Longterm Care For Frail Older People:

Long-Term Care for Frail Older People John C. Campbell, Naoki Ikegami, 2012-12-06 The aging of society is a growing concern in all advanced nations and at the forefront of concern is long term care for frail older people Enactment of a new public long term care insurance program by the Japanese government in 1997 provided an excellent opportunity for a conference focusing on an ideal long term care system for frail older people The conference was organized around four major themes Social aspects including family dynamics and the role of formal providers Clinical aspects including effective treatments for physical and mental disabilities Macroeconomic and macropolitical settings for public policy Program design and management issues With contributions from the fields of medicine nursing social work gerontology political science economics and sociology this volume provides an overview of key problems and possible solutions in programs for frail older people from a unique international perspective *Improving the Quality of Long-Term Care* Institute of Medicine, Division of Health Care Services, Committee on Improving Quality in Long-Term Care, 2001-02-27 Among the issues confronting America is long term care for frail older persons and others with chronic conditions and functional limitations that limit their ability to care for themselves *Improving the Quality of Long Term Care* takes a comprehensive look at the quality of care and quality of life in long term care including nursing homes home health agencies residential care facilities family members and a variety of others This book describes the current state of long term care identifying problem areas and offering recommendations for federal and state policymakers Who uses long term care How have the characteristics of this population changed over time What paths do people follow in long term care The committee provides the latest information on these and other key questions This book explores strengths and limitations of available data and research literature especially for settings other than nursing homes on methods to measure oversee and improve the quality of long term care The committee makes recommendations on setting and enforcing standards of care strengthening the caregiving workforce reimbursement issues and expanding the knowledge base to guide organizational and individual caregivers in improving the quality of care

Handbook of Long-Term Care Administration and Policy Cynthia Massie Mara, Laura Olson, 2008-03-27 Attitudes toward long term care contain a strong residue of negativity in today's society and current problems with the system augment such perceptions Unless dealt with now this will only get worse as the 85 and older crowd is the fastest growing part of the population and the first wave of Baby Boomers is approaching 60 Exploring and delineating **The OECD Health Project Long-term Care for Older People** OECD, 2005-06-30 This study reports on the latest trends in long term care policies in nineteen OECD countries and studies lessons learned from countries that undertook major reforms over the past decade Frailty in Aging O., Theou, K., Rockwood, 2015-07-20 Frailty represents an important challenge for aging populations As a concept it is full of known unknowns such as which mechanisms lead to frailty and how it is best managed In order to examine these circumstances the new science of understanding and managing frailty requires an appropriate

framing of the problem This publication investigates the biology and management of frailty and its social aspects It considers these and related questions How can we recognize frailty How does an understanding of frailty increase our comprehension of the aging process What are its implications for health care systems including primary care hospitals and rehabilitation How will a growing number of frail older adults affect society more generally The book focuses on frailty as a state of vulnerability which is related to aging but which can occur across the life course and aims to improve the life of frail people and those around them The book is highly recommended to researchers in aging health science researchers health care professionals and anyone interested in the understanding of the aging process
