieth century Vladimir Nabokov ranked it with James Joyce's *Ulysses* Franz Kafka's *Metamorphosis* and Marcel Proust's *In Search of Lost Time* Few artistic works created before the First World War encapsulate and articulate the sensibility ideas phobias and aspirations of Russian and transnational modernism as comprehensively Bely expected his audience to participate in unraveling the work's many meanings narrative strains and patterns of details In their essays the contributors clarify these complexities summarize the intellectual and artistic contexts that informed *Petersburg*'s creation and reception and review the interpretive possibilities contained in the novel This volume will aid a broad audience of Anglophone readers in understanding and appreciating *Petersburg* **Selected Essays** Viacheslav Ivanovich Ivanov, 2001 A poet critic and theoretician at the turn of the 20th century Viacheslav Ivanov was dubbed Viacheslav the Magnificent by his contemporaries This volume of essays covers a broad range of Ivanov's interests including the aesthetics of Symbolism theatre and culturological concerns *The Symphonies* Andrei Bely, 2021-11-02 Andrei Bely is best known for the modernist masterwork *Petersburg* a paradigmatic example of how modern writers strove to evoke the fragmentation of language narrative and consciousness In the early twentieth century Bely embarked on his life as an artist with texts he called symphonies works experimenting with genre and sound written in a style that shifts among prosaic poetic and musical This book presents Bely's four Symphonies Dramatic Symphony Northern Symphony The Return and Goblet of Blizzards fantastically strange stories that capture the banality of life the intimacy of love and the enchantment of art The Symphonies are quintessential works of modernist innovation in which Bely developed an evocative mythology and distinctive aesthetics Influenced by Russian Symbolism Bely believed that the role of modern artists was to imbue seemingly small details with cosmic significance The Symphonies depict the drabness

of daily life with distinct irony and satire and then soar out of turn of the century Moscow into the realm of the infinite and eternal They conjure worlds that resemble our own but reveal elements of artifice and magic hinting at mystical truths and the complete transfiguration of life Showcasing the protean quality of Bely's language and storytelling Jonathan Stone's translation of the Symphonies features some of the most captivating and beguiling writing of Russia's Silver Age

Between Crisis and Catastrophe Andrei Bely, 2016-03-15 Andrei Bely was the greatest Russian writer of the twentieth century Chiefly known outside of Russia as a novelist his *Petersburg* is the best modern Russian novel he was also a leading symbolist poet and profound philosophical critic Bely was also a mystic who had an unsurpassed ability to express his visions in writing and he often did so in the form of lyrical essays a selection of which is offered here Many of these essays were written as the twentieth century stood at the threshold of a new epoch For Bely a new religious consciousness was emerging rooted in Vladimir Solovyov's visions of Sophia and Nietzsche's proclamation that a new man was on the verge of being created A new dawn both joyful and terrifying was already visible on the horizon The artist is the creator of the universe Andrei Bely declares in one of his philosophical prose poems collected in this book Roaming fluidly between poetry and theory between analysis and reverie Bely transforms the material and intellectual revolution of modernity into an aesthetic revolution and at the same time presages the revolutionary political upheaval of the twentieth century In Boris Jakim's capable translation Bely's intriguing breathless improvisations sparkle with insight and wit Robert Bird Dept of Slavic Languages and Literature Univ of Chicago Andrei Bely poet novelist and thinker was one of the central figures of early twentieth century Russian literature His thought represented by the nine essays collected here examining in depth the works

of Tolstoy Vladimir Solovyov Nietzsche and the Russian poets particularly his fellow Symbolists is remarkable both in its scope and in its form of expression His style combines visionary exaltation with self humor in a way uniquely his own Our salvation as he writes in the final essay lies in playful exuberance Boris Jakim succeeds at the almost impossible task of capturing that quality in his fine translations Richard Pevear translator of War and Peace and The Brothers Karamazov For Andrei Bely every question is a religious question every answer a religious answer The essays included in this collection each in its own way figure as both question and answer For with Bely all that is important in human life art meaning struggle discovery shimmers in a metaxu whose domain is precisely that of religion as the site of revelation These essays apocalyptic imaginal gnomic though written nearly a century ago nevertheless provide us with new ways of seeing the implicitly poetic integral and eminently religious nature of both human existence and the structure of the world Boris Jakim is to be commended for the gift of this translation which provides the English speaking world a much needed alternative to the prevailing religious discourses so preoccupied with apologetics and polemics and so forgetful of poetry and mysticism Michael Martin author of The Submerged Reality Sophiology and the Turn to a Poetic Metaphysics At the Crossroads of the Senses Polina Dimova, 2024-12-03 Inspired by Richard Wagner s idea of the total artwork European modernist artists began to pursue multimedia projects that mixed colors sounds and shapes Polina Dimova s At the Crossroads of the Senses traces this new sensory experience of synaesthesia the physiological or figurative blending of senses as a modernist phenomenon from its scientific description in the late nineteenth century to its prevalence in the early twentieth Structured around twenty theses on synaesthesia this book explores the integral relationship between modernist art science and technology tracing not only how modernist artists perceptually internalized and absorbed technology and its effects but also how they appropriated it to achieve their own aesthetic metaphysical and social goals Through case studies of prominent multimodal artists Oscar Wilde Aubrey Beardsley Richard Strauss Aleksandr Scriabin Wassily Kandinsky František Kupka Andrei Bely and Rainer Maria Rilke At the Crossroads of the Senses reveals the color forms and color sounds that for these artists laid the foundations of the world and served as the catalyst for the flourishing exchanges among the arts at the fin de siècle Rooted in archival research in France Germany Russia and the Czech Republic At the Crossroads of the Senses taps overlooked scientific sources to offer a fresh perspective on European modernism Sensory studies scholars literary critics and art and music historians alike will welcome its many contributions not least among them a refreshing advocacy for a kind of sensuous reading practice *Gogol's Artistry* Andrei Bely, 2009-07-05 When one great author engages another as Andrei Bely so brilliantly does in Gogol s Artistry the result is inevitably a telling portrait of both writers So it is in Gogol s Artistry Translated into English for the first time this idiosyncratic exhaustive critical study is as interesting for what it tells us about Bely s thought and method as it is for its insights into the oeuvre of his literary predecessor Bely s argument in this book is that Gogol s earlier writing should be given more consideration than most critics have granted Employing what might be

called a scientific perspective Bely considers how often certain colors appear he diagrams sentences and discusses Gogol s prose in terms of mathematical equations The result as strange and engaging as Bely s best fiction is also an innovative thorough and remarkably revealing work of criticism
