International Migrants in Japan Yoshitaka Ishikawa, 2015 Japan faces multiple challenges in an era of population decline Problems such as aging and a decreasing working age population are expected to increase in severity so tackling these challenges and examining the contributions that immigrants can make to society are vital for Japan

s future What contributions do foreign residents make to Japan especially in the labor market How do national and local government policies effect the settlement and permanent residence of foreign nationals Are issues such as social mobility and quality of life of foreigners the fertility of foreign women and long term trends in naturalization important What support does Japan offer to immigrants As a new country of immigration the need to examine such questions is growing This book takes a geographical perspective in examining the necessity of immigration and how foreign residents are helping to alleviate the problem of population decline in contemporary Japan Over the last thirty years Japan has become a country of immigration again While the literature on migration to Japan is growing reliable data on the issue is still scarce Yoshitaka Ishikawa s edited volume is a major contribution to filling this void Overall the papers compiled in the book are a good introduction to the complex and multifaceted realities of newcomer migrants and shed light on some understudied quantitative and qualitative aspects of migration to Japan Pacific Affairs Vol 89 No 4 December 2016 Series Japanese Society Subject Sociology Japanese Studies Asian Studies Migration Studies Labor Studies *Southeast Asia's Credit Revolution* Aditya Goenka,David Henley,2013-09-05 Southeast Asia s Credit Revolution describes and explains the rise of microfinance the provision of credit and other financial services for the poor in Southeast Asia over the past four decades the most consistently successful region of the developing world In recent years microfinance has come to be seen as a key weapon in the battle against global poverty generating more enthusiasm and optimism than any other development strategy Southeast Asia has a special place in the history of microfinance Historically Southeast Asian societies and economies were perceived as almost uniquely debt ridden and credit constrained In the twentieth century however the region was in the forefront of the modern microfinance revolution This book asks what factors have made it possible for formal microfinance institutions to replace moneylenders and other traditional credit providers Bringing together economists sociologists anthropologists and historians the book covers seven Southeast Asian countries The topic is explored from cultural and institutional as well as economic perspectives and policy relevant lessons are offered for the design of successful microfinance institutions Focusing on recent developments while putting them in historical context this will be an important text for scholars and students of economic history finance institutional economics and Asian Studies *Creating Subaltern Counterpublics* A-gwi Sŏ,2017 This is a study of a political and social movement instigated by older Korean women in Japan beginning in the 1990s Koreans in Japan have occupied an unique position among ethnic minority groups Until recently they constituted the largest group of foreign nationals yet they have been marginalized politically socially economically and culturally Korean women are doubly disadvantaged treated as inferior to men by both Korean and Japanese society Furthermore the first generation of Korean women migrants were not educated as children rendering them functionally illiterate and thus triply marginalized Late in life when family and work responsibilities became less onerous local authorities created educational opportunities which the women took up in unexpected numbers overloading the facilities The authorities responses effectively re marginalized them

The elderly Korean women took a stance and in the process reconstituted themselves as social and political actors This book examines that self transformation process Series Japanese Society Series Subject Gender Studies Japanese Studies Korean Studies Migrant Studies **Civilizing the Margins** Christopher R. Duncan,2008 Discusses the programs policies and laws that affect ethnic minorities in eight countries Burma Cambodia Indonesia Laos Malaysia the Philippines Thailand and Viet Nam Once targeted for intervention people such as the Orang Asli of Malaysia and the hill tribes of Thailand often become the subject of programs aimed at radically changing their lifestyles which the government views as backward or primitive Several chapters highlight the tragic consequences of forced resettlement a common result of these programs

Globalizing Japan Ross E. Mouer,2015 The Japanese people are again struggling with their nation s insularity The Meiji Restoration and the end of the Asia Pacific War gave way to concerted efforts to connect the country with the outside world As the Japanese economy emerged from two decades of stagnant growth there was wide consensus that the society was increasingly grappling with the problems shared globally and that both its economy and internal policy debates would benefit from being more fully engaged in discourses and research activity occurring outside its borders This book considers the efforts of policy makers to reorient Japan to the outside world as the nation enters the second decade of the 21st century It discusses the strategies being pursued by Japan s policy makers enhancing the involvement of the Japanese in global networks improving English language skills hiring more foreign labor lifting the stature of tertiary education on internationally recognized league tables creating favorable images of a Japanese cultured society abroad The book considers the changing geopolitical landscape and the social backdrop against which such policies are being introduced while also assessing the prospects that the Japanese will experience a third opening any time soon Overall the volume provides insight into some of the critical choices likely to shape Japan s interface with the outside world and the direction in which Japanese society moves during the next decade Series Japanese Society Subject Politics Sociology Japanese Studies Asian Studies
