animals of superhuman gentleness join their little paws like hands in prayer Two and a half million people now visit the Museum each year to share in these enchantments The American Museum houses the most extensive collection of Northwest Coast Indian art in existence It includes material from virtually every Indian group that once lived along the west coast of British Columbia and Alaska In this book Dr Aldona Jonaitis traces the history of this magnificent collection beginning in the late nineteenth century before those coastal peoples had much contact with Europeans and their customs languages and art were still intact Shortly after the collections was formed between 1880 and 1910 Indian culture in this region went into a severe decline to be revived a half century later as another generation of North Americans discovered their heritage The story alternately captivates and distresses Populations were decimated by disease in the last years of the nineteenth century art objects left their makers hands bound for museums all over the world traditional rituals were outlawed and governments exerted strong pressures on the Indians to become assimilated On the other side of the story are the individuals like Franz Boas under whose direction much of the Museum collection was assembled Lt George Thornton Emmons who immersed himself in the native cultures George Hunt prized Kwakiutl informant for Boas and other researchers and Charles Edenshaw master Haida carver and painter whose colorful lives intersect the Age of Museum Collecting Artifacts in the American Museum come alive through the details Dr Jonaitis provides of their cultural context their traditional uses and their acquisition by collectors Viewers see spoons and bowls that held food eaten by Boas at a potlatch feel the spirit power emanating from a shaman s charm removed from its owner s grave by Lieutenant Emmons sense the sadness behind the display of family crests on a house model carved by Edenshaw Nearly 100 color plates in the book and numerous historical photographs from the Museum s archives recall a bygone era and are a tribute to the stunning artworks of the North Pacific region Dr Jonaitis has written the first book devoted solely to the collection of Northwest Coast Indian art in the American Museum of Natural History As such the book is both an essential work for scholars and a valuable resource for the general reader

Canadian National Cinema Chris Gittings,2012-10-02 Canadian National Cinema explores the

idea of the nation across Canada's film history from early films of colonisation and white settlement such as *The Wheatfields of Canada* and *Back to God's Country* to recent films like *NLE Confessional*, *Mon Oncle Antoine*, *Grey Fox*, *Highway 61*, *Kanehsatake* and *I've Heard the Mermaids Singing*. **Looking at Indian Art of the Northwest Coast** Hilary Stewart, 2009-09-01 Bold inventive indigenous art of the Northwest Coast is distinguished by its sophistication and complexity. It is also composed of basically simple elements which guided by a rich mythology create images of striking power. In *Looking at Indian Art of the Northwest Coast* Hilary Stewart introduces the elements of style, interprets the myths and legends which shape the motifs and defines and illustrates the stylistic differences between the major cultural groupings: Raven, Thunderbird, Killer Whale, Bear. All the traditional forms are here deftly analyzed by a professional writer and artist who has a deep understanding of this powerful culture. **Unpacking Culture** Ruth B. Phillips, Christopher B. Steiner, 1999-01-30 Tourist art production is a global phenomenon and is increasingly recognized as an important and authentic expression of indigenous visual traditions. These thoughtful engaging essays provide a comparative perspective on the history, character and impact of tourist art in colonized societies in three areas of the world: Africa, Oceania and North America. Ranging broadly historically and geographically, *Unpacking Culture* is the first collection to bring together substantial case studies on this topic from around the world. **Discovering Totem Poles** Aldona Jonaitis, 2016-06-01 Rising from a forest mist or soaring overhead in parks and museums, magnificent cedar totem poles have captured the attention and imagination of visitors to Washington, State, British Columbia and Alaska. *Discovering Totem Poles* is the first guidebook to focus on the complex and fascinating histories of the specific poles visitors encounter in Seattle, Victoria, Vancouver, Alert Bay, Prince Rupert, Haida Gwaii, Queen Charlotte Islands, Ketchikan, Sitka and Juneau. It debunks common misconceptions about totem poles and explores the stories behind the making and displaying of 90 different poles. Travelers with this guide in their pockets will return home with a deeper knowledge of the monumental carvings, their place in history and the people who made them.
